21	SECTION ONE. AUTHORITY	
22	A. The Resources and Development Committee ("RDC") was established as a standing	
23	committee of the Navajo Nation Council. 2 N.N.C. §500(A). The RDC has legislative	
24	authority over the Navajo Nation's environment and natural resources and the protection	
25	thereof, as well as activities on Navajo Nation lands involving surface disturbances or	
26	alteration of the natural state of such lands. 2 N.N.C. §500(C)(1); 2 N.N.C. §500(C)(2).	
27	B. The RDC has statutory authority over land withdrawals and non-mineral leasing on Navajo	
28	Nation lands. 2 N.N.C. §500(B)(2)(a). Pursuant to its authority under 2 N.N.C. §500(B)(3),	
29	the RDC delegated its responsibilities for business site leasing to the Division of Economic	
30	Development (see Resolution No. RDCD-93-15) and for land withdrawals to the Division of	

Natural Resources (see Resolution No. RDCJN-33-15).

C. The Budget and Finance Committee is a standing committee of the Navajo Nation Council with the responsibility to "review and recommend to the Navajo Nation Council the budgeting, appropriation, investment and management of all funds," which includes money from the Síhasin Fund that was established by the Navajo Nation Council in Resolution No. CD-68-14. 2 N.N.C. §301(B)(2).

D. The Naabik'íyáti' Committee is a standing committee of the Navajo Nation Council that considers all proposed final actions by the Navajo Nation Council. 2 N.N.C. §164(A)(9).

E. The Navajo Nation Council is the governing body of the Navajo Nation. 2 N.N.C. §102(A).
 As such, the Council may approve appropriations from the Navajo Nation's Síhasin Fund in accordance with 12 N.N.C. §2505(A).

F. 12 N.N.C. §2502, as amended by Navajo Nation Council Resolution No. CJA-03-18, sets forth the purpose of the Navajo Nation Síhasin Fund ("Síhasin Fund") as follows:

§2502 Purpose

A. The purposes of this Fund are to provide financial support and/or financing for:

 The planning and development of economic development and regional infrastructure supporting economic development and community development, including such infrastructure as, but not limited to, housing, commercial and government buildings, waterline, solid waste management development, powerline projects, and transportation and communication systems, within the Navajo Nation; . . .

B. For the Purpose in §2502(A)(1), Fund expenditures for infrastructure shall not be limited by 12 N.N.C. §1310(F) or TCDCJY-77-99.

C. Leveraging the Fund by way of guaranteeing loans, match funding, direct funding in part, and other weighted uses of the Fund, including loan financing from the Fund, for the purposes in §2502(A)(1), shall be favored over direct funding in whole.

G. The Síhasin Fund provides that "Fund Principal" shall consist of all deposits made to the Síhasin Fund and that "Fund Income" shall consist of all earnings (interest, dividends, etc.) generated and realized by the Fund Principal, and that Síhasin Fund Income shall be deposited in, and added to, the Fund Principal until such time as a Fund Expenditure Plan is duly approved. 12 N.N.C. §2504 and §2505(C).

H. The Síhasin Fund provides that "Fund Principal and Income shall not be expended except pursuant to a Fund Expenditure Plan consistent with the purposes set forth in §2502 of this Chapter and adopted by a two-thirds (2/3) vote of all members of the Navajo Nation Council." 12 N.N.C. §2505(A).

#### SECTION TWO. FINDINGS

A. NavaMill Lumber and Logging Company ("NavaMill") is a 100% Navajo-owned business located in the Sawmill Chapter (Arizona) of the Navajo Nation. NavaMill is requesting an allocation from the Síhasin Fund for the design, planning, and construction of its proposed forest products business ("Project") to be located in Sawmill. This Project will consist of logging activities and the processing of timber for sale to customers with construction and building needs. NavaMill will also process timber into wood pellets to sell for indoor heating use. NavaMill's Proposal for Funding for the Project is attached hereto as **EXHIBIT A**.

B. A land withdrawal for 18 acres in the Sawmill Chapter area, has been approved for commercial and industrial development purposes. **EXHIBIT B**.

C. NavaMill has also obtained a duly-approved Business Site Lease from the Navajo Nation, BSL No. NNFD-21-0002, for the planned Sawmill area site for its Project. **EXHIBIT C**.

D. The Sawmill Chapter and the Navajo Nation Forestry Department have indicated their full support of NavaMill's proposed Project. **EXHIBIT D**.

E. NavaMill's contractor has prepared a detailed cost estimate for the Project. EXHIBIT E.
 According to the contractor's extensive cost breakdown, the total cost for the Project is estimated to be \$18,880,105. This is the dollar amount that NavaMill is requesting the Navajo Nation to allocate from the Síhasin Fund for its Project.

F. A set of drawings for the Project is attached as **EXHIBIT F**.

G. The allocation of the Síhasin funds requested by NavaMill meets the criteria for Síhasin expenditures because this Project involves "infrastructure" and "regional infrastructure supporting economic development" such as "commercial and government buildings" in accordance with 12 N.N.C. §2502(A)(1).

H. Approval of the requested Síhasin allocation meets the preference for leveraging Síhasin funds, as stated in 12 N.N.C. §2502(C), because NavaMill has already invested \$53,500

towards land surveying costs and obtaining the required archeological and environmental clearances, for this Project. In addition, NavaMill plans to seek other funds through the Native American Bank and BIA-guaranteed loans.

