27 Nation, and the restoration, preservation, and enhancement of land and water resources
28 within the Navajo Nation. 4 N.N.C. § 1303.

29
30 **SECTION TWO. FINDINGS.**

- 1 A. On August 5, 2015, the United States Environmental Protection Agency ("U.S. EPA")
2 and its contractors triggered a blowout of the Gold King Mine near Silverton, CO, while
3 excavating the mine in preparation for a possible cleanup.
- 4 B. The blowout released at least three million gallons of toxic acid mine wastewater into
5 Cement Creek, a tributary of the Animas River which flows into the San Juan River
6 and through the Navajo Nation. At least 880,000 pounds of heavy metals poured out
7 and coursed through downstream waterways, including approximately two hundred
8 miles of the San Juan River.
- 9 C. Prior to the spill, the San Juan River provided water to many Navajo farmers and
10 ranchers for irrigation of crops, livestock drinking water, and personal drinking water.
11 The San Juan River is and remains not only an important water resource for agricultural
12 use, but also of great cultural significance for the Diné people.
- 13 D. As a result of the spill, water utilities were forced to shut down intake valves, and
14 farmers stopped drawing from the rivers as the plume moved downstream. One of the
15 Navajo people's most important sources of water for life and livelihood was poisoned
16 with some of the worst contaminants known to man, including lead and arsenic. The
17 impact of this environmental disaster cannot be overstated. On August 8, 2015, the
18 Navajo Nation declared a State of Emergency for the San Juan River valley.
- 19 E. In addition, the Navajo Nation Environmental Protection Agency ("NN EPA")
20 conducted water quality monitoring and ecological restoration activities including,
21 among other things, sediment sampling and a fish tissue contaminant study to
22 understand contaminant levels and potential human health risks associated with the
23 spill.
- 24 F. NN EPA also developed a report on livestock and irrigation water quality standards,
25 tracked metal sources through ongoing studies, created a communication strategy,
26 assessed and stored analytical water quality data, and assisted the U.S. EPA and the
27 U.S. Geological Survey with other technical studies.
- 28 G. In the months immediately after the spill, the U.S. EPA publicly acknowledged its fault.
29 Additionally, two different Congressional committees found the U.S. EPA to be at fault
30 for the spill.

- 1 H. On August 16, 2016, the Navajo Nation filed a lawsuit against the U.S. EPA and its
2 contractors, as well as several mining companies, in the US District Court for the
3 District of New Mexico (*Navajo Nation v. USEPA, et al.*, No. 1:16-cv-00931
4 (D.N.M.)). The lawsuit seeks recovery for damages caused by the August 2015 spill,
5 as well as reimbursement for costs spent responding to the spill. The Navajo Nation's
6 case was eventually consolidated into *In re Gold King Mine Release in San Juan*
7 *County, Colorado on August 5, 2015*, 1:18-md-02824 (D.N.M.) (the "Consolidated
8 Case") with similar suits brought by the States of New Mexico and Utah.
- 9 I. In September 2016, the U.S. EPA designated the Gold King Mine and 47 other mining
10 sites in the area a Superfund cleanup district. The U.S. EPA worked with Navajo
11 Nation Department of Emergency Management to provide alternative drinking,
12 agricultural, and livestock water and feed.
- 13 J. In December 2016, the Nation submitted an administrative claim to the U.S. EPA under
14 the Federal Tort Claims Act, a prerequisite to suing the United States in tort, in the
15 amount of approximately \$160 million.
- 16 K. In addition, claims on behalf of approximately 300 individual Navajo tribal members
17 remain pending in *Allen et al. v. United States, et al.*, 1:18-CV-00744 (D.N.M.). These
18 claims were filed in a separate 2018 lawsuit by the Egolf Ferlic Martinez & Harwood
19 Law Firm, and are also coordinated into the Consolidated Case, *In re Gold King Mine*
20 *Release in San Juan County, Colorado on August 5, 2015*, 1:18-md-02824 (D.N.M.).
- 21 L. On May 11, 2018, the Nation filed a First Amended Complaint to the Consolidated
22 Case adding the United States as a named defendant.
- 23 M. In January 2021, the Nation announced that it had reached a settlement in the
24 Consolidated Case with the defendant mining companies, Kinross Gold Corp., Kinross
25 Gold U.S.A., Inc., and Sunnyside Gold Corp., a subsidiary of Canada's Kinross Gold,
26 in the amount of ten million dollars (\$10,000,000) million to resolve claims from the
27 2015 spill. (Which case was settled or partially settled?
- 28 N. The Nation's lawsuit against the remaining Defendants of the Consolidated Case
29 including the U.S. EPA and its contractors who caused the spill remains ongoing.

