Part 2. Expenditure Plan details.

(a) Describe the Program(s) and/or Project(s) to be funded, including how the funds will be used, for what purposes, the location(s) to be served, and what COVID-related needs will be addressed:

The chapter intends to purchase a new F-350 truck to handle the large load needed to provide service to community. The chapter has a new John Deere backhoe and a used Kubota Tractor. The chapter have been renting transportation to haul these equipment for burial site digging, road service, and trenching for sewage line and waterline. Being the epic center for the covide 19 pandemic, Chilchinbeto had one of the highest fatality rate in 2020, 2021, and still going on in 2022. This add to the numbe of atural causes of death. The vehicle will pull the new goosenect trailer, distribute food supplies, home testing supplies, sanitizers, woods, coal, gloves, and mask. ☐ document attached

(b) Explain how the Program or Project will benefit the Navajo Nation, Navajo communities, or the Navajo People:

The Navajo Nation will recieved from the chapter backhoe equipment for the public used of the community. The people always used pit and shovel to dig burial sites because the chapter was never able to transport the equipment to the people. Now, the shoveling will be made easier for digging burial sites, road work, and other needs. It will also minimize sustaining health hazard from eldles doing the shoveling.. The truck will also be the one to make that happen by transporting the equipment safely and people do not have to wait on rental to make delivery. ☐ document attached

(c) A prospective timeline showing the estimated date of completion of the Project and/or each phase of the Project. Disclose any challenges that may prevent you from incurring costs for all funding by December 31, 2024 and/or fully expending funds and completing the Program(s) or Project(s) by December 31, 2026:

The chapter does foresee any challenges other than to be denied of the purchase.

☐ document attached

(d) Identify who will be responsible for implementing the Program or Project:

Chapter Manager, Eugene Badonie has already secured the truck, making \$1,000.00 down payment to lock-in the 2022 price and place the truck on order. He will file the paper work. The chapter will also be responsible for all other maintenance cost, service fee, licensing fee, and insurance.

☐ document attached

(e) Explain who will be responsible for operations and maintenance costs for the Project once completed, and how such costs will be funded prospectively:

the Chilchinbeto Chapter will incur all the cost of maintenance, and operation.

☐ document attached

(f) State which of the 66 Fiscal Recovery Fund expenditure categories in the attached U.S. Department of the Treasury Appendix 1 listing the proposed Program or Project falls under, and explain the reason why:

1.5 Personal Protective Equipment - The ability to transport the backhoe for burial site digging on a 26 sq. mile of land base enables strain-free, faster, and easier digging.

5.11 Drinking water - Transmission and distribution - Chapter can use this truck to transport water, supplies, food, wood, coal, PPE supplies and distribute them throughout the community without renting one from someone else.

6.1 provision of Government Services - The chapter government had distributed food, water, testing supplies, sanitizers, wood, coal, hay, gloves, and mask to the entire community. The purchase of the heavy duty truck will enable a much needed services by the chapter government.

Part 2. Expenditure Plan details.

(a) Describe the Program(s) and/or Project(s) to be funded, including how the funds will be used, for what purposes, the location(s) to be served, and what COVID-related needs will be addressed:

The Chilchinbeto Chapter was the only Navajo community under lockdown during the early days of pandemic. Many lives were lost and the people continue to fear going places or visiting other people. The trauma was very hard on the people. Many homes need to service septic tanks. Many people had built outdoor portlet potties because the inside toilets are full. Some of these elderly do not know how to call in the septic service contractors.

☐ document attached

(b) Explain how the Program or Project will benefit the Navajo Nation, Navajo communities, or the Navajo People:

The Navajo Nation will actually indirectly provide a service to the people for their restroom utility needs. The nation will benefit from cleanliness, sanitation, and running water. It is especially hard on ADA people that are on wheel chairs, using crutches, canes, and those that need to use the toilet more often including cold nights.

(c) A prospective timeline showing the estimated date of completion of the Project and/or each phase of the Project. Disclose any challenges that may prevent you from incurring costs for all funding by December 31, 2024 and/or fully expending funds and completing the Program(s) or Project(s) by December 31, 2026:

March 1, 2023 → March 1st 2024

There is plenty of time. Only the sewer pond closure by NTUA will make it a challenge.

(d) Identify who will be responsible for implementing the Program or Project:

Chapter Manager, Eugene Badonie has already doing the assessment on number of homes, those that are not being used, and those that are most extreme need. He will be responsible for filing the ARPA paperwork, applications, requisition, and contract including the purchases.

☐ document attached

(e) Explain who will be responsible for operations and maintenance costs for the Project once completed, and how such costs will be funded prospectively:

The Chilchinbeto Chapter will teach the people to saving at least \$30 per month so they do not repeat the predicament in the future. Each owner understands completely what can happen if bills are not paid or services are not make immediately.

(f) State which of the 66 Fiscal Recovery Fund expenditure categories in the attached U.S. Department of the Treasury Appendix 1 listing the proposed Program or Project falls under, and explain the reason why:

2.1 Household Assistance: Rent, mortgage, utility Aid - The community experienced the worst life threatening pandemic in thier lifetime. Most of them are using septic services to their homes and they were not ready for the pandemic that caused them so much pain. They could not get their septic tank service because of Stay-at-home Executive Orders, No visitations, and the use of mask and gloves. They did everything they could to fend for themselves and they are still staying home and distrust visitors.
