FACT SHEET FOR S.B. 1355

AHCCCS; dental services; native Americans

Purpose

Requires the Arizona Health Care Cost Containment System (AHCCCS) to seek federal authorization to reimburse the Indian health services (IHS) and tribal facilities to cover the cost of adult dental services.

Background

AHCCCS, Arizona's Medicaid Program, contracts with health professionals to provide medically-necessary health and medical services to eligible members. Currently, AHCCCS contractors are required to provide: 1) inpatient hospital services; 2) outpatient health services; 3) laboratory and X-ray services; 4) prescription medications; 5) medical supplies, durable medical equipment, insulin pumps and prosthetic devices; 6) treatment of medical conditions of the eye; 7) early and periodic health screening and diagnostic services; 8) family planning services; 9) podiatry services; 10) nonexperimental transplants; 11) up to \$1,000 annually for emergency dental care and extractions per adult member; 12) ambulance and nonambulance transportation; 13) hospice care; and 14) orthotics (A.R.S. § 36-2907).

AHCCCS offers long-term care services for persons who are elderly or disabled through the Arizona Long-term Care System (ALTCS). The ALTCS program provides acute care services, behavioral health services, institutional services, home and community-based services and case management services. ALTCS program contractors are required to provide dental services in an annual amount up to \$1,000 per ALTCS-eligible member (A.R.S. § 36-2939).

The Federal Medical Assistance Percentages (FMAPs) are published annually by the U.S. Secretary of Health and Human Services (U.S. Secretary of HHS) and used to determine the amount of federal matching funds for state expenditures for assistance payments for certain social services and state medical insurance expenditures. The U.S. Secretary of HHS additionally prescribes an FMAP specifically for IHS and tribal facilities. The U.S. Social Security Act specifies that services provided to Medicaid-eligible patients at IHS and tribal facilities can be reimbursed at 100 percent of the FMAP (42 U.S.C. § 1905).

There is no anticipated fiscal impact to the state General Fund associated with this legislation.

Provisions

1. Requires AHCCCS to seek federal authorization to reimburse the IHS and tribal facilities to cover the cost of adult dental services that are:
 - a) eligible for 100 percent FMAP;

FACT SHEET

S.B. 1355

- b) in excess of the limits on covered services; and
 - c) received through the IHS and tribal facilities.

**RESOLUTION OF THE
TUBA CITY REGIONAL HEALTH CARE CORPORATION
BOARD OF DIRECTORS**

**SUPPORTS THE CREATION OF AN UNCAPPED DENTAL BENEFIT
FOR PREGNANT WOMEN ELIGIBLE FOR MEDICAID**

WHEREAS:

1. Pursuant to Navajo Nation Council Resolution CJY-33-10 (July 21, 2010) and Naabik'iyáti Committee Resolution NABID 96-18 (Dec. 27, 2018), TCRHCC is authorized and designated as a "Tribal Organization" for the purpose of managing and operating contracts with the Indian Health Service ("IHS") under the Indian Self-Determination and Education Assistance Act, Public Law 93-638, as amended ("ISDEAA"); *and*
2. Tuba City Regional Health Care Corporation (TCRHCC), a non-profit, 501(c)3, tribal organization as defined in the Indian Self-Determination Act, Public Law 93-638, maintains operation of the former Navajo Area Indian Health Service (NAIHS) Tuba City Indian Medical Center; *and*
3. The TCRHCC service area within the Western Navajo Agency and Coconino County communities including: Cameron, Bodaway/Gap, Coalmine Canyon, K'ai'bii'To, LeChee, Coppermine, Tonalea, and To'Naneez'Dizi Chapters, and including the Hopi Village of Moenkopi and the San Juan Southern Paiutes of Tuba City, *and*
4. The TCRHCC Regional Health System with a primary patient service population of nearly 32,000 also serves as a Medical Referral Center for over 100,000 patients across the Navajo Nation, including Hopi and San Juan Southern Paiutes. TCRHCC is also the largest referral center serving the Navajo Nation; *and*
5. The TCRHCC has a need to identify, strengthen and develop future health and supportive services and strategies which will benefit elders, family and child services, and other specialty areas including health facilities; *and*
6. The TCRHCC advocates for wellness and access to high quality healthcare for all American Indians in Arizona" with regard to the development of Title XIX (Medicaid) and Title XXI (Children's Health Insurance Program) demonstration programs, services, and policies; *and*
7. Professional dental care and a good at-home oral health routine are an essential part of a healthy pregnancy; *and*

8. Dental screenings are an important method for expectant mothers with, or at high risk of developing oral diseases; *and*
9. Pregnancy often changes in the mouth including gingivitis and can also lead to worsening of periodontitis which can lead to the destruction of the bone supporting the teeth; *and*
10. A link between gum infection and poor birth outcomes like pre-term deliveries, lower birth weight, and high blood pressure can lead to complicated deliveries; *and*
11. Dental care usage during pregnancy continues to remain low due to lack of insurance, gaps in knowledge about recommended oral health practices and unfounded concerns over safety of dental procedures during pregnancy; *and*
12. Between 2007 and 2009, 56% of pregnant women did not visit a dentist during pregnancy while only 35% of the overall U.S. women population did not have a visit in the prior year; *and*
13. Currently, the Arizona Health Care Cost Containment System (AHCCCS), the state's Medicaid program, does not provide dental coverage to adults with the exception of 1) capped limited dental service under the Arizona Long Term Care System for seniors and individuals living with disabilities and 2) a capped limited emergency dental benefit for adults.

THEREFORE, BE IT RESOLVED, THAT:

The Tuba City Health Care Corporation Board of Directors:

1. Supports adding an uncapped dental benefit for pregnant woman eligible for AHCCCS to ensure better outcomes for pregnant women and their child; *and*
2. Supports an uncapped dental benefit for pregnant women eligible for AHCCCS to be established.