Section 2.01 Properties: The Nation does hereby grant to Operator the exclusive right and privilege to investigate, explore, prospect, drill for, mine, extract, remove, produce, sell and dispose of all the Hydrocarbons, at all depths in or under the Properties, together with the right to conduct exploration, geologic and geophysical surveys by seismograph, core test, gravity and magnetic method, injecting gas, water and other fluids, and air into subsurface strata and the right to construct and maintain on, over and across the Properties such structures as may be necessary for the development and operation of the Properties or for the production, storing, maintaining, treating, transporting and ownership of the Hydrocarbons including, but not limited to, pipelines, roads, tanks, power stations, and data or communication lines consistent with the terms of this Agreement.

Section 2.02 Term.

(a) Primary Term. The initial term of the OA shall be for a period of ten (10) years, which may be extended for up to one (1) additional year upon either Party providing written notice to the other Party of such extension at least ninety (90) days prior to the tenth (10th) anniversary of the Effective Date (such period, the *“Primary Term”*).

(b) Secondary Term. After the Primary Term, the term of the OA shall continue in full force and effect as to the Held Acreage for the period of time during which any Well located on the associated Held Acreage is producing or is Capable of Producing Hydrocarbons in Paying Quantities consistent with the terms of this Agreement (such period, the *“Secondary Term”*); *provided, however*, if the Secondary Term is only being perpetuated by one or more Wells that are not producing and are only Capable of Producing Hydrocarbons in Paying Quantities and each such Well has remained idle for more than six (6) consecutive months (as determined on a Well-by-Well basis) for any reason other than as a result of an event of Force Majeure, then the Secondary Term shall expire and this OA will terminate.

Section 2.03 Exclusive Rights. Operator’s exclusive rights and privileges to conduct Hydrocarbon exploration and development activities on the Properties pursuant to this OA shall commence on the Effective Date and continue through the Primary Term and shall apply to the Held Acreage for the duration of the Secondary Term.

Section 2.04 Held Acreage.

(a) At the expiration of the Primary Term, this OA shall partially terminate as to all parts of the Properties save and except the Held Acreage, and Operator shall promptly designate the Held Acreage in writing. The Held Acreage shall (i) encompass all lateral portions of all such applicable Wells and (ii) be comprised of complete township sections (as opposed to portions of township sections). The Held Acreage will include an adequate legal description and survey(s) of the lands to be included in the Held Acreage. Exhibit B is herein attached to provide an example of the calculation and description of the Held Acreage and is for illustrative purposes only. Operator will consult with the Navajo Nation Minerals Department on the designation of the Held Acreage and will relinquish the portion of the Properties that is not included within the Held Acreage back to the Nation. Notwithstanding anything contained in this OA to the contrary, any Well that (i) is Capable of Producing Hydrocarbons in Paying Quantities and (ii) has been idle for longer than the six (6) month period immediately preceding the expiration of the Primary Term will not count toward the calculation of Held Acreage at the expiration of the Primary Term.

(b) If Operator needs continuing rights-of-way and easements over, under, upon, through and across the surface and subsurface of any portion of the Properties that have been relinquished to the Nation, to the extent necessary or convenient for Operator and/or its Hydrocarbon purchaser(s) or transporter(s) and/or its fresh or produced water purchaser(s) or transporter(s) to Conduct Operations that may be required by Operator on the Held Acreage or other lands pooled, unitized or communitized therewith, Operator shall seek the appropriate Navajo Nation approval for such access. The Nation's obligations as described herein and in this Agreement shall remain in full force and effect as to the Held Acreage for so long as any Well located on the Held Acreage is producing or is Capable of Producing Hydrocarbons in Paying Quantities.