I. NavaMill states that its Project will result in the hiring of approximately 100 temporary
employees to work on the Project, and 30 permanent NavaMill employees, once its forest
products business is up and running. NavaMill explains that its Project will provide highquality, locally-sourced, building and heating materials for the needs of the Sawmill Chapter
and surrounding communities, as well as Navajo Nation government entities and Navajo
Nation-owned enterprises. EXHIBIT A.

J. The Navajo Nation finds that approving NavaMill's requested allocation from the Síhasin
 Fund for its proposed Project is in the best interest of the Navajo Nation and the Navajo
 People.

## SECTION THREE. ALLOCATING \$18,880,105 FROM THE SÍHASIN FUND TO NAVAMILL FOR ITS PROPOSED FOREST PRODUCTS BUSINESS TO BE CONSTRUCTED IN THE SAWMILL CHAPTER; APPROVING THE RELATED EXPENDITURE PLAN PURSUANT TO 12 N.N.C §2501 – §2508

A. In accordance with 12 N.N.C. §2505(A), the Navajo Nation hereby allocates \$18,880,105 from the Síhasin Fund to NavaMill Lumber & Logging Company for the design, planning, and construction of its proposed forest products business to be constructed in the Sawmill Chapter.

B. The Navajo Nation hereby approves the Expenditure Plan for NavaMill's proposed Project, consisting of those activities described in the attached EXHIBIT A, EXHIBIT E, and EXHIBIT F.

C. The Síhasin funds approved herein may be further leveraged by bond or loan financing
pursuant to the Navajo Nation Bond Financing Act (12 N.N.C. §1300 *et seq.*, as amended),
using Síhasin Fund earnings for repayment and financing costs, upon approval of the Budget
and Finance Committee and upon further approval by a two-thirds (2/3) vote of the full
membership of the Navajo Nation Council.

D. The Controller shall determine whether the source of the Síhasin funds approved herein will be Síhasin Fund Principal or Síhasin Fund Income, or a combination of both.

E. Within thirty (30) business days after the effective date of this Act, the Controller shall begin releasing the Síhasin funds approved herein to NavaMill, provided that an appropriate grant agreement, memorandum of agreement, or other legal document establishing a project schedule, payment or drawdown plan, fund management plan, or other relevant procedures, has been agreed to by the Controller and is executed by NavaMill and the Navajo Nation.

F. All Sihasin funds received by NavaMill shall be used strictly for the planning, design, and construction of its Project, as described in EXHIBIT A, EXHIBIT E, and EXHIBIT F. NavaMill shall be solely and fully responsible for complying with the Expenditure Plan approved herein, and with all provisions of the legal agreement described in Section Three (E) above.

- G. As a condition of receiving the Síhasin funds approved herein, upon reasonable prior notice 13 by the Navajo Nation, NavaMill shall allow and arrange for the Navajo Nation's full access 14 to its financial records related to any and all Síhasin funds that NavaMill has drawn down, 15 for the purpose of the Navajo Nation's review and audit of NavaMill's expenditures of the 16 17 Síhasin funds.
- H. Also as a condition of receiving the approved Síhasin funds, NavaMill shall submit a written 18 report, and a verbal report if so requested, explaining the ongoing status of the planning, 19 design, and construction of its Project and its expenditures of the approved Síhasin funds. 20 Said reports shall be provided to the Resources and Development Committee, and the 21 Naabik'íváti' Committee by the end of each Fiscal Year Quarter until NavaMill's Project is 22 completed or the entire amount of approved Síhasin funds is exhausted. 23

I. Any and all savings or unused amounts of the Síhasin funds approved herein shall be immediately returned to the Síhasin Fund Principal once NavaMill's Project is completed, or upon the reversion deadline in Section Three (J) below. 26

J. The Síhasin funds approved herein shall not lapse on an annual basis. However, any and all 27 Sihasin funds not spent or encumbered within twenty-four (24) months of the date NavaMill 28 receives its first drawdown of funds, shall then immediately revert to the Síhasin Fund 29 Principal, unless otherwise approved by both the Resources and Development Committee 30

and the Naabik'íyáti' Committee.

K. The Síhasin Fund shall be reimbursed the amount approved herein, from funds available to the Navajo Nation from any and all state and federal sources, including Congressional appropriations under the American Rescue Plan Act of 2021 ("ARPA") or other COVID-19related relief, so long as the Project expenditures described herein are deemed eligible under such COVID-19-related or other funding sources.

#### **SECTION FOUR. EFFECTIVE DATE**

This Act and the Expenditure Plan approved herein shall be effective pursuant to 12 N.N.C. §2505.

### SECTION FIVE. SAVING CLAUSE

If any portion of this Act is invalidated by the Supreme Court of the Navajo Nation, or by any Navajo Nation District Court without appeal to the Navajo Nation Supreme Court, the remainder of this Act shall be the law of the Navajo Nation.

## INVESTING INTO THE NAVAJO NATION NAVAJO OWN BUSINESS 100%

## BUILDING INTO OUR FUTURE ONE BOARD AT A TIME – NAVAMILL LUMBER & LOGGING CO.

### I. Purpose and Overview:

NavaMill Lumber & Logging Company was established in 2018 and due to the COVID 19 Pandemic the business site lease process was delayed. The sole purpose of NavaMill is to process timber for lumber on the Navajo Nation working with the local chapters, Navajo Forestry Department and the Division of Economic Development. The fresh cut timber will be available to our Navajo customers who are looking for durable and quality lumber of various sizes for building materials and others. Wood Products will be available for The NAVAJO NATION Enterprises or Division for housing construction.

