TRACKING NO. 0174-21

AN ACT

RELATING TO HEALTH, EDUCATION AND HUMAN SERVICES, LAW AND
ORDER, BUDGET AND FINANCE AND NAABIK'ÍYÁTI' COMMITTEES AND THE
NAVAJO NATION COUNCIL; ENACTING THE NAVAJO NATION NILCH' ÉÍ BEE
ÍÍŃÁ – AIR IS LIFE ACT OF 2021

BE IT ENACTED:

SECTION ONE. AUTHORITIES

- A. The Health, Education and Human Services Committee of the Navajo Nation Council is empowered to establish Navajo Nation policy, promulgate rules and regulations governing health, social services, education, human services and general government services of the Navajo Nation and its tribal organizations, entities and enterprises, among other duties and responsibilities. 2 N.N.C. §401(B)(1). The Committee further has oversight responsibilities over colleges within the Navajo Nation. 2 N.N.C. §401(C)(3).
- B. The Law and Order Committee of the Navajo Nation Council reviews and makes recommendations to the Navajo Nation Council on proposed amendments to the Navajo Nation Code. 2 N.N.C. §601(B)(14).
- C. The Budget and Finance Committee of the Navajo Nation Council “coordinate[s] and review[s] all fiscal, financial and investment activities of the Navajo Nation and its

enterprises, as well as other agencies, federal, state, regional and private, expending or seeking to expend funds within the Navajo Nation or for the benefit of the Navajo People.” 2 N.N.C. § 301(B)(5).

D. The Naabik'iyáti' Committee of the Navajo Nation Council reviews proposed resolutions requiring final action by the Navajo Nation Council. 2 N.N.C. § 164(A)(9).

E. The Navajo Nation Council, as governing body of the Navajo Nation, sets policy for the Navajo Nation. 2 N.N.C. § 102(A).

SECTION TWO. FINDINGS

A. The Navajo Nation is committed to improving the health and welfare of the people living on the Navajo Nation, to promoting a healthy environment, and has an obligation to enact policies that protect people from harm.

B. The use of all commercial tobacco products (e.g., conventional cigarettes and pipes, cigars, chew, hookah, and e-cigarettes) is harmful to the natural and sacred elements of air and earth. The use of all commercial tobacco products is disrespectful to the Diné fundamental traditions and thus harms our environment resulting in disharmony with the mind, body, spirit, and earth. “Air” embodies life. 1 N.N.C. §201. The rights and freedoms of people to use the sacred elements of life will not be impeded and will be protected and preserved for they are the foundation of our spiritual ceremonies and the Diné way of life. 1 N.N.C. §205(F). It is the right and freedom of the people that every person is respected, honored, and protected with a healthy physical and mental environment, free from all abuse. 1 N.N.C. §204(E).

D. Secondhand commercial tobacco smoke has been classified by the U.S. Environmental Protection Agency as a Group A carcinogen. This classification is reserved for chemicals or compounds, such as asbestos and benzene, which have been shown to cause cancer in humans.

E. There are no safe levels of exposure to secondhand commercial tobacco smoke as reported by the U.S. Surgeon General in 2006. There is no available adequate ventilation technology based upon scientific studies that can ensure the protection and prevention of secondhand commercial tobacco smoke health-related illnesses.

- 1 F. There are many risks associated with e-cigarettes as reported by the U.S Surgeon
2 General. The aerosol from e-cigarettes is not harmless. It can contain harmful and
3 potentially harmful chemicals, including nicotine; ultrafine particles that can be inhaled
4 deep into the lungs; flavoring such as diacetyl, a chemical linked to a serious lung
5 disease; volatile organic compounds such as benzene, which is found in car exhaust;
6 and heavy metals, such as nickel, tin, and lead.
- 7 G. All workers should have a safe workplace so that all workers, as well as nonsmokers
8 including children and elders, can breathe commercial tobacco smoke-free air and be
9 free from the pollution of smokeless commercial tobacco products and dangerous
10 exposure to commercial tobacco thirdhand smoke in public places and workplaces.
- 11 H. Children exposed to secondhand commercial tobacco smoke have an increased risk of
12 asthma, respiratory viral/bacterial infections (e.g., COVID-19), sudden infant death
13 syndrome, developmental abnormalities, and cancer. Secondhand commercial tobacco
14 smoke is particularly hazardous to individuals with chronic diseases (i.e.,
15 cardiovascular disease, diabetes, asthma, and chronic obstructive pulmonary diseases
16 (COPD).
- 17 I. Smoking is linked to an increased risk of developing symptomatic COVID-19.
18 Additionally, current or former smokers are more likely to get severely ill from
19 COVID-19.
- 20 J. According to the 2017 Navajo Youth Risk Behavior Survey, 41% of high school
21 students reported having smoked cigarettes in their lifetime. In addition, 40% of high
22 school students reported having used e-cigarette products in their lifetime.
23 Furthermore, 11% of Navajo high school students reported using smokeless tobacco
24 products compared to the U.S. national high school use at 3.1%.
- 25 K. The cultural, spiritual, and ceremonial use of Dził Nát'oh/ Natural Mountain Smoke is
26 an integral part of Diné life.
- 27 L. Diné cultural teachings about Dził Nát'oh/ Natural Mountain Smoke and its use are of
28 importance to the health, wellness, and welfare of the Diné people.
- 29 M. The ceremonial use of Dził Nát'oh/Natural Mountain Smoke shall not be restricted.
30

1 N. It is in the best interests of the Navajo Nation to amend Title 13 of the Navajo Nation
2 Code for purposes of addressing the health needs of the Navajo people consistent with
3 findings provided herein.

4
5 **SECTION THREE. ENACTING THE NAVAJO NATION NILCH' ÉÍ BEE ÍÍŃÁ –**
6 **AIR IS LIFE ACT OF 2021**

7 The Navajo Nation Council hereby enacts, within Title 13 of the Navajo Nation Code,
8 the Navajo Nation Nilch' éí Bee ÍíŃá - Air is Life Act of 2021 as follows:

9
10
11 **TITLE 13. HEALTH AND WELFARE**

12 **CHAPTER 2. COMMERCIAL TOBACCO REGULATION AND LIABILITY**

13
14 **§ 421. Title**

15 This Act shall be known as the “Navajo Nation Nilch' éí Bee ÍíŃá - Air is Life Act of
16 2021.”

17
18 **§ 422. Purpose**

19 A. The purpose of this Act is to promote Navajo fundamental traditional views on health
20 and wellness. Breathing secondhand commercial tobacco smoke in public places and
21 workplaces are harmful.

22 B. This Act prohibits the use of commercial tobacco products (e.g., conventional
23 cigarettes and pipes, cigars, e-cigarettes, and smokeless tobacco products) in enclosed,
24 indoor workplaces and public places and within a distance of 25 feet from any indoor
25 area where commercial tobacco use are prohibited within the Navajo Nation. This Act
26 does not restrict commercial tobacco use in private residences, unless such are used or
27 otherwise operated for childcare, adult day care, health care facility, or home office.
28 This Act does not prohibit the use of ceremonial tobacco. This Act does not prohibit
29 the use of commercial tobacco products for ceremonial use and/or cultural settings and
30 purposes within the Navajo Nation.

1 C. To ensure compliance, this Act provides penalties for violations, including civil
2 penalties.

3 D. The Act applies to all facilities and activities within the interior boundary of the Navajo
4 Nation or areas within the jurisdiction of the Navajo Nation.

5
6 **§ 423. Definitions**

7 The following definitions apply to this Act:

8 A. “Ceremonial tobacco” means Dził Nát’oh/Natural Mountain Smoke, other natural
9 untreated tobacco, natural plant, and fresh plants which are used in ceremonial and/or
10 cultural settings and purposes.

11 B. “Chew tobacco” or “smokeless tobacco” means any commercial tobacco product that
12 consists of cut, ground, powdered, or leaf tobacco and that is intended to be placed in
13 the oral or nasal cavity.

14 C. “Childcare” means caring for one or more children when the caregiver is not the parent
15 or legal guardian of such children.

16 D. “Commercial tobacco” means: 1) any product containing, made of, or derived from
17 commercial tobacco or nicotine that is intended for human consumption or is likely to
18 be consumed, whether inhaled, absorbed, or ingested by any other means, including
19 but not limited to, a conventional cigarette, a cigar, commercial pipe tobacco,
20 smokeless tobacco, chewing tobacco, snuff, or snus; 2) any electronic smoking device
21 as defined in this section, and any substances that may be aerosolized or vaporized by
22 such device, whether or not the substance contains nicotine; or 3) any component, part,
23 or accessory of 1) or 2), whether or not any of these contains commercial tobacco or
24 nicotine, including but not limited to filters, rolling papers, blunt or hemp wraps,
25 hookahs, and pipes. “Commercial tobacco product” does not mean drugs, devices, or
26 combination products authorized for sale by the U.S. Food and Drug Administration,
27 as those terms are defined in the Federal Food, Drug, and Cosmetic Act, nor does it
28 mean ceremonial use.

- 1 E. “Electronic smoking device” means any device that may be used to deliver any
2 aerosolized or vaporized substance to the person inhaling from the device, including,
3 but not limited to, an e-cigarette, e-cigar, e-pipe, vape pen, or e-hookah.
- 4 F. “Employee” means any person who performs any service on a full-time, part-time, or
5 contracted basis whether or not the person is denominated an employee, independent
6 contractor or otherwise and whether or not the person is compensated or is a volunteer.
- 7 G. “Employer” means a person, business, partnership, association, limited liability
8 company, corporation, trust, non-profit entities, the Navajo Nation and its enterprises,
9 entities, and political subdivisions that employs the services of one or more individual
10 persons.
- 11 H. “Enclosed area” means all space between a floor and a ceiling that is bounded by walls,
12 doorways, or windows, whether open or closed, covering more than 50 percent of the
13 combined surface area of the vertical planes constituting the perimeter of the area. A
14 wall includes any retractable divider, garage door, or other physical barrier, whether
15 temporary or permanent.
- 16 I. “Navajo Fundamental tradition” means immutable laws that predate regulation of
17 modern commercial tobacco use. Navajo fundamental tradition resonates with Diné
18 Natural Law. It declares and teaches that the four sacred elements of life, light/fire,
19 water and earth/pollen in all their forms must be respected, honored and protected, for
20 they sustain life.
- 21 J. “Private Residence” means a house or other dwelling, which is under the exclusive
22 control of one or more private individuals who own or lease the dwelling. A private
23 residence is not a private place when an area in which work is performed in a private
24 residence is a place of employment during hours of operation if: (1) the homeowner
25 uses the area exclusively and regularly as a principal place of business and has one or
26 more on-site employees; or (2) the homeowner uses the area exclusively and regularly
27 as a place to meet or deal with patients, clients, or customers in the normal course of
28 the homeowner's trade or business.
- 29 K. “Public place” means any enclosed area to which the public is invited or in which the
30 general public is permitted, including, but not limited to airports; auditoriums; banks;

1 bars; any other food or liquor establishment; bingo halls, casinos, and other gaming
2 facilities; common areas of rental apartment buildings or other multifamily housing;
3 educational facilities; entertainment facilities; hospitals; hotels/motels; laundromats;
4 meeting rooms; Navajo Nation offices, buildings, and multi-housing; Navajo Nation
5 enterprises and entities offices and buildings; nursing homes, elderly group homes,
6 and assisted living facilities; public transportation vehicles and facilities; reception
7 areas; restaurants; retail stores and other commercial establishments; sports facilities;
8 theaters; and waiting rooms. "Public place" also includes the following outdoor areas:
9 cultural public gathering places or events such as Pow Wows; Navajo Nation parks and
10 cemeteries; and outdoor sports facilities.