Section 2.05 Pooling; Communitization. Subject to approval of the Navajo Nation Minerals Department and the Secretary, which shall not be unreasonably withheld conditioned or delayed, Operator shall have the right and power at any time and from time to time as a recurring right, either before or after production, as to all or any part of the Properties or the Held Acreage, depending on whether the Agreement is in the Primary Term or the Secondary Term, and as to any one or more of the formations hereunder, to pool, unitize or communitize the leasehold estate and the mineral estate covered by this Agreement with other lease or leases that are contiguous to the Properties for the production of Hydrocarbons when in Operator's judgment it is necessary or advisable to do so, and irrespective of whether authority similar to this exists with respect to such other lease or leases, unless the terms of the other lease or leases expressly states otherwise. Likewise, units previously formed to include formations not producing Hydrocarbons, may be reformed to exclude such non-producing formations.

Section 2.06 Relinquishment. Operator shall not relinquish any portion of the Properties during the Primary Term. Operator, in its sole discretion, may relinquish any portion of the Held Acreage during the Secondary Term by providing written notice of relinquishment to the Navajo Nation Minerals Department at least ninety (90) days prior to such relinquishment. As to any portion of the Held Acreage relinquished by Operator hereunder, Operator shall promptly file a relinquishment or release instrument in the real property records of San Juan County, New Mexico (or other applicable governmental authority) and provide a copy of same to the Nation and the Secretary.

ARTICLE III.

SURFACE AND SUBSURFACE USE; AUTHORIZATION.

Section 3.01 Access Rights. Without limitation, the Nation hereby grants to and gives its consent for Operator access to the Properties for the purpose of conducting environmental, archaeological, biological and seismic studies preparatory to operations on the OA Area. As of the Effective Date, Operator is hereby authorized to conduct geophysical surveys on all, or any part of the Properties, which shall be without charge for surface damages and/or permit fees in favor of the Nation.

Section 3.02 Surface Rights; Subsurface Rights. Subject to Section 7.14(b), the Nation hereby grants to Operator all such use rights over, under, upon, through and across the surface and subsurface of (a) all of the Properties during the Primary Term and (b) all of the Held Acreage during the Secondary Term, in each case to the extent necessary or convenient for Operator, consistent with Section 2.01 of this Agreement, subject to applicable law and regulation, including all applicable permit requirements, and the terms of this Agreement, including, but not limited to, the following: the right (i) to drill Wells and associated facilities and infrastructure; (ii) to purchase, drill for, withdraw, and produce brackish or other non-fresh water for use on or with respect to Operator's operations; (iii) to purchase, drill for, withdraw, and produce fresh water for use on or with respect to Operator's operations; (iv) to drill disposal or injection wells, and the injection of substances therein; (v) to construct and operate water pits, and/or water re-use, treatment or recycling facilities; (vi) to construct and operate Hydrocarbon transportation, gathering, processing, treating and flaring, and other infrastructure and facilities as may be necessary to operate (a) all

of the Properties during the Primary Term and (b) all of the Held Acreage during the Secondary Term, in each case, including, without limitation, pipelines, roads, tanks, power stations, and data or communication lines; and (vii) to construct and operate permanent and temporary fresh and produced water transportation lines. To the extent necessary for Operator's access to the Properties, the Nation will not unreasonably withhold, condition or delay the issuance of any right-of-way that Operator may request for access over, upon, through and across the surface of the Nation's other lands that are adjacent to the Properties. Operator understands that the application for any right-of-way requires a separate approval process.

Section 3.03 Wells. In addition to Operator Conducting Operations on Wells, Operator may engage in drilling and Conducting Operations on vertical wells for testing, monitoring or other reasons that Operator deems appropriate, subject to applicable law. Operator shall either complete, plug and abandon, or repurpose each well or Well drilled within thirty-six (36) months of rig release of each such well or Well. Subject to 7.14(e), Operator shall plug and abandon any Well that has been shut-in or temporarily abandoned for more than twenty-four (24) consecutive months for any reason other than as a result of an event of Force Majeure.

Section 3.04 Required Permits. The Operator shall obtain such permits and licenses as may be required by applicable Nation and/or Federal authorities for the exploration, development, production and sale of all Hydrocarbons and any related activity including the production or disposal of produced water. Operator shall not be subject to any liability, loss or forfeiture of any rights under this OA for failure to perform any obligation under this OA during the time and to the extent that the failure to do so is caused by the unreasonable withholding, conditioning or delay of approval by any such governmental agency.

