NAVAJO NATION ECONOMIC DEVELOPMENT FUND
FUND MANAGEMENT PLAN

EXECUTIVE SUMMARY

Pursuant to the Navajo Nation Sales Tax Distribution Reform Act of 2012, the Fund Management Plan funds 100% pre-development and construction projects and does not allocate any resources to any overhead cost.

As outlined in the Section V. Project Activities, the Fund Management Plan funds pre-development services. These services are essential in preparing a track of undeveloped land set aside for commercial and/or industrial and making the land marketable for development.

In addition, the Fund Management Plan funds onsite development and construction. These services allow the business site to become equipped with utility and water infrastructure and the construction of pavements, buildings and other structure which businesses can begin to locate.

Lastly, the Fund Management Plan allows for the fund itself to be leveraged with other funds within and outside the Navajo Nation.

No part of the Fund Management Plan stipulates the fund be allocated toward general operations such as travel, advertisement and or personnel. The entire fund is designated toward developing businesses on the Navajo Nation.

To date, with reduced budgets, the Division of Economic Development's Contractual Services and Capital Outlay budget line items for pre-development and construction services to less than \$80,000 for FY2014. The \$80,000 represents funding for these services for the 17.5 million acres of land on the Navajo Nation.

Passage of the Fund Management Plan by end of FY2013 would greatly assist the division in immediately implementing the plan within FY2014.

Your support and passage of the Fund Management Plan is greatly appreciated.

MEMORANDUM

TO : Mr. Russell Begaye, President
Navajo Nation Council

FROM : Crystal Deschinny, Division Director
Division of Economic Development

DT: : December 23, 2017

Subject : Proposed Amendment to the Economic Development Fund Management Plan

I respectfully ask for your consideration of a proposed amendment to the Economic Development Fund Management Plan. The proposed amendment would assist in providing much needed capital utilizing the Sales Tax fund to assist with the development of a much needed Section 17 Corporation.

The proposed amendment is:

8. Initial seed funding to start a tribal corporation and/or Section 17 corporation owned by the Navajo Nation

One of the challenges faced by the Division of Economic Development (DED) is that despite well planned and well formulated business ideas, the ideas will remain as such until an appropriate business vehicle, such as the Section 17 Corporation is in place. The Corporation will accommodate, promote and help grow economic development opportunities.

The Section 17 Corporation will:

- Provide a structured vehicle to promote business development;
- Serve as a protective umbrella thereby reducing risk to Navajo Nation while preserving its assets;
- Separate business from politics;
- Encourage entrepreneurship and business development with divided expertise;
- Allow DED and NN to capitalize on and participate in the Tronox fund settlement;
- Promote development of Navajo businesses that will brand and market operating companies built on the strength and reputation of NN;
- Establish the opportunity for issuance of tax exempt bonds to finance projects; and
- Create federal tax savings.

NN has the potential to create businesses that will begin to impact the NN's economic climate. A Section 17 Corporation is what is needed to allow this change to happen.

Respectfully,

Crystal Deschinny, Division Director
Division of Economic Development

RDC Members;

Vote NO on this legislation, please. At the Division of Economic Development we finally have a source of funds via the Sales Tax to help us with funding our long list of projects for our Navajo communities. This is through the Five Year Plan. Attached is the latest listing. (This listing however has not been approved by the RDC since the new administration has taken office. This puts our work on hold until this task is complete.)

This fund is for the DED projects not for creation of another tribal enterprise. I believe this is a disservice to the communities who await for this projects to be done by the Nation.

My list of industrial needs which is attached are within this listing. As the landlords for the NN, we need to help our industrial parks become more attractive and help our tenants in the industrial parks.

We could use this money that its true intent was for DED projects.

Thank you.