11 L. "Smoking" means inhaling, exhaling, burning, or carrying any lighted or heated cigar,
12 conventional cigarette or pipe, or any other lighted, heated, or activated commercial
13 tobacco, and nicotine plants intended for inhalation whether natural or synthetic.
14 "Smoking" also means the use of an electronic smoking device. "Smoking" does not
15 include ceremonial use.

16 M. "Secondhand commercial tobacco smoke" means the particulate matter, gases, and
17 other byproducts of combustion emitted from a lighted pipe, the lit end of a cigarette,
18 cigar, e-cigarette, or any other form of commercial tobacco and the exhaled by-products
19 of tobacco combustion previously inhaled during the smoking of a pipe, cigarette, cigar,
20 e-cigarette, or any other form of commercial tobacco.

21 N. "Sports Facilities" means enclosed and open areas of sports pavilions, stadiums, arenas,
22 gymnasiums, health spas, boxing arenas, rodeo arenas, golf courses, amusement parks,
23 swimming pools, roller & ice rinks, billiard halls, bowling alleys, and other similar
24 places where members of the general public assemble to engage in physical exercise,
25 participate in athletic competition or witness sporting events.

26 O. "Workplace" means any enclosed area in its entirety under the control of a public or
27 private employer where workers, regardless of whether they are employees,
28 contractors, or volunteers, perform work or use incidental to their work, including
29 office buildings, work areas, office buildings, work areas, auditoriums, employee
30 lounges, restrooms, conference rooms, meeting rooms, classrooms, cafeterias,

1 hallways, stairs, elevators, escalators, health care facilities, private offices, break areas,
2 if they are enclosed areas. Vehicles for work shall be considered workplaces.
3

4 **§ 424. Prohibition Against the Use of Commercial Tobacco Products in Public Places**
5 **and Workplaces in the Navajo Nation**

6 The Navajo Nation hereby prohibits the use of all commercial tobacco products (e.g.,
7 conventional cigarettes and pipes, cigars, hookah, electronic-cigarettes, and smokeless
8 tobacco) in all enclosed, indoor workplaces and public places and within a distance of 25
9 feet from any indoor area where commercial tobacco products are prohibited within the
10 Navajo Nation, except as allowed in Section 425.
11

12 **§ 425. Where Commercial Tobacco Use and Smoking are Not Regulated**

13 Notwithstanding any other provision of this Act to the contrary, the following uses shall
14 not be subject to the restrictions of this Act:

- 15 A. Private residences, unless made available to the general public for commercial uses,
16 including but not limited to childcare, health care, or other businesses open to the
17 general public as defined under Section 423 of this Act.
18 B. While the Navajo Nation recognizes the fundamental use of Dził Nát'oh / Natural
19 Mountain Smoke and other natural plants for bona fide traditional ceremonial purposes,
20 this Act does not prohibit the use of commercial tobacco products for ceremonial use
21 and/or cultural settings and purposes within the Navajo Nation.
22

23 **§ 426. Posting of Signs**

24 Within the Navajo Nation, in coordination with the Navajo Department of Health,
25 approved signs shall be conspicuously posted in every building and entrance or other area
26 where the use of commercial tobacco products are prohibited by this Act. Any and all
27 entities having control of such buildings or other areas shall publicly post warning signs,
28 including decals of internationally recognized graphic displays. The signs in Diné bizaad
29 (Navajo language) and English shall clearly state or display that commercial tobacco use
30

1 in any form are prohibited, and must designate the established phone number, e-mail
2 address, or postal mailing address to report violations.

3
4 **§ 427. Commercial Tobacco-Free and Smoke-Free Workplace**

5 A. It shall be the responsibility of employers to provide a commercial tobacco free and
6 smoke-free workplace for all employees in accordance with this Act. Within 90 days
7 of the effective date of this Act each employer having a workplace located within the
8 territorial jurisdiction of the Navajo Nation shall adopt, implement, make known, and
9 maintain a written commercial tobacco free policy in accordance with this Act.

10 B. The Nítch' éí Bee Ííńá - Air Is Life Act shall be communicated to all employees within
11 four weeks of the employer's adoption of such required policy and to all newly hired
12 employees in accordance with this Act.

13 C. All employers shall provide a written copy of the Nítch' éí Bee Ííńá—Air Is Life Act
14 to all current employees and newly hired employees on the first day of employment.

15 D. A person or employer that has control of an area in which commercial tobacco use are
16 prohibited by this chapter shall direct anyone who is using commercial tobacco
17 products in violation of this chapter to extinguish the product being used. If they do not
18 stop using the commercial tobacco product, the person or employer shall refuse any
19 service and shall immediately ask them to leave the property. If the ejection is from a
20 public event, it shall be for the duration of the public event.

21 E. There shall be no retaliation against any person exercising their rights as outlined
22 within this Act. No employer may discharge, refuse to hire, penalize, discriminate
23 against, or in any manner retaliate against employee, applicant for employment, or
24 customer because the employee, applicant, or customer exercises any rights because
25 that employee exercises any rights afforded by this law or reports or attempts to
26 prosecute a violation of this law.

27 F. All proprietors, employers, or other person or entity in charge of a public place, public
28 meeting, public transportation, or place of employment must not provide smoking
29 equipment, including ashtrays or matches, in areas where smoking is prohibited.
30

1 G. The Navajo Department of Health shall provide cessation materials developed by the
2 Navajo Department of Health and Indian Health Service to employers and to any citizen
3 who requests them.

4
5 **§ 428. Enforcement**

6 A. The Navajo Department of Health and Navajo Division of Public Safety shall enforce
7 this Act and be responsible for issuance of citations for violation of this Act.

8 B. The Navajo Department of Health and Navajo Division of Public Safety shall establish
9 a designated telephone number, e-mail, and postal mailing address to report violations.
10 Any citizen who desires to register an oral or written complaint under this Act may
11 initiate a complaint through the designated telephone number, e-mail, or postal mailing
12 address.

13 C. Notice of the provisions as set forth in this Act shall be given to business license
14 applicants for business licenses on the Navajo Nation.

15 D. In addition to the remedies provided by the provisions of this Act, any person aggrieved
16 by the failure of the owner, operator, manager, or other person in control of a public
17 place, or workplace may apply for injunctive relief to enforce those provisions in any
18 district court of the Navajo Nation.

19 E. All proprietors, business owners, managers, operators, or organizations of any
20 establishment regulated by this Article may be held civilly liable for failure to enforce
21 the provisions herein unless they have taken reasonable steps toward compliance. A
22 business owner, manager, or employee of a place regulated by this Act shall inform
23 any person who is using commercial tobacco products that is in violation of this law
24 that use of commercial tobacco products are illegal and request that the illegal use of
25 commercial tobacco products stop immediately, if the person does not refrain from
26 using these products after being asked to do so, ask the person to leave. If the person
27 refuses to leave, the proprietor, person, or entity in charge shall handle the situation
28 consistent with lawful methods for handling other persons acting in a disorderly manner
29 or as a trespasser, and in addition, the person using commercial tobacco products
30 illegally may be fined a civil penalty. A proprietor, person, or entity in charge of a

1 public place, public meeting, place of employment, or public transportation must not
2 retaliate or take adverse action against an employee or anyone else who, in good faith,
3 reports a violation of this Act to the proprietor or person in charge of the public place,
4 public meeting, place of employment, or public transportation, or to the commissioner
5 of health or other designee responsible for enforcing.

6 F. If the Navajo Department of Health has reason to believe that a violation of this law
7 exists, the Department may enter upon and into any public place or workplace for
8 purposes of determining compliance with this law. However, the Department may
9 inspect public places where food or alcohol is served at any time to determine
10 compliance with this law.

11 G. The issuance of a citation may be appealed to the Office of Hearings and Appeals
12 within ten calendar days of the issuance of the citation.

13 H. Subject to the approval of the Health, Education and Human Services Committee of
14 the Navajo Nation Council, the Navajo Department of Health shall establish an
15 infraction/penalty schedule and shall be authorized to promulgate rules and regulations
16 for the implementation and enforcement of this law.

18 **§ 429. Civil Penalties**

19 A. Any proprietor, person, or entity that owns, leases, manages, operates, or otherwise
20 controls the use of an area in which commercial tobacco use is prohibited under this
21 Act, and that knowingly fails to comply with the Act, is guilty and in violation of this
22 Act and subject to administrative citation. Because commercial tobacco use is an
23 addiction, the encouragement of commercial tobacco cessation services will be
24 recommended to those who violate this Act.

25 B. Each violation of this Act occurs shall be considered a separate and distinct violation.

26 C. Repeated violation of this Act by a person who owns, manages, operates, or otherwise
27 controls a public place or workplace may result in a suspension or revocation of any
28 permit or license issued to the person for the premises on which the violation occurred.
29
30

1 D. A suspension or revocation of permit or license shall not be lifted until the violation is
2 brought into compliance in accordance with regulations established by the Navajo
3 Department of Health.

4 E. The Navajo Department of Health shall have the authority to increase the initial civil
5 penalties set forth herein after reasonable notice to the public.

6 F. Any violation of this chapter may be remedied by a civil action brought by the Navajo
7 Nation Department of Justice, including, but not limited to, administrative or judicial
8 nuisance abatement proceedings, civil code enforcement proceedings, and suits for
9 injunctive relief.

10 11 **§ 430. Public Education**

12 The Navajo Department of Health shall provide public health information, education,
13 and awareness regarding the purposes and requirements of this Act. The Department shall
14 conduct any and all prevention, education, and cessation services to address this act shall
15 including publications and disseminations in Diné bizaad (Navajo language) and English
16 of using visual/audio, educational materials, to explaining the provisions of this Act to
17 affected businesses, organizations, entities, and governmental agencies shall be conducted
18 by the program listed above. The Department may establish an internet website to assist in
19 its public education.

20 21 **§ 431. Liberal Construction**

22 This Act shall be liberally construed to further its purposes.

23 24 **§ 432. Amendment**

25 This Act shall not be repealed or amended except by the Navajo Nation Council.

26 27 **SECTION FOUR. EFFECTIVE DATE**

28 The provisions of this Act shall become effective in accord with 2 N.N.C §221(B).

29 30 **SECTION FIVE. CODIFICATION**

1 The provisions of this Act which add or amend sections of the Navajo Nation Code
2 shall be codified by the Office of Legislative Counsel.