NavaMill customer's ranges from builders, farmers, Navajo owned businesses, Navajo Nation 110 chapters, Navajo Housing Authority, Veterans, and Navajo Families. The end cut timber are sensual for fencing or sidings so NavaMill have it for your building needs. NavaMill will have wood/pellet sales to help with heating needs. Our thoughts of the company are to keep all NavaMill lumber and log products here on the Navajo Nation "Buy Navajo" no exporting to major corporations.

### **II.** Funding Request:

NavaMill Lumber & Logging Company recommends that the Navajo Nation Sihasin funding be used for infrastructure improvements/expansion. NavaMill plans to hire Arviso Construction Company to develop the plans and design for the facility and 18-acre site preparation and hire staff/consultants with salaries & benefits. NavaMill Lumber & Logging Company is requesting for \$19 million through the Navajo Nation Sihasin funding, which is only 40% of the total cost of the project. The project cost for phase I is approximately \$10 million, which the company is requesting for as a startup cost. Currently NavaMill Lumber & Logging Company is seeking other funding sources, through Native American Bank, BIA Guarantee Loan Program, and other funding source for additional funds for the project. The company is also planning to partnership with Navajo Housing Authority and Navajo Veterans Program to provide building materials for housing development. We realize that the start cost will be expensive due to the renovation of the existing facility and the site preparation, but once this is completed and the operation begins, NavaMill Lumber & Logging Company will be able to implement its phase II to

start production of fire woods, building materials for log Hogan and, cabins, and fence materials. During the last few months, NavaMill Lumber & Logging Company has already invested \$53,500,000 toward land survey tract and archeological and environmental assessment. The proposed budget is as follows:

	Projects	NN Sihasin funding	
1	Capital Outlay construction / renovation of existing facility includes all infrastructures for operating milling company	\$15,330,000.00	
2	Personnel with benefits 40 employees	\$3,675,000.00	
3	Office supplies / equipment / operations	\$350,000.00

## **IV.** Long-Term Vision:

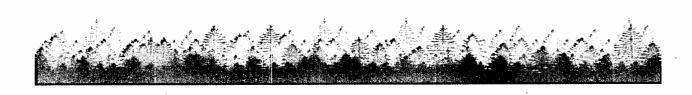

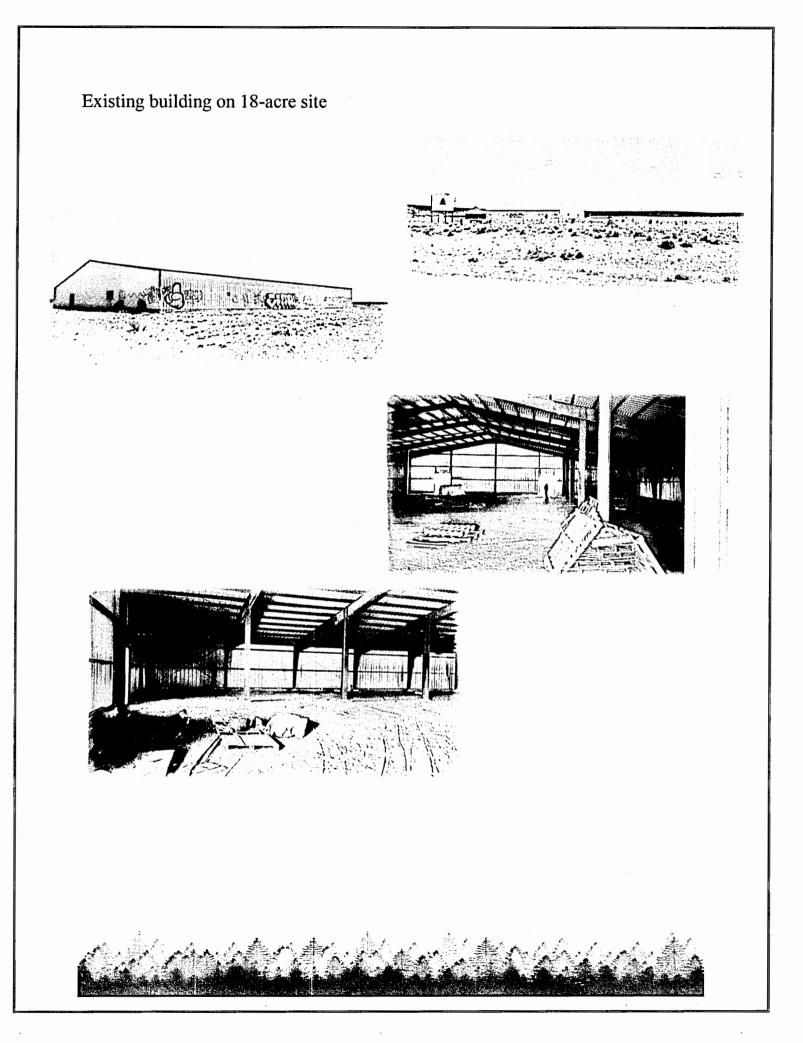

NavaMill Lumber & Logging Company would like to expand across the Navajo Nation to provide quality clean cut timber for Navajo families and businesses. This would instill our NAVAJO PEOPLE to invest into their homes making breakthrough of generation patterns life styles. Within 5 years of operation NavaMill Lumber & Logging Company would have over 150 peoples working for the operation. Our competitive prices would make it affordable for Navajo families to purchase our product for housing improvements or new development of Hogan / log cabins and others. This would help sustain the Dine' Cultural on bringing traditional structures back to the Great Navajo Nation. NavaMill Lumber & Logging Company revenues would invest not only to the Navajo Nation, but to the people on getting quality lumber materials for their lifetime home investments for sustainability.