The Nation, through its Land Department, Minerals Department, General Land Development Department and other applicable departments, and the Secretary, further agree to review and approve reasonable requests of Operator in a timely manner, from time to time, of all Required Permits and such other permits and authorizations as are necessary or incidental to the conduct of Operator's authorized activities hereunder, including without limitation permits for seismic and other studies, water usage, easements and that the purposes of this Agreement, express or implied, can be fully accomplished without unnecessary or unusual delays. "**Required Permits**" means (i) all approvals, consents, authorizations, licenses, or permits from all applicable governmental authorities with competent jurisdiction over the Properties or any oil and gas operations thereunder; and (ii) all such surface and subsurface rights and easements, service line agreements, rights-of-way, water withdrawal rights, injection rights, and similar rights, in each case, as may be necessary or convenient to immediately thereafter commence and pursue to completion without interruption the operations contemplated in its development and operational plans, including site preparation, construction of surface facilities, and air and water permitting. For the avoidance of doubt, Operator understands that any and all water use associated with Conducting Operations pursuant to this Agreement will require a permit from the Navajo Nation Department of Water Resources, including water used from a non-Navajo water source. All such approvals by the Nation and its departments shall not be unreasonably withheld, conditioned or delayed.

Section 3.05 Laws of the Navajo Nation. Operator shall comply with Navajo Nation laws governing environmental resources, including water and cultural resources, and shall obtain the appropriate Navajo Nation environmental and cultural resource clearances, and grazing clearances, prior to any disturbance of the Properties.

Section 3.06 Setback Requirements. The surface location of any well or Well that Operator drills related to this Agreement will be at least 500 feet away from any main residence, animal corral, ceremonial grounds, sacred offering areas, burial grounds and other areas of sacred or practical importance to the local community and its people. To the extent available, the Nation will provide to Operator a map showing the areas to be covered under this requirement.

Section 3.07 Roads. Operator agrees to gravel any roads that are utilized by Operator for oil and gas operations under this Agreement and will maintain such roads through the term of this Agreement. Operator and its consultants will agree to maintain a 20 MPH maximum speed limit on these roads through the duration of operations.

ARTICLE IV. OPERATOR'S PAYMENT OBLIGATIONS.

Section 4.01 Royalties.

(a) Oil. Subject to Sections 2.05, 4.02 and 4.03, Operator shall with respect to Oil pay **18.75%** of the value at the Bureau of Land Management facility measurement point (point of royalty settlement) of all such Oil produced and saved from the Wells or lands pooled therewith, as determined in accordance with Section 4.03 hereof.

(b) Gas, Natural Gas Liquids. Subject to Sections 2.05 and 4.03, Operator shall with respect to Gas, Natural Gas Liquids and other Hydrocarbons (excluding the gases covered by Section 4.01(c)), pay **18.75%** of the value at the Bureau of Land Management facility measurement point (point of royalty settlement) of such Gas, Natural Gas Liquids and other Hydrocarbons (excluding the gases covered by Section 4.01(c)) produced and saved from the Wells or lands pooled therewith as determined in accordance with Section 4.03 hereof.

(c) Helium, Carbon Dioxide, Argon and Other Non-Hydrocarbon Gases. Subject to Sections 2.05 and 4.03, in the event Operator, in its sole discretion, deems it economically viable to market helium, carbon dioxide, argon or other non-hydrocarbon gases, Operator shall with respect to such helium, carbon dioxide, argon, or other non-Hydrocarbon gases, pay **25%** of the Gross Proceeds received by Operator for the first arm's-length sale of such gases. For purposes of determining royalties owed pursuant to this Section 4.01(c), there shall be no deductions from the Gross Proceeds received. If Gross Proceeds for royalty valuation purposes pursuant to this Section 4.01(c) have been reduced by any costs including but not limited to marketable condition costs, marketing costs, transportation to the point of arm's-length sale or processing costs, by the purchaser, or any other person, that value will be added back to Gross Proceeds for purposes of determining royalties. For purposes of determining royalties as provided in this Section 4.01(c), the point of valuation shall be the Bureau of Land Management facility measuring point.