3
4 **SECTION SIX. SAVINGS CLAUSE**

5 Should any provision of this Act be determined invalid by the Navajo Nation Supreme
6 Court, or the District Courts of the Navajo Nation, without appeal to the Navajo Nation
7 Supreme Court, or any other court of competent jurisdiction, those portions of the Act
8 which are not determined invalid shall remain the law of the Navajo Nation.

MEMORANDUM

To : Hon. Daniel E. Tso, Chairman
Health, Education and Human Services Committee
Navajo Nation Council

A handwritten signature in black ink, appearing to read "Ron Haven".

From :
Ron Haven, Attorney
Office of Legislative Counsel

Date : August 18, 2021

Re : AN ACT RELATING TO HEALTH, EDUCATION AND HUMAN SERVICES,
LAW AND ORDER, BUDGET AND FINANCE AND NAABIK'ÍYÁTI'
COMMITTEES AND THE NAVAJO NATION COUNCIL; ENACTING THE
NAVAJO NATION NILCH' ÉÍ BEE ÍÍNÁ – AIR IS LIFE ACT OF 2021

As requested, I have prepared the above-referenced proposed resolution and associated legislative summary sheet pursuant to your request for legislative drafting. As to format, the resolution as drafted is legally sufficient. Regarding substance, as with any legislation, it can be subject to review by the courts in the event of proper challenge. Please ensure that this particular resolution request is precisely what you want.

If you are satisfied with the proposed resolution, please sign it as "sponsor" and submit it to the Office of Legislative Services where it will be given a tracking number and sent to the Office of the Speaker for assignment. If the proposed resolution is unacceptable to you, please contact me at the Office of Legislative Counsel and advise me of the changes you would like made to the proposed resolution. Ahéhee'.

MEMORANDUM

To : Hon. Seth Damon, Speaker
Navajo nation Council

From : 
Ron Haven, Attorney
Office of Legislative Counsel

Date : August 20, 2021

Re : **RECOMMENDATION TO INCLUDE RESOURCES AND DEVELOPMENT COMMITTEE AS ASSIGNED COMMITTEE FOR LEGIS. NO. 0174-21, AN ACT RELATING TO HEALTH, EDUCATION AND HUMAN SERVICES, LAW AND ORDER, BUDGET AND FINANCE AND NAABIK'ÍYÁTI' COMMITTEES AND THE NAVAJO NATION COUNCIL; ENACTING THE NAVAJO NATION NÍŁCH' ÉÍ BEE ÍÍÑÁ – AIR IS LIFE ACT OF 2021**

I am the assigned attorney regarding the above legislation. It was just posted.

I strongly recommend that the Resources and Development Committee be added to assigned committees pursuant to 2 N.N.C. § 164(A)(5). The bill broadly defines “public place,” and essentially touches upon the oversight of virtually all standing committees. See section 423(K). Resources and Development Committee oversees some of the places specified.

I apologize any inconvenience. Please call me for any questions. 1.928.871.7166.

P.O. Box 708, Crownpoint, NM 87313 Website: becenti.navajochapters.org Email: becenti@navajochapters.org Phone: (505) 786-2283 Fax: (505) 786-2285

RESOLUTION OF BECENTI CHAPTER
BCAUG-21-114

SUPPORTING AND APPROVING THE PROPOSED LEGISLATION ENTITLED
“NAVAJO NATION NILCH’ ÉÍ BEE ÍÍNÁ AIR IS LIFE ACT OF 2021” LED BY THE
NAVAJO NATION AIR IS LIFE COALITION.

WHEREAS:

1. Pursuant to Navajo Nation Council Resolution CJY-20-55, the Becenti Chapter is a certified chapter of the Navajo Nation Government and is vested with certain authorities to address and resolve local matters in the best interest of the community members, and coordinate with or refer appropriate subject matters to the Navajo Nation, McKinley County, State of New Mexico, and the US Federal Governments; and
2. Pursuant to Navajo Nation Council Resolution CAP-34-98 Local Governance Act (LGA) allows chapter governments to make decisions over local matters, this authority in the long run, will improve community decision making, allow communities to excel and flourish, enable Navajo leaders to lead towards a prosperous future, and improve the strength and sovereignty of the Navajo Nation; and
3. The purpose of the legislation is to prohibit the use of all commercial tobacco products (e.g., conventional cigarettes and pipes, cigars, hookah, electronic-cigarettes, and smokeless tobacco), in all enclosed, indoor workplaces and public places and within a distance of 25 feet from any indoor area where commercial tobacco products are prohibited within the Navajo Nation. This Act does not prohibit the use of commercial tobacco for ceremonial use and/or cultural settings and purposes within the Navajo Nation; and
4. The Navajo Nation hereby continues to recognize the fundamental use of Dził Nát’oh/Natural Mountain Smoke for bona fide traditional ceremonial purposes; and
5. The Navajo Nation finds there are no safe levels of exposure to secondhand commercial tobacco smoke as reported by the U.S. Surgeon General in 2006. There is no available adequate ventilation technology based upon scientific studies that can ensure the protection and prevention of secondhand commercial tobacco smoke health-related illnesses; and
6. The Navajo Nation finds that smoking is linked to an increased risk of developing symptomatic COVID-19. Additionally, current or former smokers are more likely to get severely ill from COVID-19; and

Resolution BCAUG-21-114

7. The Navajo Nation is committed to improving the health and welfare of the people living on the Navajo Nation, to promoting a healthy environment, and has an obligation to enact policies that protect people from harm.

NOW, THEREFORE, BE IT RESOLVED THAT:

1. The Becenti Chapter officially approves and supports the intent and purpose of this resolution for the health of community members in and around Becenti Chapter area.

CERTIFICATION

WE HEREBY CERTIFY that this foregoing Resolution was duly considered by the Becenti Chapter at a duly called chapter meeting at Becenti Chapter at which a legal quorum was present and that same was passed by a vote of 11 in favor, 00 in opposition, and 00 abstaining on this 16th day of August 2021.

August 23, 2021

The Honorable Daniel Tso
Council Delegate and Committee Chairman
The Navajo Nation Council
Health, Education and Human Services Committee
Post Office Box 3390
Window Rock, Navajo Nation AZ 86515

Dear Chairman Tso:

Please accept this letter into the record of the Navajo Nation Council in strong support of the "Navajo Nation Legislation #0174-21, 'Níłch' éí Bee Ííná—Air is Life Health Act of 2021", with no exemptions, led by the Air is Life Health Coalition.

At this time of a Public Health Emergency due to COVID-19, Arizonans Concerned About Smoking is in unanimous support to improve and help guarantee the health of all Navajo Nation and believe that the proposed 'Air is Life Health Act of 2021' will provide much needed support in protecting the health and wellbeing of the Navajo people and visitors in the Navajo Nation; especially the workers where smoking has been permitted before. This Act will help ensure the safety of the Navajo Nation workers, Navajo Nation people and visitors. Everyone will be protected from the known dangers of commercial tobacco secondhand smoke in all businesses without exception.

We reflect on this most noble effort and go back many years working initially with the late Honorable Fifth Navajo Nation President Begaye. Late Honorable Navajo Nation President Begaye in addition to studying chemical addictions was also a Substance Abuse Counselor by vocation and knew first-hand the dangers of nicotine and secondhand smoke. He personally advocated and was energized when focusing on protecting all workers from tobacco and secondhand smoke.

This legislation mirrors our own purpose to save lives. Smoking affects so many, not just the person smoking but those around them. This legislation, if passed would be an instant Role-Model example of Tobacco Control leadership and would warrant national recognition by Health Leaders around the world.

We further commend the Navajo Nation people's role when the World's first totally Smokefree Hospital was created in 1983 at Keams Canyon, Arizona on the Hopi Reservation. This United States Public Health Service (USPHS) Hospital at Keams Canyon served both Hopi Nation and Navajo Nation Tribal patients.

Leadership has to start somewhere by those who not only have the inspiration but the motivation and ability to make a difference. We truly hope that now, in 2021, during a Public Health Emergency the Navajo Nation Council can demonstrate Tobacco Control leadership again with effective legislation that will save lives and create a new norm here in America. We'd be most honored to educate and encourage others to follow your lead.

Please help protect all workers and visitors from commercial tobacco secondhand smoke on the Navajo Nation and join with us at Arizonans Concerned About Smoking for the goal that all workplaces in Arizona will soon also have the same protection from commercial tobacco secondhand smoke.

The Honorable Daniel Tso
Council Delegate and Committee Chairman
The Navajo Nation Council Health, Education and Human Services Committee
Post Office Box 3390

Window Rock, AZ 86515

Dear Chairman Tso,

As a Dine' physician and public health scientist from Teesto Chapter House, I am in support of Navajo Nation Nilch' Éí Bee Ííńá – Air is Life Act of 2021 (Legislation #0174-21) with NO exemptions.

The science is clear about secondhand smoke (SHS) exposure: 1) There are no safe levels of SHS; and 2) There is no ventilation system that can clear out the cancer-causing toxins of SHS. However, commercial tobacco-free policies are the best method to get rid of SHS and to create a healthy environment. Further, research shows that through a comprehensive commercial tobacco-free policy, communities experience the health benefits through reductions of heart attacks, cancers, respiratory illnesses, and other chronic illnesses.

Honorable Daniel Tso, thank you for introducing a legislation that will create a healthy environment for all of our people, especially those who work in environments where smoking is still allowed. This legislation will promote life!! With everything our Navajo communities have experienced with the COVID pandemic over the past 1.5 years, Navajo Nation Nilch' Éí Bee Ííńá – Air is Life Act of 2021 will support all the mitigation efforts that have been put in place by our leaders. Unfortunately, we still do not know the long-term health impacts of those who have developed COVID and are still recovering. Whether their lungs, heart, brain, kidneys, and other organs will be compromised for many years, we do not know. We do know any SHS exposure among these individuals is not healthy. The opportunity to protect these individuals is by passing this historic health policy with NO exemptions.

Our Navajo culture and tradition promotes life. We believe every life is sacred and every breath is sacred. However, through colonization, the tobacco industry has modified the nicotiana plant and made it both addictive and deadly. I believe we are in a period where we are reclaiming this sacred plant and restoring our communities back to health and wellness. The passage of Navajo Nation Nilch' Éí Bee Ííńá – Air is Life Act of 2021 (Legislation #0174-21) with NO exemptions will promote the sacredness of every life.

Regards,

Patricia Nez Henderson, MD, MPH

I don't support this legislation, the Navajo Nation needs all the revenue it can generate from visitors and tobacco product utilization is a huge part of the draw for non-Navajo infusion of money into the Navajo Nation! Casinos, which were designed and marketed to non-Navajo business and external infusion of capital, and tobacco use is a huge draw! We need to focus on capital infusion and not draining Navajo families of capital with a law that reduces the personal choices of people that can make personal decisions for themselves!