The assurance of our own people having their dream home or small projects can be a reality even though they might be on a fixed income and having the opportunity to purchase is rewarding. NavaMill Lumber & Logging Company would invest into our employees in forestry, processing plant, environment friendly, mapping digital, certifications (heavy equipment etc.) licensing (federal requirements), health plans, and retirement packages. NavaMill Lumber & Logging Company will ensure that the thinning of our Navajo Forestry will prevent any future forest fires by working with the local chapters, Navajo Department of Forestry and BIA Forestry.

## V. NavaMill Existing Site / Building:

NavaMill Lumber & Logging Company through the Fort Defiance Regional Business Development (RBDO), Division of Economic Development and the Sawmill Chapter acquired eighteen (18) acres of land east of the Sawmill Chapter near the Navajo Housing Authority housing units. The facility located on the 18 acres was acquired by Sawmill Chapter through the Window Rock Unified School District and Ganado School District in 1995 and just recently the Navajo Nation Property took ownership of the building. The Economic Development Committee approved NavaMill Lumber & Logging Company business site lease on May 5, 2021 which includes the eighteen acres of land and the building.

## VI. Business Site Lease Approved by Navajo Nation:

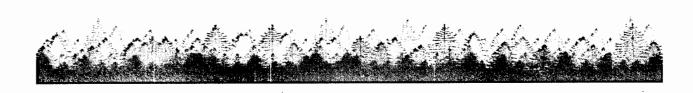

The Navajo Nation President Jonthan Nez signed the approved business site lease on May 27, 2021.

## VII. Partnerships and Support:

NavaMill Lumber & Logging Company has full support by the Sawmill Community through a supporting resolution SAW-06-2015 approved on June 8, 2015 and the Community Land Use Planning Committee. The community and the chapter leadership feel that this would be a good economic opportunity to create jobs for the community. Currently the Sawmill community only has one groceries store. Majority of the community members have to seek employment in nearby communities such as Fort Defiance, Window Rock and Gallup area.

NavaMill Lumber & Logging Company is also in partnership with the Navajo Nation Economic Development, Fort Defiance RBDO, Navajo Forestry Department and BIA Forestry Department to implement the 10 years Forestry Management Plan. NavaMill Lumber & Logging Company is determined to established a stable and sound economic development opportunity for the Sawmill community and the Great Navajo Nation. Thank you.

### RE: NavaMill Lumber and Logging Company 18-acre Land Withdrawal for Commercial/Industrial Development

Dear Mr. Halona,

On June 08, 2015, the Sawmill Chapter approved resolution no. *SAW-06-2015-09*, supporting the NavaMILL Lumber and Logging Company ("NavaMILL") Business Plan to develop a Sawmill industry and to proceed with an official Navajo Nation Economic Development Business Land Withdrawal to develop the NavaMILL logging and lumber processing business venture.

NavaMILL will be conducting logging activities within a seven-Chapter region on the Navajo Nation and surrounding area transporting timber to the 18-acre site for processing lumber and similar products. NavaMILL intends to promote development of business ventures that will benefit from the logging industry established and operating on site to compliment the log processing initiative (furniture making, pellets, boards, etc.). NavaMILL also plans to incorporate assembling kits for hogan and cabin home construction. The log processing equipment is available and ready to be assembled once the land designation and Business Site Lease have been approved. The Chapter has authorized the use of the community 13,344 sq. ft. Multi-Purpose Building by NavaMILL.

Attached you will find all required documents for the Land Withdrawal Checklist for Community and Industrial Development. Your prompt approval of the Land Designation (or official land withdrawal/assignment) to develop the 18-acre site by NavaMILL for commercial and industrial purposes will certainly be appreciated. Please contact me at (505) 713-8767 or Theo Shorty, Consultant, at (505) 406-2071 if you have any questions.

However, Lessor may require Lessee, at Lessee's expense, to remove improvements and restore the premises to the original state upon termination of this Lease. Any removal of property by Lessee must be completed within ninety (90) days after termination of this Lease, such presence on the property shall not be deemed a holdover or trespass, provided Lessee is acting in a diligent manner to remove such property. Upon the expiration of the ninety (90) day extension, the Lessor has the right to grant another extension or re-enter the premises, at such time the Lessee shall have no right or interest to the premises or any remaining improvements.

- 3. The term "removable personal property" as used in this Section shall not include property which normally would be attached or affixed to the buildings, improvements or land in such a way that it would become a part of the realty, regardless of whether such property is in fact so placed in or on or affixed to the buildings, improvements or land in such a way as to legally retain the characteristics of personal property. Lessee shall remove all removable personal property and trade fixtures prior to termination of this Lease. Should Lessee fail to remove said personal property and trade fixtures prior to termination of this Lease, said property shall thereupon become property of Lessor, and may be disposed of in any manner by Lessor.
- 4. At the expiration or termination of the lease, the Lessor has the first right of refusal to purchase any permanent improvements to the premises at fair market value.

