Office of the President & Vice President

Dear President Shelly,

The Office of Facilities Management & Construction (OFMC), Indian Affairs (IA) would like to consult with the Navajo Nation regarding a possible replacement school construction project for Cove Day School. While there is no guarantee of immediate funding for design and construction, we anticipate that funds may become available for a replacement school construction project at Cove Day School.

In accordance with the Assistant Secretary's commitment to and support of Tribal self-governance and self-determination, we are soliciting your input regarding an appropriate method for completing the design and construction of this replacement school project.

In anticipation of receiving funds, Indian Affairs is requesting that the Navajo Nation select a procurement method from the following options:

Option Number 1. P.L. 93-638 - The Tribal Governing Body or Tribal Organization (contractor) may Contract with this office using P.L. 93-638, Section 102 authority. The P.L. 93-638 contractor will be responsible for completing the scope of work in accordance with requirements and all applicable federal, state, and local building codes and standards.

Option Number 2. The Office of Facilities Management and Construction (OFMC) will be responsible for completing the scope of work in accordance with all applicable federal, state, and local codes, standards and regulations.

If Option 1 or 2 is selected, an informational meeting will be scheduled to discuss the required application process and other matters related to this project. If Option No. 2 is selected, we assure you that the facility users and your designated tribal representative(s) will be fully involved throughout each phase of the project.

Project Management Responsibilities: OFMC, IA must adhere to stringent deadlines and milestones for beginning work on the project. It will be necessary for us to work closely together to achieve these milestones.

Although similar requirements have been included in such previous agreements, it has been common practice to grant time extensions when milestones are missed. We do not anticipate that to be the case in this situation. Failure to meet these requirements will force Indian Affairs to withdraw or withhold and redirect the use of all project funds to other projects and to postpone this project until some future date.

Deadline for a Tribal Response to this Consultation Letter: We request you select one of the above implementation options and inform our office within thirty (30) business days from the date of receipt of this letter, or no later than March 2, 2015. If we do not receive a response from your office within the thirty (30) business days, Indian Affairs will initiate this project using Option Number 2. A tribal resolution will be required should you decide to use Option 1. Please attach the tribal resolution with your notice of selection.

We would like to take this opportunity to request a decision and Tribal Resolution on ownership of the new facilities once construction has been completed and a Certificate of Occupancy has been issued.

Ownership of the Educational Facilities: The existing education facility involved in this project is BIA owned. We are also requesting a tribal decision, by resolution, specifying the ownership of the new educational facilities once the proposed project is finished. This decision is necessary so our office may begin the process of designating the status of the property as either Bureau Ownership or Tribal Stewardship. Your decision will greatly aid our process of capitalizing this construction project at a later date.

For your convenience, a response form is attached. Please sign and date and return this form to OFMC within the 30 day deadline. You may fax your response to (505) 563-5106 or email to: dennis.rodriguez@bia.gov. The original documents are requested to be submitted by mail.

Sincerely,

Emerson Eskeets, Deputy Director