Re: Letter of Support for the Navajo Nation Nítch' éí Bee Ííńá – Air is Life Act of 2021

Dear Chairman Tso:

It is with great pleasure that I am writing in support of the “Navajo Nation Nítch' éí Bee Ííńá – Air is Life Act of 2021” led by the Air is Life Coalition. I have been a longtime advocate for improving the wellbeing of Navajo communities. I believe the proposed Air is Life Act will provide much needed support in protecting the health and wellbeing of the Navajo people and visitors in the Navajo Nation. In addition, this Act will improve the safety of Navajo workers by protecting them from commercial tobacco secondhand smoke within the Navajo Nation.

I am aware of the Air is Life Coalition efforts. I know that the work they provide in educating the Navajo people about the dangers of commercial tobacco smoke and use is critical to the health and wellbeing of the Navajo Nation. This public health initiative has created a positive change toward living in harmony for the Navajo people, especially as we move forward from the COVID-19 pandemic. I believe the proposed Air is Life Act will further the work in public health and most importantly will save lives. In closing, I strongly support the Air is Life proposed legislation, “Navajo Nation Nítch' éí Bee Ííńá – Air is Life Act of 2021.” I appreciate their efforts to broadly elevate the health of the Navajo people. If there is anything more that I can do to support this important public health initiative, please let me know. I wish you the best and thank you for your time regarding this important public health work.

Sincerely,

Dona Upson, MD, MA, ATSF

Re: Letter of Support for the Navajo Nation Niltch' éí Bee Ííńá – Air is Life Act of 2021

Yá'át'ééh,

Shí éí Tiffany Kerr yinishyé. Kinyaa'aanii nishł́, Bilagáana bashishchiin, Áshiihíí dashicheii, Bilagáana dashinalí.

It is with great pleasure to support for the “Navajo Nation Niltch' éí Bee Ííńá – Air is Life Act of 2021”, without exemptions, led by the Air is Life Coalition. As leaders of the Navajo Nation, you have the ability to make public health history on the Navajo Nation by enacting one of the most comprehensive clean air laws that will save thousands of lives. The proposed Air is Life will not only protect the health and wellbeing of Diné people but also thousands of visitors who travel to the Navajo Nation each year.

In addition, this Act will ensure the safety of Diné workers who are exposed to any commercial secondhand smoke, which is known to cause serious health effects and premature death. Those who work in gaming enterprises are at most risk, as they are inhaling toxic chemicals from their casino patrons for hours on end. I fully support including gaming enterprises in this Act.

The Air is Life Coalition strives to educate Diné people about the dangers of commercial tobacco use on the Navajo Nation. This public health initiative has created a positive change toward living in harmony for Diné people, especially as we move forward during the COVID-19 pandemic. I believe the proposed Air is Life Act will further the work in public health and, most importantly, save lives.

In closing, I support the Air is Life proposed legislation, “Navajo Nation Niltch' éí Bee Ííńá – Air is Life Act of 2021”, without exemptions. Thank you for your time regarding this important public health initiative.

Ahéhee',

Tiffany Kerr

Dear Navajo Nation Council Delegates,

I am a Navajo college student at the University of Arizona, majoring in Psychology. Upon completing my education, I hope to return to the Navajo Nation as a physician. Our Navajo teachings is all about HOZHO—the balance of our surroundings, including our environment. I must have been 3 years old when I was taught about the dangers of smoking and secondhand smoke exposure. Thus in our home, no one smokes cigarettes or e-cigs, and no one chews smokeless tobacco. Thus, I was quite surprise when I went to Twin Arrows Casino for the Chief Manuelito Scholarship ceremony several years ago. People, especially our Navajo people, were smoking inside that beautiful building. I have asthma so as I walked passed the gaming floor I had to literally hold my breath! I did not want my asthma to be triggered by the smoke. Thus, as my leaders, I urge all of you to pass the Navajo Nation Nilch' Éí Bee Ííńá – Air is Life Act of 2021 (Legislation #0174-21) with NO exemption. Our Navajo communities need to be commercial tobacco-free, including our casinos! I have many relatives who worked at the Navajo casinos, but because of the smoke they quit their jobs. I am sure if the casinos were smoke-free they would have stayed. Finally, I appreciate all that you have done to protect our Navajo communities during the pandemic. It is due to strong public health policies that we have been able to get through this very difficult time. Ahehee

Dear Navajo Leaders

While I am only 17 years old and unable to vote in the Navajo Nation election, I want my voice to be heard when it comes to the Navajo Nation Air is Life Act 2021. I am a senior in high school and plan to pursue my education in medicine. As a teenager I understand the negative health impacts of cigarettes and vaping. This information was taught to us in school from the time I was in 1st grade. I am advocating that you pass the Air is Life Act with no exemptions. I say this because it sends a strong message to the Navajo children and youth not to start smoking or chewing. Thank you and I look forward to voting in the next Tribal election when I turn 18!

AIR IS LIFE

Nítch'i éí bee iiná

Attn: NN- HEALTH, EDUCATION, AND HUMAN SERVICE COMMITTEE,

If read into record. MY SUPPORT OF 0174-21, If not An Emergency Health Legislation to become Law of the Land. The honorable act of 24th NNC and Speaker of the house is admirable. The ACT will provide every Navajo family, hope above all HOPE! The word "HOPE". This decree given to a Kingdom under God the benefits of a prosperous Nation. Just think how much more our Navajo People will benefit from this decree. Only if they listen.

The AIR IS LIFE LEGISLATION since it's development in the early years leading to Present. The collaboration and partnership of local health advocates, human rights advocates, TEAM NAVAJO HEALTH COALITION, "THE HONORING THE SPIRIT HEALTH COALITION", AND AIR IS LIFE HEALTH COALITION, Azeé Bee Nahaghá of Diné, Diné Hataalii Association, including many more other associations across Navajo. Former Navajo Nation Chairman and Presidents express the need for SUPPORT OF THIS ACT from 2005, 2008, 2009, 2010, 2011, and again today with 0174-21 Act. Many individuals including the 21st NNC have supported this proposed Act all in its entirety (no amendments). New ACT's and Executive Orders have been proposed through an Executive Order by President Ben Shelly making historical orders to make Navajo Nation safe from smoking and secondhand smoke. 16 years of outcry from the Navajo public regard the dangers of secondhand smoke in indoors at public places and workplaces in the Navajo Nation. All Navajo employees must be protected in 2021.

Navajo Nation Chairman, President, and many Council delegates, starting from Honorable Peter MacDonald, Kelsey Begay (RIP), Ben Shelly, Vice President RL Jim have all spoken in support of this Act. Former Honorable, Council Delegate Mr. Charles Damon, Church Rock with the support of Team Navajo Health Coalition introduce the first Act in protecting all Navajo employees. Now our present Navajo Nation President Jonathan Nez was a huge support of this Act in its entirety. Hope above all hope he will continue to see the unseen. With the support of Legislation, Executive, and Judicial Branch the time is now to protect all of our Dine' people across the world.

Since its first inception many things' miracles have taken place. The development of 10 Year Health and Wellness Plan "Moving forward in Wellness." 2015-2024. Quote "WE will put our Nation on a ten-year wellness plan for healthier and stronger people. Prevention and awareness will be our methods in reaching these goals. It starts at home, with us, in our conscious, daily routines." The Honorable Ben Shelly, President of the Navajo Nation. Inaugural address on Tuesday, January 11, 2011. The development of the Department of Health- Master Plan of Operation and the Navajo Epidemiology Center, and the development of first ever Public Health System, including Plan of Operation and goals in achieving 15 Goals. Navajo Nation Goals developed to reduce mortality - all address the loss of life. The essential need for AIR in sustaining life – AIR IS LIFE. As we are having to reassess, develop new policies, provide assurance, the Navajo Department of Health and public health services is the vehicle that will bring us the solution and answers of a prosperous Navajo Nation. So, while address the disparities the Navajo has to address the need for strong laws to protect the Navajo families, which is at the heart of new laws.

I have a personal story to add. I lost my father on February 13, 2016, to Cancer, who use commercial tobacco daily for years until it took him. We loss my father in-law June 23, 2021, to Lung Cancer -

smoker. Both my father and grandfather loss their lives to commercial tobacco too young. Hope above All Hope. Hope for a Healthier and Strong Nation as addressed by Former President Ben Shelly. Thank you.

Sincerely,

Peter Nez, Jr.

To Whom it May Concern,

It is with great pleasure that I am writing in support for the “Navajo Nation Nilch’ Bee – Air is Life Act of 2021 – Legislative No. 0174-21” (with no exemptions) led by the Air is Life Health Coalition. I am in great support for improving the wellbeing of our Navajo communities. I believe the proposed Air is Life Act of 2021 will provide much needed support in protecting the health and wellbeing of the Navajo people and visitors in the Navajo Nation. This Act will ensure the safety of the Navajo workers are protected from any dangers of commercial tobacco secondhand smoke within the Navajo Nation.

In closing, I whole heartily support the Air is Life Health Coalition’s proposed legislation, “Navajo Nation Nilch’ Bee – Air is Life Act of 2021”. I appreciate the continuous efforts to elevate the health of the Navajo people, especially in light of COVID-19. Thank you.

Sincerely,

To Whom it May Concern,

The Southwest Navajo Tobacco Education Prevention Project (SNTEPP) is in great support for the "*Navajo Nation Nit'ch' éí Bee Ííńá – Air is Life Act of 2021*" (no exemptions) led by the Air is Life Coalition. The Coalition have been a staunch advocate for improving the wellbeing of Navajo communities. SNTEPP believes the proposed Air is Life Act will provide much needed support in protecting the health and wellbeing of the Navajo people and visitors in the Navajo Nation. In addition, this Act will ensure the safety of the Navajo workers are protected from any dangers of commercial tobacco secondhand smoke within the Navajo Nation.

SNTEPP is aware of Air is Life Coalition efforts and know the work they provide in educating the Navajo people about the dangers of commercial tobacco smoke and use is critical to the health and wellbeing of the Navajo Nation. This public health initiative has created a positive change toward living in harmony for the Navajo people, especially as we move forward from the COVID-19 pandemic. Therefore, SNTEPP believes the proposed Air is Life Act will further the work in public health and most importantly will save lives.

In closing, SNTEPP whole heartily supports the Air is Life proposed legislation, "*Navajo Nation Nit'ch' éí Bee Ííńá – Air is Life Act of 2021*". SNTEPP respectfully asks for your support in the passage of this important public health policy for the Navajo Nation. We appreciate the Navajo leadership continuous efforts to protect the health and wellbeing of the Navajo people. Thank you for your time.