#### F. COMPLETION OF DEVELOPMENT.

- 1. The Lessee shall complete the full improvement and development of the leases premises in accordance with the general plan and architect's design. The date for substantial completion of development shall be <u>36 months</u> from the date the Lease is executed by the Navajo Nation President. If the Lessee fails to complete full development within such period, such failure shall constitute a breach of the terms of this Lease and may be cause for termination.
- Prior to the commencement of construction of any new improvements on the leased premises, or prior to the beginning of any repair or alteration thereto, or work or labor thereon, Lessee shall post non-responsibility notices at the site on Lessor's behalf.
- Upon completion of construction, the Lessee is required to submit any layout or general plans of the building or facility to the Navajo Nation Division of Economic Development or Navajo Nation Shopping Centers, Inc. as applicable.
- 4. Whenever under this Lease a time is stated within which or by which original construction, repairs, or reconstruction of improvements shall be made and during such period a general or sympathetic strike or lock out occurs, war or rebellion ensues, or some event unquestionably beyond Lessee's power to control, the period of delay so caused shall be added to the period limited herein for the completion of such work.

#### G. CONSTRUCTION, MAINTENANCE, REPAIR, ALTERATION.

1 All improvements placed on the leased premises shall be constructed in a good and workmanlike manner and in compliance with applicable laws and building codes. All parts of building visible to the public or from adjacent properties shall present a pleasant appearance as determined by Losson and all service areas shall be screened from public view to the satisfaction of Lesson. Lesses shall, at all times during the term of this Lease and at Lessee's sole cost and expense, maintain the premises and all improvements thereon and any alterations, additions, or appurtenances thereto, in good order and repair.

Lease - Part I - Page 4

and in a safe, sanitary, neat and attractive condition, and shall otherwise comply with all laws, ordinances and regulations applicable to said premises.

- 2. Lessee shall have the right during the term of this Lease to make alterations, additions or repairs to improvements on the premises unless the amount of the full completion of the alteration, addition or repair, will exceed \$50,000.00. Alterations, additions or repairs in excess of the above amount or any removal or demolition of an improvement can be made only with the written approval of Lessor.
- 3. Lessee shall indemnify and hold harmless the Lessor and the United States against liability for all claims arising from Lessee's failure to maintain said premises and the improvements thereon as herein above provided, or from Lessee's non-observance of any law, ordinance or regulation applicable thereto

#### H. RENTAL AND PERFORMANCE SECURITY.

- 1. Lessee agrees to post <u>Cash Deposit</u> in the amount of 25%, which shall remain in force for the full term of this Lease. From time to time, the amount of the security may be increased or decreased by the Real Estate Department, Division of Economic Development, which shall be placed in writing and become an attachment to this Lease. The purpose of such security is to guarantee performance on the Lease.
- 2. Upon execution of the Lease, a copy of the security posted shall be submitted to the Lessor, unless granted a postponement by the Lessor. The security shall be posted within twenty-four (24) months of execution of the Lease.
- L CONSTRUCTION BOND.
  - 1. At Lessor's option, prior to the commencement of construction of any improvement on the leasehold premises, the Lessee will cause his construction contractor to post a construction bond in favor of Lessor and Lessee. If the construction contractor cannot post such a bond, the Lessee shall post the construction bond. The purpose of the construction bond is to guarantee the completion of the improvements and payment in full of valid claims of all persons for work performed in or materials furnished for construction of the improvements. The construction contractor or the Lessee may provide security by either:
    - A) Posting a corporate surety bond in an amount equal to the cost of each improvement, said bond to be deposited with the Lessor and to remain in effect until the improvement is satisfactorily completed. Said bond shall be conditioned upon faithful performance by Lessee or his construction contractor and shall give all claimants a right of action to recover upon said bond in any suit brought to foreclose on any mechanic's or materialmen's liens against the property. If United States Treasury Bonds are provided, Lessee, or his construction contractor, agrees to make up any deficiency in the value deposited that might occur due to a decrease in the value of the bonds. Interest on said bonds shall be paid to Lessee.
    - B) Depositing in escrow with the Lesson or an institution acceptable to the Lesson, inclusionable United Status Treesury Boards, or each or furnishing a non-reveable latter of credit satisfactory to Lesson in an amount sufficient to pay the entire cost of construction of each building or other improvement then to be erected on the premises. #### LETTER OF SUPPORT

July 29, 2021

The Navajo Forestry Department [Department] offers this letter of support for the Navamill Company [*Navamill*] located in Sawmill. AZ, on their endeavor to produce forest products from the Navajo Nation's forest and woodlands. The Department will work with *Navamill* on their processing methods to produce forest products from harvesting activities.

The producing of forest products is essential to the Navajo Nation qualifying to sell Carbon Offset credits through the California Air Resources Board [CARB] agreement, currently going through review. The Agreement is based on the Navajo commercial forest absorbing tons on carbon from the atmosphere and ensuring demand of forest products. Forest management activities are needed to ensure the forest is kept in a healthy state. Not only will *Navamill* provide revenue and needed local jobs, it will also benefit the Navajo Nation in its participation requirements of Carbon Offsets agreement.

Sincerely,

Alexious C/Becenti, Sr., Forest Manager Navajo Forestry Department Division of Natural Resources The Navajo Nation

#### LETTER OF SUPPORT

Dear Office of Economic Development,

On behalf of the newly elected Community Land Use Plan Committee (CLUPC) of Sawmili Chapter we are happy to write this letter of support for the NavaMILL Lumber and Logging Company.

Sawmill has not seen any economic development in the community for over ten years and with the support of our Chapter Leaders and Council Delegate, Wilson Stewart Jr., Sawmill CLUPC also will support this venture by including NavaMILL's proposed business in the updated Land Use Plan. Eighteen (18) acres of land will be withdrawn for business development at the old multipurpose building near the New NHA housing development.

Resolution #SAW-05-2015-09 Sawmill Chapter Community voted in a duly called meeting, eighteen (18) In-Favor, zero (0) Opposed and eight (8) Abstained, on the date of June 18<sup>th</sup>, 2015. Resulting in the community approval and support of the NavaMILL Company within the Sawmill Chapter boundaries.