Section 4.02 Oil Royalty-in-Kind. At the election of the Nation, oil volumes equivalent to the royalty due to the Nation as provided in Section 4.01(a) may be delivered to the Nation in lieu of cash payments hereunder, in each case, and notwithstanding anything in this Agreement to the contrary, at the sole cost, risk, and expense of the Nation, and subject to one-hundred and eighty (180) days' prior written notice of such election (which election may only be revoked on one-hundred and eighty (180) days' prior written notice), provided, however, any election to take oil in-kind or to revoke such election may only be made once per calendar year. If the Nation elects to take its royalty share of oil in-kind as provided in this Section 4.02, (i) Operator will continue to follow all Federal and Nation reporting requirements, and (ii) the Parties agree to negotiate in good faith regarding the specifics of the physical delivery of such oil.

Section 4.03 Valuation of Hydrocarbon and Non-Hydrocarbon Production. The value of all Hydrocarbons produced from the Properties shall be determined in accordance with this Agreement and the provisions of 30 C.F.R. Parts 1202 and 1206 in effect at the time such Hydrocarbons are produced and saved by Operator. To the extent permitted by the regulations referenced in this Section 4.03, in calculating royalty payments owed to the Nation under this Agreement for Hydrocarbons, Operator shall be entitled to deduct from the value of production transportation and processing costs as permitted by ONRR regulations.

The value of helium, carbon dioxide, argon and other non-hydrocarbon Gases shall be determined in accordance with Section 4.01(c).

Section 4.04 ONRR Reporting. Royalties payable under Sections 4.01(a), 4.01(b), and 4.01(c) of this Agreement shall be determined by Operator on a Well-by-Well basis but reported to ONRR on a lease basis in accordance with Section 4.03.

Section 4.05 Bonus. The bonus payable by Operator to the Nation with respect to the Properties will be **Seven Million and no/100 Dollars (\$7,000,000.00)** (the "**Bonus**"). The Bonus is based on the Operator's current good faith assumptions that all net mineral acres in the Properties are owned by the Nation and are available to lease under this OA. The Bonus will be payable to the Nation no later than five (5) business days after the Effective Date.

Section 4.06 Primary Term Delay Rental Payments. Properties for the first year of the Primary Term are held by Operator by payment of the Bonus, as set forth in Section 4.05. After the first year of the Primary Term (beginning on the one-year anniversary of the Effective Date, and on each one-year anniversary thereafter for the duration of the Primary Term), Operator shall pay an advance annual delay rental of **\$10.00** per net mineral acre (the "**Primary Term Delay Rental**") prior to the applicable Primary Term Delay Rental payment date. Annual Primary Term Delay Rental payments will be due on or before the applicable Anniversary Date. Primary Term Delay Rental payments are not recoupable against any royalty payments. Any Primary Term Delay Rental not paid within ten (10) days of the applicable Anniversary Date will be deemed late in accordance with Section 4.08 of this Agreement.

Section 4.07 Secondary Term Delay Rental Payments. Beginning on the effective date of the Secondary Term, and on each one-year anniversary date thereafter for the duration of the Secondary Term, Operator shall pay an advance annual delay rental of **\$2.00** per net mineral acre (the "**Secondary Term Delay Rental**") for any acreage of the Held Acreage that is not relinquished by Operator prior to the applicable Secondary Term Delay Rental payment date. For the avoidance of doubt, in no event shall Operator pay a Secondary Term Delay Rental for any acreage of the Held Acreage that has been relinquished by Operator prior to the applicable Secondary Term Delay Rental payment date. Annual Secondary Term Delay Rental payments will be due on or before the applicable Anniversary Date. Secondary Term Delay Rental payments are not recoupable against any royalty payments. Any Secondary Term Delay Rental not paid within ten (10) days of the applicable Anniversary Date will be deemed late in accordance with Section 4.08 of this Agreement.

Section 4.08 Late Payments. Any payment, including but without limitation, Bonus, royalty, Primary Term Delay Rental, Secondary Term Delay Rental, and damages, not received by the Nation in a timely manner shall bear interest and applicable penalty from the date payment was due to the date payment is received by the Nation at the interest rate then being assessed by ONRR. Any penalties and fees associated with Navajo Nation Taxes will be determined in accordance with Navajo Nation law.