Sincerely,

RE: Legislation NO: 0174-21; Sponsor: Daniel E. Tso

An Action Relating to Health, Education and Human Services, Law and Order, Budget and Finance and Naabik'iyáti Committees and the Navajo Nation Council; Enacting the Navajo Nation Nilch' Éí Bee Ííńá – Air is Life Act of 2021

Dear Chairman Tso:

Americans for Nonsmokers' Rights is writing to wholeheartedly support the Navajo Nation **Nilch' éí Bee Ííńá—Air is Life Act of 2021** for all the people.

Nilch' éí Bee Ííńá—Air is Life Act of 2021 identifies that there are no safe levels of exposure to secondhand smoke. Secondhand smoke has been identified as a Class A carcinogen and is harmful to the people and the first priority for leadership is to protect the health and safety of its people, especially from a known health hazard. Smokefree ordinances give non-smokers and workers the benefits of breathing smokefree air in public places and at work. The American Heart Association, American Cancer Society and American Lung Association support smokefree laws that protect all workers and patrons from the harms of secondhand smoke.

Nilch' éí Bee Ííńá—Air is Life Act of 2021 addresses the importance of maintaining and protecting ceremonial tobacco in the Navajo Nation while distinguishing it from commercial tobacco products such as cigarettes, cigars, snuff, and e-cigarettes.

Nilch' éí Bee Ííńá—Air is Life Act of 2021 states that all workers deserve to have a safe workplace free from commercial tobacco smoke, especially people with pre-existing health conditions (e.g., heart disease, diabetes, asthma, bronchitis, and lung cancer). Smokefree laws ensure that everyone has equal protection from secondhand smoke in the workplace and in public spaces in the Navajo Nation.

Nilch' éí Bee Ííńá—Air is Life Act of 2021 could have a beneficial economic impact for Navajo Nation

Gaming Enterprises since recent surveys have shown that the vast majority of gaming enthusiasts surveyed (94%, n=911) prefer a smokefree casino over a smoking one.¹

According to the latest data, there has been a decrease in player's tolerance of smoking in the gaming environment. As of July 2021, there were approximately 1,034 smokefree gaming venues in the US, including at least 157 Tribal gaming facilities. Similarly, New Mexico and Arizona have a total of twenty 100% smokefree casinos combined to date.

Thank you for your leadership and service. Please feel free to call me at **(510) 460-0748** or email me at cynthia.hallett@no-smoke.org if you have any questions, comments, or feedback.

Sincerely,

A handwritten signature in blue ink that reads "Cynthia Hallett". The signature is written in a cursive, flowing style.

Cynthia Hallett, MPH
President and CEO

Americans for Nonsmokers' Rights is a national, member-based, not-for-profit organization based in Berkeley, CA that is dedicated to helping nonsmokers breathe smokefree air since 1976.

Dear Chairman Tso,

It is with great pleasure that I am writing in support for the “Navajo Nation Nitch’ éí Bee Ííńá – Air is Life Act of 2021” led by the Air is Life Coalition. The Campaign for Tobacco-Free Kids is a proud member of the Air is Life Coalition and joins the group in advocating for improving the health of Navajo communities. The proposed Air is Life Act will protect the health and wellbeing of the Navajo people and visitors in the Navajo Nation. In addition, this Act will ensure the safety of the Navajo workers are protected from commercial tobacco secondhand smoke within the Navajo Nation.

The Air is Life Coalition provides education to the Navajo people about the dangers of commercial tobacco smoke. This public health initiative has created a positive change toward living in harmony for the Navajo people, especially as we continue to experience the COVID-19 pandemic. The proposed Air is Life Act will improve public health and most importantly will save lives.

We strongly support the Air is Life proposed legislation, “Navajo Nation Nitch’ éí Bee Ííńá – Air is Life Act of 2021”. We support the continuous efforts of the Council to broadly elevate the health of the Navajo people. Thank you for your time regarding this important public health work.

Window Rock, Navajo Nation AZ 86515

Dear Chairman Tso:

The national trend is growing in healthy lifestyles, especially now in the COVID-19 pandemic that has caused massive loss of life, hospital stays, and long-term effects. One of the deciding factors for re-opening for business and resuming their operations under standards of protocol in light of the pandemic has been whether to allow commercial tobacco products to be used in workplaces and public places in the Navajo Nation. Many casinos operated by Native American tribes have opted not to allow smoking. Even casinos and restores in other places such as Las Vegas, Nevada have accepted that being mask-less even for moments at a time causes exposure to the COVID-19 virus. Such business operations have accepted protocols for the longevity of workers and patrons, especially against exposure to commercial tobacco second-hand smoke.

It is my hope and belief that these protocols will continue well past the pandemic. That we will learn health comes first. I applaud the Navajo Gaming Enterprise for making a health decision to re-open Navajo Gaming facilities 100% smoke-free.

May the health of the people be put first and become an absolute priority. You have the power to make that happen. Please enact the Navajo Nation Nilch' éi Bee Ííiná—Air is Life Act of 2021 for all the people.

Respectfully,

Re: Letter of Support for the Navajo Nation Nítch' éí Bee Ííńá – Air is Life Act of 2021

Dear Chairman Tso:

I am writing on behalf of Keres Consulting, Inc. (Keres) in support for the “Navajo Nation Nítch' éí Bee Ííńá – Air is Life Act of 2021” led by the Air is Life Coalition. Keres is a Native American-owned small business in New Mexico with decades of experience serving Navajo Nation and its people. Part of our work focuses on supporting clean air efforts in Diné communities, because all people deserve clean air, and we must prioritize protection of community members and of tradition.

We believe the proposed Air is Life Act will provide much needed support in protecting the health and wellbeing of the Diné people and visitors in the Navajo Nation. In addition, this Act will ensure the safety of the Diné workers are protected from any commercial tobacco secondhand smoke within the Navajo Nation.

Through our work we are aware of Air is Life Coalition efforts, and know the work they provide in educating the Diné people about the dangers of commercial tobacco smoke and use is critical to the health and wellbeing of the Navajo Nation. This public health initiative has created a positive change toward living in harmony for Diné people, especially as we move forward from the COVID-19 pandemic. We believe the proposed Air is Life Act will further the work in public health and most importantly will save lives.

In closing, we whole heartily support the Air is Life proposed legislation, “Navajo Nation Nítch' éí Bee Ííńá – Air is Life Act of 2021”. We appreciate their continuous efforts to broadly elevate the health of the Diné people. If there is anything more that our program can do to support this important public health initiative, please let me know. We wish you the best and thank you for your time regarding this important public health work.

To: Nathan Tso, Chairperson, HHS Committee, Navajo Nation
From: American Indian Research Center for Health (AIRCH)
Re: *Air is Life* Act
Date: August 3, 2021

Supporting the Proposed Legislation entitled “Navajo Nation Nítch’ éí Bee Ííńá *Air is Life* Act of 2021”
Led by the Navajo Nation *Air is Life* Coalition.

The American Indian Research Center for Health (AIRCH) strongly supports passage of the *Air is Life* Act of 2021. The American Indian Research Center for Health, funded by the Indian Health Services under the Native American Research Center for Health initiative has been actively supporting Tribal communities in Arizona since 2003. AIRCH is built upon a collaborative group that fosters research to improve the health status of American Indian people, to increase the number of American Indian scientists and health professionals engaged in research, and to educate non-Indians about culturally appropriate health research within American Indian/Alaska Native communities.

Research findings show that Alaska Natives and American Indians (AI/AN) have the highest prevalence of cigarette smoking compared to all other racial/ethnic groups in the US ¹. Along with cigarette smoking, e-cigarettes are on the rise: 40% of AI/AN high school youth currently smoke e-cigarettes and 16% of middle school youth smoke e-cigarettes according to a 2019 study². Heart disease and cancers related to smoking are the leading causes of death among AI/AN groups.

Due to our relevant history of working to improve the health status of American Indian people, we are submitting a position statement supporting and approving the Act. It is essential that the *Air is Life* Act of 2021 is passed because of the known risks of second-hand smoking and the substantial financial and health benefits associated with smoke free environments. We support the *Air is Life* Act 2021 in making the Navajo Nation 100% Smoke-free within workplaces and public places in the Navajo Nation, including the Navajo gaming casinos.

Sincerely,

Kelsey Yonnie (Diné)
Bachelors of Science in Public Health
AIRCH Fellow

To: Nathan Tso, Chairperson, HHS Committee, Navajo Nation
From: Smoke Free Wildcats
Re: Air is Life Act
Date: July 7, 2021

Supporting the Proposed Legislation entitled “Navajo Nation Niltch’ éí Bee Ííńá Air is Life Act of 2021” led by the Navajo Nation Air is Life Coalition.

Smoke Free Wildcats supports the passing of the *Air is Life Act* of 2021. Smoke Free Wildcats has a history of advocating for policies that decrease the risk of exposure to secondhand smoke. The club’s priority is to spread awareness about the dangers of secondhand smoke, specifically in multi-unit housing, such as student housing, hotels and apartments. Due to our relevant history working with tobacco cessation policy, we have decided to submit a position statement supporting and approving the Act. The *Air is Life Act* of 2021 should be passed because of the substantial financial and health benefits associated with smoke free environments.

The financial benefits posed by the *Air is Life Act* of 2021 will positively impact both casinos and other workplaces and businesses. Although a popular opposing argument has been the financial loss posed for casinos, there is a multitude of evidence that casinos opening smoke free would be more cost effective. Some examples include reduced maintenance costs, lessened financial investment in multimillion dollar ventilation systems, new audiences, and reduced disease and healthcare costs. The American Society of Heating, Refrigerating, and Air-Conditioning Engineers (ASHRAE) has found that these multimillion dollar ventilation systems can only limit the odor and associated discomfort, but they cannot eliminate the health hazards from exposure to secondhand smoke when smoking is allowed inside or near a building. In fact, they hold the position that the “...only means of avoiding health effects and eliminating indoor ETS exposure is to ban all smoking activity inside and near buildings” (ASHRAE, 2020)^[1]. There are also many more financial benefits to consider when transitioning other businesses and workplaces to smoke free policy. Research in the U.S. indicates that local businesses and workplaces receive these financial benefits from increased productivity, lowered healthcare costs, and an increased life expectancy for all (Rumberger et al. 2010)^[2]. *In addition to lessened financial investment in expensive and useless ventilation systems, as well as reduced costs for maintenance and healthcare, there are also many health benefits to consider.*

Smoking is a hazardous activity that affects health outcomes for smokers and the people around them. Among the countless health risks associated with smoking, including heart disease and increased risk of cancer, there are also generational disparities that exist and a connection between smoking and the spread of COVID-19. The Navajo Nation has found that

there is a link between smoking tobacco and an increased risk of developing COVID-19. It has also been determined that current and former smokers have a higher chance of getting severely ill from COVID-19 (Air is Life Chapter Resolution). Many businesses opened smoke free in response to the COVID-19 pandemic, however remaining smoke free would prevent exacerbating residual symptoms and reduce airborne droplet transmission through secondhand smoke. Smoke free conditions would benefit casino workers that are consistently exposed to high concentrations of secondhand smoke and therefore COVID-19 transmission. Even before COVID-19 became a factor, casino workers like Nathan Moose (Oglala Sioux) experienced deadly health impacts from secondhand smoke (CDC, 2013)^[3]. Nathan Moose never smoked a day in his life, yet he died at the young age of 53 after working only 11 years in a smoky casino. The secondhand smoke permanently damaged his lungs and led to his early death. In broader terms, smoke free environments would benefit all Native citizens of Navajo Nation, when taking into account the higher smoking rates among American Indian and Alaska Native adults compared to other races and ethnicities. The Truth Initiative has found that “More than 1 in 5 (22.6%) adult American Indians and Alaska Natives currently smoke cigarettes compared to 13.7% overall” (Truth Initiative)^[4]. It is estimated that among this 22.6%, more than half (55.6%) report wanting to quit their smoking habits. Going smoke free in businesses, workplaces, casinos, and other public areas would lessen the urge to smoke and give more opportunities for quitting completely.