With this Letter of Support, we request that the Division of Economic Development offer Mr. Aaron Sam technical assistance and resources to seek funding opportunity for Infrastructure and Business Start-up costs.

Sincerely,

Annarita Begay, Sawmill CLUPC President

Hon. Seth Damon, Speaker 24<sup>th</sup> Navajo Nation Council 2019 - 2023

#### **MEMORANDUM**

To: Hon. Wilson C. Stewart, Jr., Member Resources and Development Committee 24<sup>th</sup> Navajo Nation Council

From: Luralene D. Tapahe, Principal Advocate

Office of Legislative Counsel

- Date: June 29, 2022
- Subject: AN ACT RELATING TO THE RESOURCES AND DEVELOPMENT, BUDGET AND FINANCE, AND NAABIK'ÍYÁTI' COMMITTEES, AND THE NAVAJO NATION COUNCIL; ALLOCATING \$18,880,105 FROM THE SÍHASIN FUND TO NAVAMILL LUMBER & LOGGING COMPANY FOR ITS PROPOSED FOREST PRODUCTS BUSINESS TO BE CONSTRUCTED IN SAWMILL CHAPTER; APPROVING THE RELATED EXPENDITURE PLAN PURSUANT TO 12 N.N.C. §2501 – §2508

Per your request, the Office of Legislative Counsel has prepared the above-referenced proposed legislation and related summary sheet. Based on existing Navajo Nation law and other applicable laws, and upon review of all supporting documents regarding your request that were submitted to OLC, this legislation as drafted is legally sufficient. However, as with any action of government, this legislation may be subject to judicial review in the event of a legal challenge.

## Please review this legislation to make sure it is drafted to your satisfaction, and that all necessary and appropriate supporting documents have been provided and all attached Exhibits are correct.

OLC has reviewed the appropriate standing committees' authorities to consider this legislation, based on the standing committees' powers and responsibilities set forth in Title 2 of the Navajo Nation Code. Based on its review, OLC has listed those committees in the title of this legislation. However, the Speaker may assign this legislation to any committee(s) other than those shown in the title, pursuant to his authority under 2 N.N.C. [64(A)(5).

If you find anything unacceptable, please let me know immediately and advise me of your desired changes. I can be reached at phone no. (928)871-7166 or by email at: LuraleneTapahe@navajo-nsn.gov

Thank you for your cooperation.

#### RE: Legislation 0109-22

#### SPONSOR Wilson Stewart

My name is Juanita Martinez a member of Sawmill Community, Sawmill Arizona. I am writing a statement against the proposed legislation by delegate Stewart. First of all, delegate Stewart has not been transparent as a member of the 24<sup>th</sup> NNC and a member of the RDC. During a chapter meeting in June 2022 a resolution to rescind resolution 06-2015 of Sawmill Chapter was sponsored, during this time delegate stewart did not mention his intention of sponsoring this legislation. All of this is after the fact. During this time it was debated by Aaron Sam and at no time did delegate Stewart speak up and indicate his intentions to proposed the legislation. The original resolution passed in 2015 and waited 7 years before it was finally signed in 2021. Meanwhile, the chapter is paying liability insurance on the building and it has been defaced, the doors have been broken the building has been setting on the grounds without any action or report by any of the members of NAVAMILL. The community of Sawmill has recently been warned of serious asbestos tracing left from the old sawmill and has or may affect the life of our Dine people of Sawmill. Mr. Sam along with Mr. Stewart have had no regard in the operation or transparency to the community. Each of them have turned a blind eye. This is not far to fund a building which is a small community to begin with. This building if taken back by the community should be used for a community center, education center before and after school or other proposed ideas that would enhance our livihood. Mr. Sam has not given a report until Delegate Stewart warned him of the resolution and he suddenly appeared on the phone for a semi report and tried to defend the company. We are concerned for the future of the Sawmill community. Both Delegate Stewart and Mr. Sam do not reside within the community and live within safe boundaries of the Navajo Nation where they will not be affected by the aftermath of the NAVAMILL.

I BEG THE COUNCIL TO PLEASE VOTE AGAINST THIS LEGISLATION AND GIVE THE COMMUNITY A CHANCE TO LIVE IN PEACE AND HARMONY IN GOOD HEALTH

Respectfully,

Juanita Martinez

This comment is in regards to legislation 0109-22 of amount \$18, 880,105 for said business of Navamill Inc.

As legislation reads of Sawmill Chapter community is in support of this business and its request for funding. As a community member and life long resident i do not agree with this legislation as a resolution to recall previous business site approval on Navamill with community voting against business site lease was passed in with a quorum.

This legislation needs to come before Sawmill community members to decide what they want as Sawmill Chapter is now dealing with cleanup from the old Sawmill in which asbestos and other hazardous waste still linger in our community.

Navamill owner and its Board members have not been transparent with our community requests of reports and business activities now since a resolution to rescind the business site lease has passed at Chapter meeting funding is being requested. Navamill had from 2015 to 2022 to have there business in operation but have failed to make this happen. Our Delegate interest lies with not what Sawmill community members want but with his own agenda and interest in Navamill.

I again want to ask as a voting community member of this legislation be reconsidered for non approval to help my community. I want my kids, grandkids, nalis and the future of community to live without impact from this business. <u>Sent from Yahoo Mail on Android</u> WARNING: External email. This email is to oppose Legislation No. 0109-22 which proposes the allocation of over \$18M from the Sihasin Fund to NavaMill Lumber & Logging Company for startup costs.