Section 4.09 Navajo Scholarship. Within ten (10) business days after the Effective Date, Operator shall pay **Three Million and no/100 Dollars (\$3,000,000.00)** to the Navajo Nation Scholarship Office for its general scholarship fund. On or before January 31st of each calendar year during the term of this Agreement, Operator shall pay to the Navajo Nation Scholarship Office for its general scholarship fund \$2,000.00 per Well that is producing as of December 31st of the prior calendar year; provided, however, each such annual payment shall not be greater than \$300,000.00 (the annual scholarship payment "ceiling").

Section 4.10 Payment of Navajo Nation Taxes. Operator shall pay when due all applicable Navajo Nation taxes ("**Navajo Nation Taxes**"), provided that Operator may assert any objections it may

have to the applicability or amount of any such tax in accordance with the Uniform Tax Administration Statutes, as amended, 24 N.N.C. § 101 *et seq.*

Operator shall plug and abandon any dry holes in accordance with the terms of this Agreement and the applicable Nation and Federal laws and regulations.

Section 7.04 Dispute Resolution and Navajo Nation Jurisdiction.

(a) Sovereignty of the Nation. Nothing contained herein shall be interpreted as constituting a waiver, express or implied, of the sovereign immunity of the Nation, subject to the standard remedies available to all persons under the Navajo Sovereign Immunity Act, 1 N.N.C. § 554, and specifically provided for in Section 7.04(d) below and 1 N.N.C. §§ 554(J) and (K).

(b) Royalties and Rentals. Any dispute between the Parties involving royalties or rentals due under Article IV of the OA shall be resolved in accordance with the requirements and procedures contained in ONRR's regulations, including 30 C.F.R. Part 1241, or any applicable substitute future regulations. Any other dispute between the Parties concerning the OA shall be resolved in accordance with Sections 7.04(c) and 7.04(d).

(c) Negotiation. In the event of any dispute, the Parties shall use their good faith efforts to resolve the dispute, and each Party shall continue to perform in accordance with the other provisions of this OA during the pendency of the dispute. As a first step to resolving any dispute, the Parties shall attempt to negotiate a just and equitable settlement thereof. Each Party will communicate and/or meet with the other in good faith and attempt to reach a solution satisfactory to both Parties. If either Party fails or refuses to participate in such negotiations or such negotiations do not result in the Parties resolving the dispute within twenty (20) working days after one Party has requested that negotiation begin (and the period is not extended with the consent of the Parties), then either Party may cause the dispute to be referred to arbitration.

(d) Arbitration. If such efforts in Section 7.04(c) are unsuccessful in reaching a resolution of the Parties' dispute within sixty (60) calendar days of commencement of the negotiations, then

either Party may invoke arbitration according to the procedures referenced in the Navajo Sovereign Immunity Act, as amended, at 1 N.N.C. §554(J) and §554(K), and as set forth in the Navajo Nation Arbitration Act, as amended, at 7 N.N.C. §§1101 *et seq.* Such arbitration shall be conducted in accordance with the Commercial Arbitration Rules of the American Arbitration Association, except to the extent such rules are modified by the following:

(i) unless otherwise agreed to in writing by the Parties, all arbitration procedures shall be held in Window Rock, Arizona; and

(ii) the arbitration shall be conducted by a single arbitrator who possesses at least ten (10) years' experience in federal Indian law selected by the mutual agreement of the Parties or, absent such agreement, as provided by the Commercial Arbitration Rules of the American Arbitration Association, unless any claim, individually, or in the aggregate, exceeds \$1,000,000.00, exclusive of interests, costs and fees; in such case the arbitration shall be conducted by a panel of three (3) arbitrators, each Party selecting one (1) arbitrator, with the two (2) arbitrators choosing the third; at least one (1) arbitrator shall possess at least ten (10) years' experience in federal Indian law; and

(iii) notice of intent to invoke arbitration shall be filed in strict compliance with the notice requirements of the Navajo Sovereign Immunity Act, 1 N.N.C. § 555; and

(iv) whether as a result of an arbitration provided for herein or of any judicial action to enforce an arbitration award resulting from such arbitration, any award against the Nation shall be in strict conformance with the provisions of 1 N.N.C. § 554(K)(1-6);

(v) whether in the context of an arbitration provided for herein or of any judicial action to enforce an arbitration award resulting from such arbitration, the laws of the Nation shall exclusively govern the interpretation of this OA, the arbitration provisions set forth herein and the arbitration procedures conducted pursuant thereto, and the application of all the provisions herein to the Operator and its subcontractors, agents, representatives, employees, or consultants; and

(vi) pursuant to 1 N.N.C. §554(K) and 7 N.N.C. §1102, the appropriate Navajo Nation District Court shall have exclusive jurisdiction to compel the Nation's participation in an arbitration, and shall have exclusive jurisdiction to enforce, modify, or vacate an arbitration award resulting from such arbitration; neither Party may recover from the other Party any attorneys fees or costs.