Smoke Free Wildcats is in full support of the *Air is Life Act of 2021*. It is our position that the Act is advantageous to health and must be passed. Passing this Act will result in numerous health and financial benefits for current smokers and the surrounding community from secondhand smoke exposure. We thank you for taking our position into consideration and hope you agree that smoke free policy is beneficial for all.

Sincerely,

Emma Sawyer
Smoke Free Wildcats President

Natalie Schwark
Smoke Free Wildcats Secretary

Annika Williams
Smoke Free Wildcats Vice-President

NAVAJO NATION, COCONINO COUNTY, ARIZONA

Cameron Chapter Supporting and Approving the Proposed Legislation entitled “Navajo Nation Nítch’ih éí Bee Iiná Air is Life Act of 2021” led by the Navajo Nation Air is Life Coalition.

RESOLUTION NO. CA-178-187#1

WHEREAS:

1. Pursuant of 26 N.N.C., 3(a) the Cameron Chapter is a duly recognized certified Chapter of the Navajo Nation government, as listed at 11 N.N.C., part 1, section 10, and;
2. Pursuant to N.N.C., Section 1(B) Cameron Chapter is vested with the authority to Review all matters affecting the community and to make appropriate Correction when necessary and make recommendation to the Navajo Nation and other Local agencies for appropriate actions, and;
3. The purpose of the legislation is to prohibit the use of all commercial tobacco products (e.g., conventional cigarettes and pipes, cigars, hookah, electronic-cigarettes, and smokeless tobacco), in all enclosed, indoor workplaces and public places and within a distance of 25 feet from any indoor area where commercial tobacco products are prohibited within the Navajo Nation. This Act does not prohibit the use of commercial tobacco for ceremonial use and/or cultural settings and purposes within the Navajo Nation; and
4. The Navajo Nation hereby continues to recognize the fundamental use of Dził Nát’oh/ Natural Mountain Smoke for bona fide traditional ceremonial purposes; and
5. The Navajo Nation finds there are no safe levels of exposure to secondhand commercial tobacco smoke as reported by the U.S. Surgeon General in 2006. There is no available adequate ventilation technology based upon scientific studies that can ensure the protection and prevention of secondhand commercial tobacco smoke health-related illnesses; and

RESOLUTION NUMBER: DIL-2021-06-005

RESOLUTION OF THE DILKON CHAPTER OF THE NAVAJO NATION

SUPPORTING AND APPROVING THE PROPOSED LEGISLATION ENTITLED “NAVAJO NATION NILCH’ ÉÍ BEE ÍÍNÁ AIR IS LIFE ACT OF 2021” LED BY THE NAVAJO NATION AIR IS LIFE COALITION.

WHEREAS:

1. Pursuant to CMY-23-79, the Dilkon Chapter is a certified Chapter of the Navajo Nation vested with authority and responsibilities to provide and enact on all matters affecting the community; and
2. Pursuant to CAP-34-98, the Navajo Nation Council approved the Navajo Nation Local Governance Act (LGA) that allows Dilkon Chapter to make decisions over local matters; and
3. The purpose of the legislation is to prohibit the use of all commercial tobacco products (e.g., conventional cigarettes and pipes, cigars, hookah, electronic-cigarettes, and smokeless tobacco), in all enclosed, indoor workplaces and public places and within a distance of 25 feet from any indoor area where commercial tobacco products are prohibited within the Navajo Nation. This Act does not prohibit the use of commercial tobacco for ceremonial use and/or cultural settings and purposes within the Navajo Nation; and
4. The Navajo Nation hereby continues to recognize the fundamental use of Dził Nát’oh/ Natural Mountain Smoke for bona fide traditional ceremonial purposes; and
5. The Navajo Nation finds there are no safe levels of exposure to secondhand commercial tobacco smoke as reported by the U.S. Surgeon General in 2006. There is no available adequate ventilation technology based upon scientific studies that can ensure the protection and prevention of secondhand commercial tobacco smoke health-related illnesses; and
6. The Navajo Nation finds that smoking is linked to an increased risk of developing symptomatic COVID-19. Additionally, current or former smokers are more likely to get severely ill from COVID-19; and
7. The Navajo Nation is committed to improving the health and welfare of the people living on the Navajo Nation, to promoting a healthy environment, and has an obligation to enact policies that protect people from harm.

NOW THEREFORE BE IT RESOLVED THAT;

The Dilkon Chapter further requests the elected chapter officials to support fully the intent and purpose of this resolution for the Health in the Dilkon Chapter area.

CERTIFICATION

We hereby certify that the foregoing resolution was duly considered by Dilkon (Navajo Chapter), Arizona at a duly called Regular Chapter Meeting which a quorum was present, and that same day was passed by a vote of 7 in favor, 0 opposed and 4 abstained on this 17th day of June, 2021.

Rodger R. Paul Chapter President

Navajo Nation Kayenta Chapter
Post Office Box 1088
Kayenta Chapter, Navajo Nation, AZ 86033
Chapter Resolution

Resolution No: KY21-32-06

Supporting and Respectfully requesting to the Navajo Nation Council to approve the proposed legislation entitled “Navajo Nation Nílch’ éí bee Ííńá—Air is Life Act of 2021” led by the Navajo Nation Air is Life Coalition.

WHEREAS:

1. The Kayenta Chapter House (KCH) is a certified Chapter under 26 N.N.C. §3 and is also governance certified under 26 N.N.C. §102; and
2. As a governance certified Chapter, Kayenta Chapter has full authority to exercise all delegated authorities expressed in the Local Governance Act, 26 N.N.C. §§ 1 et. seq., which includes exercising governmental authority with respect to local matters and to make favorable decisions in the best interest of the community to protect and promote the general health, safety and welfare of the Chapter’s Membership and all Navajo tribal members; and
3. Pursuant to N.N.C. Section I the Kayenta Chapter is entrusted with the Authority to review all matters affecting the community, make recommendations to the Navajo Nation, Federal, State and other local agencies for appropriate actions; and is also empowered by the Navajo Nation Council to review all matters affecting the local community and to address matters of local concern according to Navajo law, customs and tradition; and
4. The purpose of the legislation is to prohibit the use of all commercial tobacco products (e.g., conventional cigarettes and pipes, cigars, hookah, electronic cigarettes, and smokeless tobacco), in all enclosed, indoor workplaces and public places and within a distance of 25 feet from any indoor area where commercial tobacco products are prohibited within the Navajo Nation. This Act does not prohibit the use of commercial tobacco for ceremonial use and/or cultural settings and purposes within the Navajo Nation; and
5. The Navajo Nation hereby continues to recognize the fundamental use of Dził Nát’oh/ Natural Mountain Smoke for bona fide traditional ceremonial purposes; and
6. The Navajo Nation finds there are no safe levels of exposure to second hand commercial tobacco smoke as reported by the U.S. Surgeon General in 2006. There is no available adequate ventilation technology based upon scientific studies that can ensure the protection and prevention of secondhand commercial tobacco smoke health-related illnesses; and
7. The Navajo Nation finds that smoking is linked to an increased risk of developing symptomatic COVID-19. Additionally, current or former smokers are more likely to get severely ill from COVID-19; and

8. The Navajo Nation is committed to improving the health and welfare of the people living on the Navajo Nation, to promoting a healthy environment, and has an obligation to enact policies that protect people from harm.

NOW, THEREFORE BE IT RESOLVED THAT:

1. The Kayenta Chapter HEREBY fully supports and respectfully requesting to Nation Council to approve the proposed legislation entitled "Navajo Nation Níłch' éí bee Ííńá – Air is Life Act of 2021" led by the Navajo Nation Air is Life Coalition, as outlined as Attachment A of this resolution.
2. The Kayenta Chapter HEREBY directs Kayenta, Chilchinbeto and Dennehotso Chapters' Council Delegate, Nathaniel Brown to fully support and ensure the Chapters' and NN Air is Life Coalition's requests receives a favorable approval at the next Navajo Nation Council session.
3. A favorable passage will ensure our tribal communities' health and welfare are improved when conducting personal business in all enclosed, indoor workplaces and public places on the Navajo Nation, and keep them free from second-hand smoking of commercial tobacco, which is deem toxic. The proposed "Navajo Nation Níłch' éí bee Ííńá – Air is Life Act of 2021" will ensure tribal members the protection and prevention of secondhand commercial tobacco and its associated smoke health-related illnesses.

CERTIFICATION

We hereby certify that the foregoing resolution was discussed at a duly called meeting by the Kayenta Chapter at **KAYENTA**, Navajo Nation, Arizona; at which a quorum was present and that the same was passed by a vote of 07 in favor, 00 Opposed, and 01 abstaining, this 21st day of June, 2021.

RESOLUTION OF THE SHIPROCK CHAPTER

Shiprock, Navajo Nation

Supporting and Approving the Proposed Legislation entitled "Navajo Nation Níłch' éí Bee Ííńá Air is Life Act of 2021" led by the Navajo Nation Air is Life Coalition.

WHEREAS:

1. The Shiprock Chapter of the Navajo Nation acts on this resolution pursuant to the authority conferred on the Chapter through Navajo Nation Code Title 26, Chapter 1, Section 1, B. Purpose which states "Through adoption of this Act, the Navajo Nation Council delegates to Chapters governmental authority with respect to local matters consistent with Navajo law, including custom and tradition" and the inclusivity provided by the Diné Fundamental Law, in that "it is entirely appropriate for the government itself to openly observe these fundamental laws", and
2. The purpose of the legislation is to prohibit the use of all commercial tobacco products (e.g., conventional cigarettes and pipes, cigars, hookah, electronic-cigarettes, and smokeless tobacco), in all enclosed, indoor workplaces and public places and within a distance of 25 feet from any indoor area where commercial tobacco products are prohibited within the Navajo Nation. This Act does not prohibit the use of commercial tobacco for ceremonial use and/or cultural settings and purposes within the Navajo Nation; and
3. The Navajo Nation hereby continues to recognize the fundamental use of Dził Nát'oh/ Natural Mountain Smoke for bona fide traditional ceremonial purposes; and
4. The Navajo Nation finds there are no safe levels of exposure to secondhand commercial tobacco smoke as reported by the U.S. Surgeon General in 2006. There is no available adequate ventilation technology based upon scientific studies that can ensure the protection and prevention of secondhand commercial tobacco smoke health-related illnesses; and
5. The Navajo Nation finds that smoking is linked to an increased risk of developing symptomatic COVID-19. Additionally, current or former smokers are more likely to get severely ill from COVID-19; and
6. The Navajo Nation is committed to improving the health and welfare of the people living on the Navajo Nation, to promoting a healthy environment, and has an obligation to enact policies that protect people from harm.