As outlined in the proposed legislation, the Sihasin Fund was created for the financing of economic development activities and projects benefitting the greater Navajo Nation. While I am in support of promoting Navajo businesses, this request suggests any time a business entity is short of financing needs, the owner can run to the Nation for a bail-out. If the Navajo Nation Council is custom to financing the start-up costs for Navajo-owned businesses, then this should be fair and equitable for all Navajo-owned businesses regardless of size and needs.

I implore the Committees and Navajo Nation Council to reconsider this legislation and vote red.

Regards, Dr. Laura M. Mike Sawmill Chapter PO Box

To:comments <comments@navajo-nsn.gov>;

I am writing to address my opposition for NavaMill Lumber & Logging Company's proposed \$18,888,105 allocation from Sihasin Fund for Aaron Sam's private business. This is private business, not Sawmill Chapter nor the Navajo Nation. Since 2015, there were no reports being provided although requests were made for appearance to update community members at the chapter meetings. So June 15, 2022 he finally decides to report after majority vote to rescind his business resolution. Apparently, the Sawmill Chapter was paying monthly insurance for the building, which should've been not the Sawmill Chapter responsibility.

There were and are Sawmill Chapter issues for community members prior to the ARPA funds which should've been addressed with the Sihasin funds. These issues have been mentioned several times in the past. What Sihasin funds availability could still be proposed for Sawmill Chapter issues, long over due. The issues: Powerline extensions White Clay gravel road on to Crystal Headstart building renovation to reopen Headstart for our children Senior Citizen Center Waterline extensions The building for a safe youth activities or other inside activities

My personal experience on powerline extension of 1/2 mile, I paid \$25,000+ on my own. Chapter officials listened to one official who opposed my request and interfered with Chapter administration decisions. I am now retired and have to haul water, there's wear and tear, and I have already gone through major repairs. Sawmill chapter charges \$.05 per gallon, whereas, NTUA water rate is less than what chapter charges, last I knew. I hope ARPA funds will take care of the waterline extension for me and my children.

ELECTION is here, so the SIHASIN FUNDS is driving the PROPOSED request. VOTE "NO", he said it was his PRIVATE BUSINESS; a board member is a former Council Delegate, and a Sawmill Chapter official is also a board member, conflict of interest. WARNING: External email. Executive Director Office of Legislative Services PO Box 3390 Window Rock, AZ 86515 (928)871-7586

To Whom This May Concern.

Thank you for your time in reading my position of The Navajo Nation providing financial support to a lumber and lodging business.

As a community member of the St. Michael's Chapter House and of the Navajo Nation, with residence near the capital; there is much need for existing infrastructure re-development. In that, public structures should be updated and maintained properly and functionally so that the public has the safety, longevity and ability to transport, foremost.

Lumber, milling and lodging require high capacity and weighted machinery to transport the materials needed for a lumber, milling and lodging to be, at the very least, a viable opportunity.

That is just for transport. What about "Navajo owned, Navajo bought?" Will Navajo people be manually milling and obtaining the lumber? What about our deforestation issues with climate change? Our lumber is scarce, our water is scarce. These resources in colonial terms are deemed as infinite resources, however, due to the changes in climate; this is no longer true and there are several scientific articles confirming.

My Grandfather's (late Albert Damon Sr.) father, Anson Damon Sr, started the Navajo Forest Product Industries many years ago and it got shot down because of the Spotted Owls. Has there been any environmental studies completed confirming that the company will not infringe on our animal relations?

Furthermore, the NFPI never got cleaned up and thw buildings are still there with asbestos! This effects the health, safety and economics of the community/people of Navajo NM, directly, and all other communities that have toxic, dangerous materials and degrading infrastructure that could possibly already e polluting our Nihishimaadzsaan.

The Navajo Nation Government Leaders are not considering the opportunities that are apparently needed for attention for public safety, public ability and public longevity. However, it appears with this lumber, milling and lodging business; a newly founded company asking for money, community natural resources, etc. at what true cost? To provide Navajo Employment for Navajo people in a community for 10 years, at the maximum, in an area where drugs and infrastructure lack? I do not believe that as a community member we need a lumber, lodging, and milling business.

I would not be opposed to businesses to be invested in on behalf of the Navajo Nation Government such as Navajo Owned, on Navajo land elder homes, useful, safe roads, drug rehabilitation services, community farming, waste management etc. Please help support and provide businesses that help communities thrive and have purpose, full circle...like how our Navajo/Dine philosophy teaches.

<u>bevnazbagorman@gmail.com</u> Sawmill Chapter CLUPC Member & Sawmill Chapter Community Member

July 4, 2022

Executive Director Office of Legislative Services PO Box 3390 Window Rock, AZ 86515

Dear Representatives,

I am writing this letter in response to legislation number 0109-22, sponsored by Wilson C. Stewart Jr. on June 30, 2022, An Act Relating to the Resources and Development, Budget and Finance, and Naabik'íyáti' Committees, and the Navajo Nation Council; Allocating \$18,880,105 from the Síhasin Fund to NavaMill Lumber & Logging Company for its Proposed Forest Products Business to be Constructed in Sawmill Chapter; Approving the Related Expenditure Plan Pursuant to 12 N.N.C. § 2501 - § 2508.