Section 7.05 Jurisdiction. There is expressly reserved to the Nation full territorial legislative, executive and judicial jurisdiction over the OA area, under the OA and all the Properties, including without limitation over all persons, including the public, and all activities conducted or otherwise occurring within the OA area and under the OA, and all the Properties shall be and forever remain Navajo Indian Country for purposes of Nation jurisdiction. Nothing in this clause should be construed to bar arbitration pursuant to Section 7.04(d) and the Navajo Arbitration Act.

Section 7.06 Waiver of Suit: Notwithstanding Section 7.04(b), the negotiation and arbitration provisions contained in this Agreement shall constitute the sole and exclusive procedural remedy to any dispute or controversy arising out of this Agreement. Commencement of negotiations or arbitration shall be a complete defense to any suit, claim, action or proceeding instituted in any Federal, state, or tribal court or any administrative tribunal, with respect to any dispute or controversy arising out of this Agreement that is negotiated or arbitrated as set forth herein.

Section 7.07 Post-Termination; Post-Expiration: The dispute resolution provisions of this Agreement shall, with respect to such any dispute or controversy arising out of this Agreement, survive the termination or expiration of this Agreement.

Section 7.08 Challenges Limited. By entering into this Agreement, Operator expressly covenants and agrees that it shall not contest or challenge the territorial, administrative, legislative, executive or judicial jurisdiction of the Navajo Nation on the basis that such jurisdiction is inconsistent with the status of the Navajo Nation as an Indian tribal Nation, or that the Navajo Nation government is not a government of general jurisdiction, or that the Navajo Nation government does not possess full police power (i.e. the power to legislate and regulate for the public's general health and welfare) over all lands, persons, activities, transactions, or occurrences within its territorial boundaries, or on any other basis not generally applicable in a similar challenge to the jurisdiction of a state government. Nothing in this section shall be construed to negate or impair federal responsibilities with respect to the Parties.

Section 7.09 Force Majeure.

(a) Force Majeure Defined. For purposes of this OA, "*Force Majeure*" is defined to include strikes, insurrections, demonstrations, terrorist activities, explosions, acts of God, floods, storms, fires, epidemics, pandemics and unavoidable accidents.

(b) Effect of Force Majeure. Neither Party shall be deemed to be in violation or breach of any obligation under this OA during the time and to the extent that it is prevented from or delayed in performing such obligation by Force Majeure.

(c) Situations Exempt from this Section. Nothing in this Section 7.09 shall be construed as compelling Operator to settle any labor dispute contrary to its wishes, or as preventing Operator from testing the validity of any local, tribal, or Federal order, regulation or law through available administrative, arbitral, or judicial proceedings.

Section 7.10 Assignment Procedures.

(a) Approval of the Nation and Secretary. Operator shall not assign, sell, exchange, lease or otherwise dispose of all or any part of its interests under this OA without the prior written approval of the Nation, as provided in 18 N. N. C. § 605, and the prior written approval of the Secretary in accordance with applicable Nation and Federal laws and regulations. Any successor or assign shall agree in the applicable assignment or other appropriate agreement to be bound by all the terms and conditions of this OA. Among other things, the assignee shall be required to comply with all Navajo Nation tax laws in accordance with Section 4.10. Any assignment, sale, exchange, lease or other transfer of Operator's interest without the Nation's prior written approval shall be null and void.

(b) Navajo Nation Right of First Refusal. Should Operator desire to assign or sell all or part of its operating interests under this OA, it shall comply with applicable Nation laws, including, but not limited to, 18 N.N.C. § 605, as such law may be amended from time to time.

Section 7.11 Notices. All notices and communications required or permitted hereunder shall be in writing and shall be deemed to have been duly made if actually delivered to, or mailed by registered or certified mail, postage prepaid, addressed to the parties at the following addresses. Written notice may also be given by facsimile transmission and shall be effective upon receipt of the transmission. Section 7.12 Severability. The invalidity of any term or provision of this OA shall not affect the validity of any other provision herein, and the parties shall negotiate in good faith to enter into an agreement amending any such provision in a manner to make it valid, legal and enforceable while retaining the original intent of the parties with regard to such term or provision.

Section 7.13 Bankruptcy. In the event of insolvency, bankruptcy or receivership of the Operator, or its successors, devisees, and assignees, this OA and all other agreements, easements, permits, and approvals pertinent hereto shall be voidable at the sole discretion of the Nation as to any lands not relinquished by Operator within the OA Area pursuant to this Agreement.

Section 7.14 Default and Termination.

(a) Default by Operator. In the event of any material default by Operator in the performance of its material obligations under this OA, the Nation shall give Operator written notice specifying such material default within thirty (30) days after the Nation's identification of such material default. If Operator does not, within ninety (90) days of receipt of the notice, correct or dispute (in writing) such material default, initiate diligent efforts to correct such material default, the Nation may terminate this OA by delivering a termination notice to Operator, subject to Operator's rights as provided in Section 7.14(d), below, and subject to the dispute resolution provisions of Article VII. Notwithstanding the foregoing, any non-material breach by Operator of any obligation arising hereunder shall not work as a forfeiture or termination of this OA nor be grounds for cancellation hereof, in whole or in part.

(b) Reclamation. Subject to Sections 7.14(d) and 7.14(e), upon expiration or termination of this OA or partial or complete relinquishment of lands within the OA Area, Operator shall

surrender the OA Area or a portion of the OA Area, as applicable, in a condition that complies with applicable Nation and Federal laws. Subject to Sections 7.14(d) and 7.14(e), it shall be the obligation of Operator to restore those areas within the OA Area disturbed by Operator or its subcontractors, pursuant to the mutually approved reclamation plans and in compliance with all applicable laws, statutes, regulations and administrative orders.

(c) Final Data. Within ninety (90) days after the expiration or termination of this OA or partial relinquishment of lands within the OA Area, Operator shall deliver to the Nation all data required under Article VII of this Agreement that Operator has not previously furnished to the Nation.

(d) Removal of Improvements, Equipment, and Stockpiled Products. Operator shall have the right of ingress and egress for one (1) year after expiration or termination of this OA or after partial or total relinquishment of lands within the OA Area, to remove its property from the affected portions of the OA Area; provided, however, Operator may not remove any property from the applicable OA Area if Operator has outstanding financial obligations to the Nation related to this OA until such financial obligations have been satisfied or resolved to the satisfaction of the Parties, at which time the one (1) year time period will commence. The Parties shall endeavor to promptly resolve such outstanding financial obligations.

(e) Well Takeover Option. Prior to Operator plugging and abandoning any Well, Operator shall provide written notice to the Navajo Nation Minerals Department. If such Well is producing or Capable of Producing Hydrocarbons in Paying Quantities, as determined by the Navajo Nation Minerals Department and the Secretary, and the Nation desires to take assignment of and operate such Well, then the Nation shall have thirty (30) days following receipt of Operator's plugging and abandoning notice to notify Operator in writing of such desire (each, a "Well Takeover Notice"). Promptly following receipt of a Well Takeover Notice, Operator and the Nation shall notify the Bureau of Indian Affairs so that the Well and its Well Equipment and Facilities may be transferred to the Nation. AND UNDERLYING AND RELATED ACTIONS BE DEPOSITED IN THE SAN JUAN RIVER MITIGATION FUND AFTER REIMBURSEMENT OF LITIGATION COSTS

I have prepared the above-referenced proposed resolution and associated legislative summary sheet pursuant to your request for legislative drafting. Please ensure that this particular resolution request is precisely what you want.

Based on existing law and review of documents submitted, the resolution as drafted is legally sufficient. As with any action of government however, it can be subject to review by the courts in the event of proper challenge. The Office of Legislative Counsel confirms the appropriate standing committee(s) based on the standing committees' powers outlined in 2 N.N.C. §§301, 401, 501, 601 and 701. Nevertheless, "the Speaker of the Navajo Nation Council shall introduce [the proposed resolution] into the legislative process by assigning it to the respective oversight committee(s) of the Navajo Nation Council having authority over the matters for proper consideration." 2 N.N.C. §164(A)(5).