NOW, THEREFORE, BE IT RESOLVED THAT:

The Shiprock Chapter's Elected Officials further requests the elected chapter officials to support fully the intent and purpose of this resolution for the Health in the Shiprock Chapter area.

Motioned by: Debra A. Yazzie

Seconded by: Sarah Denetclaw-Begay

**Supporting and Approving the Proposed Legislation entitled “Navajo Nation Nilch’ éi Bee
Ííiná Air is Life Act of 2021” led by the Navajo Nation Air is Life Coalition.**

WHEREAS:

1. Pursuant to TCDCS-98-99, The Transportation and Community Development Committee approved the Governance Certification of the Five Management System Policies and Procedures, pursuant to the Local Governance Act, Title 26, N.N.C Section 102 (B); and
2. The Shonto Community Governance (Chapter) is a governance-certified chapter of the Navajo Nation Government with vested authority to establish local ordinances, approve plans, and take positions on matter of concern that are in the best interest of the Shonto community and the Navajo Nation; and
3. The purpose of the legislation is to prohibit the use of all commercial tobacco products (e.g., conventional cigarettes and pipes, cigars, hookah, electronic-cigarettes, and smokeless tobacco), in all enclosed, indoor workplaces and public places and within a distance of 25 feet from any indoor area where commercial tobacco products are prohibited within the Navajo Nation. This Act does not prohibit the use of commercial tobacco for ceremonial use and/or cultural settings and purposes within the Navajo Nation; and
4. The Navajo Nation hereby continues to recognize the fundamental use of Dził Nát’oh/ Natural Mountain Smoke for bona fide traditional ceremonial purposes; and
5. The Navajo Nation finds there are no safe levels of exposure to secondhand commercial tobacco smoke as reported by the U.S. Surgeon General in 2006. There is no available adequate ventilation technology based upon scientific studies that can ensure the protection and prevention of secondhand commercial tobacco smoke health-related illnesses; and
6. The Navajo Nation finds that smoking is linked to an increased risk of developing symptomatic COVID-19. Additionally, current, or former smokers are more likely to get severely ill from COVID-19; and
7. The Navajo Nation is committed to improving the health and welfare of the people living on the Navajo Nation, to promoting a healthy environment, and has an obligation to enact policies that protect people from harm.

NOW THEREFORE BE IT RESOLVED:

1. The Navajo Nation Air Is Life Coalition further requests the elected chapter officials to support fully the intent and purpose of the proposed Legislation for the Health in the Shonto Community Governance (Chapter) area.

2. The Shonto Community Governance hereby Supports and Approves the Proposed Legislation entitled "Navajo Nation Nilch' éí Bee Íííá Air is Life Act of 2021" led by the Navajo Nation Air is Life Coalition.

CERTIFICATION

We hereby certify that the foregoing resolution was duly considered by the Shonto Community Governance at a duly called Council of Nat'aa Regular Meeting via Zoom in Shonto, Arizona at which a quorum was present and that the same was passed by a vote of 05 in favor 0 opposed, and 0 abstained, this 07th day of **August 2021**.

RESOLUTION OF THE TEESTO CHAPTER
Fort Defiance Agency, The Navajo Nation
RESOLUTION NO: TEE-JUN-34-2021

Supporting the "Navajo Nation Nit'ch' éi Bee Iiná Air is Life Act of 2021" led by the Navajo Nation Air is Life Coalition.

WHEREAS:

1. Pursuant to CMY-23-79, the Teesto Chapter is a certified Chapter of the Navajo Nation vested with authority and responsibilities to provide and enact on all matters affecting the community; and
2. Pursuant to CAP-34-98, the Navajo Nation Council approved the Navajo Nation Local Governance Act (LGA) that allows Teesto Chapter to make decisions over local matters; and
3. Teesto chapter has supported in prior years the prohibition of the use of all commercial tobacco products (e.g., conventional cigarettes and pipes, cigars, hookah, electronic-cigarettes, and smokeless tobacco), in all enclosed, indoor workplaces and public places and within a distance of 25 feet from any indoor area where commercial tobacco products are prohibited within the Navajo Nation. This Act does not prohibit the use of commercial tobacco for ceremonial use and/or cultural settings and purposes within the Navajo Nation; and
4. Teesto chapter supports and continues to recognize the fundamental use of Dził Nát'oh/ Natural Mountain Smoke for bona fide traditional ceremonial purposes; and
5. Teesto chapter agrees there are no safe levels of exposure to secondhand commercial tobacco smoke as reported by the U.S. Surgeon General in 2006. There is no available adequate ventilation technology based upon scientific studies that can ensure the protection and prevention of secondhand commercial tobacco smoke health-related illnesses; and
6. Teesto chapter concurs that smoking is linked to an increased risk of developing symptomatic COVID-19. Additionally, current or former smokers are more likely to get severely ill from COVID-19; and
7. Teesto chapter endorses the commitment to improve the health and welfare of the people living on the Navajo Nation, to promote a healthy environment, and has an obligation to enact policies that protect people from harm.

NOW, THEREFORE, BE IT RESOLVED THAT:

1. Teesto chapter hereby supports and recommends approval of the legislation "Navajo Nation Nit'ch' éi Bee Iiná Air is Life Act of 2021" as sponsored by the Navajo Nation Air is Life Coalition.

**THOREAU CHAPTER
RESOLUTION TCH-074-20-075**

Supporting and Approving the Proposed Legislation entitled “Navajo Nation Nilch’ éí Bee Ííhá Air is Life Act of 2021” led by the Navajo Nation Air is Life Coalition.

WHERE AS:

- 1) Thoreau Chapter is a certified Navajo Nation Chapter Government pursuant to the Navajo Nation Resolution CJ- 20-55, it is a delegated governmental authority with respect to local matters consistent with Navajo Nation Law including customs, traditions and fiscal matters, and
- 2) Pursuant to 2 N.N.C 4028, the community members of Thoreau Chapter in a duly called meeting shall have the authority to make appropriate recommendations to the Navajo Nation; and
- 3) Thoreau Chapter is empowered by the Navajo Nation Council to review all matters affecting the community and to make favorable decisions in the best interest of the community membership; and
- 4) Thoreau Chapter membership is desirous of enhancing the living standards and providing healthy environment for residents living in the community of Thoreau Chapter, Navajo Nation, McKinley County, New Mexico; and
- 5) The purpose of the legislation is to prohibit the use of all commercial tobacco products (e.g., conventional cigarettes and pipes, cigars, hookah, electronic-cigarettes, and smokeless tobacco), in all enclosed, indoor workplaces and public places and within a distance of 25 feet from any indoor area where commercial tobacco products are prohibited within the Navajo Nation. This Act does not prohibit the use of commercial tobacco for ceremonial use and/or cultural settings and purposes within the Navajo Nation; and
- 6) The Navajo Nation hereby continues to recognize the fundamental use of Dził Nát’oh/ Natural Mountain Smoke for bona fide traditional ceremonial purposes; and
- 7) The Navajo Nation finds there are no safe levels of exposure to secondhand commercial tobacco smoke as reported by the U.S. Surgeon General in 2006. There is no available adequate ventilation technology based upon scientific studies that can ensure the protection and prevention of secondhand commercial tobacco smoke health-related illnesses; and
- 8) The Navajo Nation finds that smoking is linked to an increased risk of developing symptomatic COVID-19. Additionally, current or former smokers are more likely to get severely ill from COVID-19; and

- 9) The Navajo Nation is committed to improving the health and welfare of the people living on the Navajo Nation, to promoting a healthy environment, and has an obligation to enact policies that protect people from harm.

NOW THEREFORE BE IT RESOLVED THAT:

1. Thoreau Chapter membership hereby supports and approves the Proposed Legislation entitled "Navajo Nation Nítch' éí Bee líná Air is Life Act of 2021" led by the Navajo Nation Air is Life Coalition.
2. Thoreau Chapter Administration and Officials are hereby authorized to execute any and all actions to carry out the purpose and intent of this foregoing resolution.

CERTIFICATION

It is hereby certified that the foregoing Resolution was duly considered by and moved for adoption by Charley Long seconded by Will Arviso and thoroughly discussed and adopted by a vote of 16 in favor, 1 opposed and 1 abstained at a duly called meeting at Thoreau Chapter on August 11, 2021.

4. The Navajo Nation hereby continues to recognize the fundamental use of Dził Nát'oh/ Natural Mountain Smoke for bona fide traditional ceremonial purposes; and
5. The Navajo Nation finds there are no safe levels of exposure to secondhand commercial tobacco smoke as reported by the U.S. Surgeon General in 2006. There is no available adequate ventilation technology based upon scientific studies that can ensure the protection and prevention of secondhand commercial tobacco smoke health-related illnesses; and
6. The Navajo Nation is committed to improving the health and welfare of the people living on the Navajo Nation, to promoting a healthy environment, and has an obligation to enact policies that protect people from harm.

NOW, THEREFORE, BE IT RESOLVED THAT: The Rough Rock Chapter further requests the elected chapter officials to support fully the intent and purpose of this resolution for the Health in the Rough Rock Chapter area.

CERTIFICATION: WE, HEREBY CERTIFY THAT THE FOREGOING RESOLUTION was considered at a duly called Chapter meeting via teleconference at Rough Rock, Arizona at which a quorum was present and that same was passed by a vote of 3 In Favor, 0 Opposed, 0 Abstained on this 15 day of August, 2021.

WESTERN NAVAJO AGENCY COUNCIL Resolution No.WNA C21-06-NB6

Supporting and Approving the Proposed Legislation entitled "Navajo Nation Níłch' éí Bee Ííńá
Air is Life Act of 2021" led by the Navajo Nation Air is Life Coalition.