This letter is to inform as a voting member of the Sawmill Chapter as well as the CLUPC member, I oppose the passing of this legislation. The reason for my opposition and why this legislation should be nulled. First and foremost the impact to the already fragile ecosystem of the Sawmill and Whiteclay forest. Secondly NavaMill's Lumber & Logging Company had been contacted several times by the Sawmill Chapter administration and had an adamant amount of time to respond and communicate regarding the business operation. On June 15, 2022 the community members and Sawmill Chapter CLUPC rescinded the lease due to non-response.

My family and I live 2 ½ miles south of Sawmill on Blue Canyon Road. Our family is the Begaye/Shirley residents and second generation of Dr. Annie Wauneka. She and my grandfather Johnny Shirley were half brother and sister. My mother is Julia Shirley Gorman, grazing permit holder. I am currently in the process of attaining the second grazing permit. Growing up in this area, my grandparents witnessed the impact of the sawmill and logging industry during his time in the 1960's.

Today the Fort Defiance plateau is one of a few areas on the Navajo Nation which has a forest and ecological habitat unique to the nation. Since the 1960's this delicate forest environment has not fully regained nor flourished due to drought, over-grazed land leases, illegal wood hauling, illegal trash dumping, as well as the devasting impact of wild horse herds that roam the area. Since I was young my grandparents had been informed about the replanting of trees, specifically to the White Clay area where we had our sheep camp grazing lease.

Since the 1990's the most devastating impact to the forest fauna of the area is illegal wood hauling. My mother and I have witnessed over the years the mounting increase of wood hauling. Many of which are illegal, where individuals cut down living trees. My family has made numerous complaints about the illegal wood hauling including the cutting of live trees to the Navajo Nation Division of Natural Resources – Forestry. As we all are aware not much can be reinforced due to the lack of resources and capacities to legally address this issue. Over the last 10 years the forest has been thinned by the hauling. The wood hauling has decreased the number of forest and today we and community members continue to witness de-foresting legally and illegally. Many family's in this area are concerned about the fragile environment and ecology of this beautiful land, unique to the Navajo Nation.

When the community found out that the NavaMill Lumber & Logging Company many of our community members were astonished at the thought that this area could be deforested further. The community members and Sawmill Chapter want to know what is the company plans with logging. Due to the little response by the company we do not know. In fact, at the CLUPC meeting on June 15, 2022, the NMLLC representative did not have much to comment about why they had not communicated with the Chapter or community. The building in which the NMLCC lease is proposing to start this company has been abandoned. Nothing has been done to this point that the building has been vandalized. The CLUPC and community members would like to utilize this space to create a community center and/or make it a usable space for the community. The community is in great need of community-based programming for youth, elders, and those in most need.

As a voting member of the community, I want to know why this legislation was approved when the vote to rescind the lease was approved on June 30, 2022 at the CLUPC meeting. Secondly the legislation and the Navajo Nation needs to reconsider the approval of funding non-environmentally friendly. Our land is in the most delicate state of its time. We have to change our thinking about our land and how we can preserve the delicate ecosystems, specifically to the forest and fauna of our nation. As a member of the CLUPC my stance will always be to help our ecology and environment not to further damage our delicate ecosystems. As a nation we need to think further about what needs to be done to become eco-friendlier and to help our mother, Nahasdzaan. The Navajo Nation could become an example of a community change, whereas Indigenous people we stand up for our mother and not give in to profiting of the land. We are in ecological crisis! How can we as nation become the change makers, the individuals to make an example of how the environment can be cared for. Approving this funding and allowing NMLLC to start logging will have devasting ecological impacts. Our forests have been logged and damage has already been done by wood hauling. I invite the legislation to come to our community and you will see how much has already been deforested due to this crisis. My question is, what is left log? Can the Navajo Nation Division of Natural Resources assess the area and help our community members to understand the state the forest and/or environment?

To this point we request the legislation to rethink **0109-22** An Act Relating to the Resources and Development, Budget and Finance, and Naabik'íyáti' Committees, and the Navajo Nation Council; Allocating \$18,880,105 from the Síhasin Fund to NavaMill Lumber & Logging Company for its Proposed Forest Products Business to be Constructed in Sawmill Chapter; Approving the Related Expenditure Plan Pursuant to 12 N.N.C. § 2501 - § 2508. Instead consider funding grass roots and conservation organizations where our ecology and Nahasdzaan nihima is priority. We the community of Sawmill/White Clay have voted against the continued use of this lease on June 15, 2022, please consider and respect our vote. Recently the Sawmill Chapter CLUPC voted in new membership and leaders. Our group is the strongest yet, we hope to become a certified chapter and want to make sound decisions regarding this land. I am hopeful that we always make the right decisions regarding this land, there has been much ceremony, prayer, and positive thought put into the roots. We humbly care for this land in reverence to our ancestors and mostly in hopes for future generations.

I can be reached by email at <u>bevnazbagorman@gmail.com</u> or by phone at considering this letter and time.

. Thank you for

In Humbleness and Balance,

Deverly Joman

NFPI should have cleaned up when they exited. They left slash and trees that they cut down. You see them still laying in the mountain. It is a sore sight and what a waste. They were never held accountable, and who is going to clean that up? Now, the presenter blames the people for "lack of management for 30 years". Stay away from Chuska - Toadlena, Sanostee - Big Valley, and Wheatfields, Tsaile. We have a conservation plan that includes that area and were never consulted and do not approve. The area NEEDS to be cleaned up by the former trespassers, litter bugs, and vandals.

Making a request to the chapter does not mean and meet community outreach. The chapters are part of the Navajo government and officials and committee members are paid by Navajo govt so they are not the people/constituents. You become the government civil servant once you are paid. Christine Benally