WHEREAS:

1. Pursuant to IGRD-269-05, the Western Agency Council is a recognized political subdivision of the Navajo Nation, and has the authority to advocate and make appropriate recommendations on behalf of the 18 Western Navajo Agency Chapters to the Navajo Nation Government, Federal, State and local entities for appropriate action; and
2. The Western Agency Council supports the development and application of best practices of public health that can result in the improvement and overall health and well-being of all people; and,
3. The purpose of the legislation is to prohibit the use of all commercial tobacco products (e.g., conventional cigarettes and pipes, cigars, hookah, electronic-cigarettes, and smokeless tobacco), in all enclosed, indoor workplaces and public places and within a distance of 25 feet from any indoor area where commercial tobacco products are prohibited within the Navajo Nation. This Act does not prohibit the use of commercial tobacco for ceremonial use and/or cultural settings and purposes within the Navajo Nation; and
4. The Navajo Nation hereby continues to recognize the fundamental use of Dził Nát'oh/ Natural Mountain Smoke for bona fide traditional ceremonial purposes; and
5. The Navajo Nation finds there are no safe levels of exposure to secondhand commercial tobacco smoke as reported by the U.S. Surgeon General in 2006. There is no available adequate ventilation technology based upon scientific studies that can ensure the protection and prevention of secondhand commercial tobacco smoke health-related illnesses; and
6. The Navajo Nation finds that smoking is linked to an increased risk of developing symptomatic COVID-19. Additionally, current, or former smokers are more likely to get severely ill from COVID-19; and
7. The Navajo Nation is committed to improving the health and welfare of the people living on the Navajo Nation, to promoting a healthy environment, and has an obligation to enact policies that protect people from harm.

NAVAJO NATION WIDE RUINS CHAPTER

RESOLUTION NO. WDR 06-29-21

Supporting and Approving the Proposed Legislation entitled "Navajo Nation Nílch' éí Bee ííńá Air is Life Act of 2021" led by the Navajo Nation Air is Life Coalition.

WHEREAS:

1. Pursuant to CMY-23-79, the Wide Ruins Chapter is a certified Chapter of the Navajo Nation vested with authority and responsibilities to provide and enact on all matters affecting the community; and
2. Pursuant to CAP-34-98, the Navajo Nation Council approved the Navajo Nation Local Governance Act (LGA) that allows Wide Ruins Chapter to make decisions over local matters; and
3. The purpose of the legislation is to prohibit the use of all commercial tobacco products (e.g., conventional cigarettes and pipes, cigars, hookah, electronic-cigarettes, and smokeless tobacco), in all enclosed, indoor workplaces and public places and within a distance of 25 feet from any indoor area where commercial tobacco products are prohibited within the Navajo Nation. This Act does not prohibit the use of commercial tobacco for ceremonial use and/or cultural settings and purposes within the Navajo Nation; and
4. The Navajo Nation hereby continues to recognize the fundamental use of Dził Nát'oh/ Natural Mountain Smoke for bona fide traditional ceremonial purposes; and
5. The Navajo Nation finds there are no safe levels of exposure to secondhand commercial tobacco smoke as reported by the U.S. Surgeon General in 2006. There is no available adequate ventilation technology based upon scientific studies that can ensure the protection and prevention of secondhand commercial tobacco smoke health-related illnesses; and

Legislation #0174-21

Johnson*L. <lejohnson24@yahoo.com>

Mon 8/30/2021 2:12 PM

To: comments <comments@navajo-nsn.gov>;

Ya'at'eeh,

I wanted to make a comment to legislation #0174-21 in the area of banning commercial tobacco in ceremonial settings. If they ban the commercial tobacco there, what is their solution to replace the tobacco. Our traditional tobaccos have been very scarce since there has been no consistent moisture on Navajo Nation.

If the council is going to make this a legislation as is, then they need to let the people know where and how they will replenish the tobacco used, mainly in Navajo American Church ceremonies.

Currently, our traditional tobacco is hard to find. Our people are selling them for over \$150 a gallon bag because of the demand and less tobacco growing on our land.

Please take these concerns into consideration before acting on this legislation piece.

Thank you,

LeAnn Jim

To: comments <comments@navajo-nsn.gov>;

Choice. People deciding to work at a casino fully knowing the potential air hazard impacts are making a choice. People entering into a casino establishment fully knowing there is a potential air hazard are making a choice. Let that be the premise on what I am making my opposition.

1. Has there been serious consideration for alternatives (e.g., casino floor design and designated smoking gaming area)? There are a number of casinos that have designated smoking areas that allow patrons to make a choice in where they decide to gamble. Has there been collaboration with those casino establishments on whether their actions (e.g., designated smoking areas) have affected their economic vitality and allowed their patrons to make a decision based on their preferences? Has there been a direct impact to public health due to such measures?
2. Is the Navajo Nation trying to parent adults? At the age of 18 (i.e., legal smoking age), people have the choice to smoke and they have the responsibility to care for their own health. Each individual may go through a smoking stage (I did) where they think it's cool but eventually stop because they don't like the way their skin, breath, or clothes smell the day after. Really, who wants weird colored complexions and wrinkles? Some people may decide to quit after years when they acknowledge it is not adding to their lives and their significant other does not care for it. Some people may decide to never smoke or may be lifelong smokers, despite knowing the hazards. The point is that they decide and their health is their responsibility.
3. When has banning led to a change of behavior? I feel outright bans lead to more people partaking, especially if the substance is allowed everywhere else. Navajo Nation has banned alcohol for over 50 years and what has been the impact on the high rates of health problems (e.g., diabetes, cirrhosis, high blood pressure, domestic violence, and mental health)? Now Navajo Nation is in a situation where there are no revenue streams from alcohol sales that does not support rehabilitation facilities, public health education, or police enforcement. Instead of designated alcohol-regulated districts, adults who are legal to purchase alcohol are drinking at parties in remote areas with the high possibility of children present and there is no control (e.g., security or bartenders who monitor patrons). These remote locations often inhibit the police's ability to enforce as they are spread out trying to chase each of these backwoods parties instead of patrolling a relatively small district with the occasional remote call.

There is a reason why the 1920's Prohibition failed and led to the Mob rising in power (e.g., bootlegging). It is quite embarrassing when the Navajo Nation Police's big news is an alcohol bust of 40 cases of beer, when we have major issues like domestic violence, murder, and kidnapping. The prioritization of enforcing alcohol limits the ability to enforce other issues. If a person is going through depression due to a job loss, there is a good chance that individual will be drinking their sorrows. However, banning a legal and regulated substance is not going to stop that person from partaking. Actually, having an opportunity to find employment and being able to support themselves (e.g., therapy, financially, and health). The alcohol industry annually employs more than 4 million jobs and generates almost \$70 billion in annual tax revenue while restaurants aim to have 20-30% of their revenue from alcohol sales.

To be quite honest, trying to get a response from a Navajo Nation government department (ahem Agriculture and Water Resources) is more stressful than my stress with alcohol. The difference is accepting personal responsibility. Yes, I did binge drink in college (and on rare occasions), love a great glass of wine, went on a scotch tour in Scotland, and voluntarily went alcohol-free for 3 months. I had to learn about my tolerance, being okay with saying "no, I'm okay," taking responsibility for my actions, and deciding whether or not alcohol would be part of my life. That is growth and learning to make choices as an adult. Banning only creates more problems, especially when the banned substance is available right outside the reservation.

One more example of a ridiculous ban is the Dine' Marriage Act which bans same-sex marriage.

4. I understand there are Coronavirus (COVID-19) concerns however that is personal responsibility and choice. Yes, if you do smoke, you may have health conditions that compromise your immune system that increases the risk of contracting COVID-19. Yes, second-hand smoke from cigarettes and e-cigarettes can transmit the virus further, especially when an individual is not wearing masks. That said, why isn't there legislation to have individuals show their vaccination status in casinos, along with wearing masks? We all understand there is an increased risk of getting COVID-19 when venturing into public spaces, especially enclosed public spaces, so are we nitpicking issues instead of addressing the greater issue that people need to get vaccinated?

Understandably, people may make connections between smoking and COVID-19 as they are both airborne however COVID-19 is an acute public health issue and the risk can be decreased with proper mask wearing and vaccination. Smoking is legal, regulated, and widely available. The antidote for that is personal choice of saying “no” and not going to an establishment that doesn’t have areas that suit your preferences.

Thank you for writing my long-winded argument and I would like to just add one last thing. If the Navajo Nation Council and Leadership is talking about making decisions for the health of the Navajo People, then why is this decision only limited to 24 delegates? Why not put it on the ballot for the people to decide?

Ahe’hee and sincerely,

Holly Barton
Dilkon, Arizona

**RESOURCES AND DEVELOPMENT COMMITTEE
24TH NAVAJO NATION COUNCIL**

THIRD YEAR 2021

COMMITTEE REPORT

Mr. Speaker,

The **RESOURCES AND DEVELOPMENT COMMITTEE** to whom has been assigned:

LEGISLATION #0174-21: AN ACTION RELATING TO HEALTH, EDUCATION AND HUMAN SERVICES, LAW AND ORDER, BUDGET AND FINANCE AND NAABIK'ÍYÁTI COMMITTEES AND THE NAVAJO NATION COUNCIL; ENACTING THE NAVAJO NATION NILCH' ÉÍ BEE LÍÑÁ – AIR IS LIFE ACT OF 2021. *Sponsor: Honorable Daniel E. Tso*

Co-Sponsor: Honorable Seth Damon

Has had it under consideration and reports as DO PASS with one (1) amendment.

AMENDMENT #1:

1. Page 4, beginning with Line 30, after the word's Navajo Nation and the period, insert the following text: This Act does not prohibit the use of commercial tobacco in any business site leased by the Navajo Nation Gaming Enterprise.
2. Page 7, Line 1, after the word establishment and the colon, delete the words beginning with ~~bingo halls, casinos, and other gaming facilities; ...~~
3. Page 8, Line 18, Paragraph B becomes Paragraph C. Insert new Paragraph B as the underlined text as follows:

B. Any business site leased by the Navajo Nation Gaming Enterprise.

4. Renumber or re-letter succeeding paragraphs, sections, and exhibits, as necessary and appropriate. The Office of Legislative Services, the Office of Legislative Counsel, and the Office of Management and Budget, with notice to the sponsor(s) of the Legislation, are hereby authorized to make technical edits to this Legislation and its Exhibits as necessary and appropriate to correct grammatical and/or scrivener's errors, and to correct numerical errors, so long as such edits implement the Navajo Nation Council's intent in approving this Legislation. This Amendment shall supersede inconsistent language contained in any other Committee amendment, which language shall be conformed to the intent or language of this Amendment.

And thereafter the legislation was referred to Budget and Finance Committee.

Respectfully submitted,

Rickie Nez, *Chairperson*
Resources and Development Committee of
the 24th Navajo Nation Council

Date: September 22, 2021 – Regular Meeting (Teleconference)
Location: Resources and Development Committee members called in via
teleconference from their location within the boundary of the Navajo
Nation.

Main Motion:

M: Thomas Walker, Jr. **S:** Wilson C. Stewart, Jr. **V:** 4-0-1 (CNV)
In Favor: Kee Allen Begay, Jr.; Herman M. Daniels; Mark A. Freeland; Wilson C. Stewart, Jr.
Opposition: None
Excuse: Thomas Walker, Jr.
Not Voting: Rickie Nez, *Chairperson*

AMENDMENT #1: Amendment to Legislation #0174-21 regarding gaming. The page numbers and line numbers of Legislation #0174-21 are included in this amendment.

Amendment #1 Motion:
