MEMORANDUM

TO: Edmond Yazzie, Chairman
Law and Order Committee

Law and Order Committee members

FROM: Kee Allen Begay Jr., Member
Law and Order Committee

DATE: November 26, 2017

SUBJECT: **P.L. 93-638 CONTRACT RENEWAL FOR ADULT AND JUVENILE DETENTION**

There are several Legislations going before committee seeking for approval. Further these legislations are seeking authorization for a "Contract" between the Navajo Nation and the United States Department of Interior, BIA, for a period of 5 years.

Recently, Honorable Jonathan Perry sponsored two legislations; # 0455-17 (Adult) and # 0456-17 (Juvenile) Detentions service.

I voted against these two legislations for the following reasons;

1. Funding request amount is not sufficient to cover personnel and O&M for both detentions. Yet, a March 2017 DPS report indicate the need for Correction is \$307.9 million!
2. Both legislations are almost similar in language except Adult and Juvenile wording are inserted.
3. Navajo Nation President had already signed both agreements (Exhibit B).
4. 638 contract format is one sided with no room for the Navajo Nation to "Negotiate."
5. Adult Detention only reference 5 facilities; TC, Chinle, CP, Kayenta, and Twin Arrow? Does Twin Arrow have a plan of operation? What about Shiprock, Fort Defiance, Dilkon and the Satellite districts?
6. As oversight Committee, we never participate in the actual formulation of the contract.
7. NOT even one DATA / STATISTIC is incorporated to justify the actual dollars needed.
8. NO documentation attach indicating The Navajo Nation has "Negotiated" and have seek "Technical Assistant" for funding increase from previous years allocation or utilized Federal Mandate (Laws) to justify for the funding increase.

I did request for NN DOJ and Legislative Counsel to provide LOC a legal advice of the above concerns and potentially make an amendment during NABI presentation. I believe Navajo Nation is not advocating enough justifying for the funding increase. Thank you.

RE: BIA Indian Highway Safety Program Law Enforcement Grant Application for the Navajo Nation

Dear Ms. Belone:

It has come to our attention that the Navajo Department of Public Safety has recently submitted a grant application to the Bureau of Indian Affairs Indian Highway Safety Program for Fiscal Year 2019. The grant instructions indicate that a tribal resolution is needed at the time of submission.

Pursuant to Navajo Nation Code, 2 N.N.C. § 164 (B)(1), grants providing funds to the Navajo Nation do not require Committee or Council approval through resolution. Furthermore, pursuant to 2 N.N.C. §§ 164 (B)(2) and 222(A), if a non-PL-93-638 grant is awarded to the Nation, only the Navajo Nation President is required to review and sign agreements pertaining to the Executive Branch, this includes the Navajo Department of Public Safety. In essence, the Navajo Nation Council or its committees do not issue permission to apply for grants or issue resolutions accepting grants unless there is a waiver of the Indirect Cost Agreement or a change in the Indirect Cost Amount.

However, if a resolution is absolutely required, the resolution will only concur with the Navajo Nation President's acceptance of the grant award. In addition, legal review of the terms and conditions will be done by the Navajo Department of Justice. Attached is a DRAFT resolution with supporting exhibits that concurs with the President's prospective acceptance. Please note neither this letter nor the draft resolution is a formal acceptance of the grant but a formality to complete the application requirements and to explain the authorities vested in the President and Navajo Nation Council. The draft resolution must also be go through the legislative process to have any legal affect, of which it has not.

I appreciate your attention to this matter. If you have any further questions please contact the Office of Legislative Counsel.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Candace French', with a stylized flourish at the end.

PROBLEM STATEMENT: Provide a written summary which clearly outlines the specific traffic related problems the tribe has identified, and will address if grant funds are provided.

With continued lower gasoline prices and an improving economy across the United States resulted in an estimated 3.5% increase in motor-vehicle mileage, the number of motor-vehicle fatality crashes on the Navajo Nation in 2013 totaled 69, up to 77 an increase by 12% by 2016. The total for 2014 was up by 31% from the 2013 figure. The annual total for 2014 was 91. This is the highest reported number within the four years of data. The estimated annual population death rate is 25.83 deaths per 100,000 population. The High MVCF and Motor vehicle crashes (MVC) rate could be attributed to speeding(808), driving while intoxicated(422), and unrestrained passengers(304). Navajo Nation experienced a high/low number of serious motor vehicle crashes over the years with 793 in 2012, 711 in 2013, 677 in 2014, 723 in 2015 and 459 in 2016. In 2016 Navajo Nation Police Department issued 3,101 traffic warning citation and 4,748 traffic citation.

The Indian Highway Safety Grants are performance-based programs. In order to apply for a grant, please provide information on the targets the tribe is trying to reach. Select those appropriate to the traffic safety problem the tribe is trying to address. #1 & #2 are required

Please use the trend analysis tool to assist in determining the FY20 18 targets:

1. To *reduce* the number of MVC fatalities by 25 % from the FY20 16 number of 75
to 56 by the end of FY20 18. (Required)
2. To *reduce* motor vehicle crashes (MVCs) by 25 % from the FY20 15 number of 723
to 542 by the end of FY20 18. (Required)

Select a target the Tribe would like to focus on increasing or reducing: (use drop down menus)

3. To *increase* the number of *DUI/DWI arrests*
by 15 % from the FY20 16 number of 1,569 to 1,805 by the end of FY20 2018. (Optional)
4. To *increase* the number of *speed citations issued*
by 15 % from the FY20 16 number of 1,558 to 1,791 by the end of FY20 2018. (Optional)
5. To *decrease* the number of *unrestrained passenger vehicle occupant fatalities (all seat positions)*
by 10 % from the FY20 16 number of 28 to 25 by the end of FY20 2018. (Optional)

In order to reach the targets identified above, select from the following list of strategies to be conducted during the project year.

- Conduct not less than 18 checkpoints in FY20 18.
- Conduct not less than 190 saturation patrols in FY20 18.
- Provide not less than 24 hours of traffic enforcement during each mobilization period.
(Dates will be provided by BIA IHSP)

SURVEY (B-1): Has the tribe or is the tribe willing to conduct an observed seat belt use for passenger vehicles.
front seat outboard occupants: ☒ Yes ☐ No

STRATEGIES: Place an "X" in the box of the strategies your program will utilize to achieve the targets:

- ☒ Increase enforcement (traffic and DUI)
- ☒ Provide appropriate training (traffic safety related).
- ☒ Print and distribute public service announcements and/or press releases.
- ☒ Provide traffic safety related presentations to school children and community members.
- ☒ Distribute traffic safety related educational materials.

LAW ENFORCEMENT (LE) GRANT**

Specify other plans besides the strategies listed on the previous page:

(Example, Patrolling differently by conducting high visible traffic enforcement in identified problem areas, etc.)

Within the Navajo Nation, the Police Department will partner up with other programs to jointly establish a safety strategy plan to focus on a common safety vision for the Navajo Nation. The vision is to eliminate fatalities and serious injuries across the Navajo Nation's roadways by establishing a team of training personnel to conduct enforcement and preventative operation. This is data driven, interdisciplinary approach that NNPD has been promoting for many years. The approach targets areas for improvement and employs proven countermeasures, integrating application of education, enforcement, engineering (Navajo Nation DOT), and emergency medical (EMS and Fire dept) and trauma service (IHS Injury Prevention Program & Epidemiology). A combination of strategies from different focus areas will be necessary to achieve the Navajo Nation traffic safety vision

FROM : 
Dominic Beyer, Executive Director
Office of Management and Budget

SUBJECT : Indirect Cost Negotiation Agreement (Agreement) on FY 2018 IDC Rate of 15.65%

Attached is the subject Agreement for implementation effective immediately. The Agreement was executed by President Begaye and the Interior Business Center/Department of Interior based on resolution NABIMA-23-18 adopted by the NAABIK'YATI COMMITTEE to accept the IDC rate and to authorize executing the Agreement. The Agreement is available on the OMB website at www.omb.navajo-nsn.gov.

Pursuant to the FY 2018 NN Budget Instructions Manual (BIM), Appendix L Sec. IV(A)(4), the latest approved IDC shall be used to budget for recovery of IDC in the grant application/award. As such, apply the said IDC rate on grants that have an effective date of October 1, 2017 and moving forward. Also ensure the budget for IDC is supported by Check Sheet on Calculating Budget for IDC Recovery as stated at Sec. VI(B) of the BIM.

If the FY 2017 IDC rate of 15.6% was applied to grants effective after October 1, 2017, the Programs Manager shall write the funding agency by March 31, 2018 to request authorization to use the FY 2018 IDC rate. Please send a copy of such letter to the Contracts and Grants Section/OMB.

Last Negotiation Agreement
dated September 22, 2017

The indirect cost rate contained herein is for use on grants, contracts, and other agreements with the Federal Government to which Public Law 93-638 and 2 CFR Part 200 apply for fiscal years beginning on or after December 26, 2014 subject to the limitations contained in 25 CFR 900 and Section II.A. of this agreement. Applicable OMB Circulars and the regulations at 2 CFR 225 will continue to apply to federal funds awarded prior to December 26, 2014. The rate was negotiated by the U.S. Department of the Interior, Interior Business Center, and the subject organization in accordance with the authority contained in applicable regulations.

Section I: Rate

Type	Effective Period		Rate*	Locations	Applicable To
	From	To			
Fixed Carryforward	10/01/17	09/30/18	15.65%	All	All Programs

*Base: Modified total direct costs: Total direct costs, less capital expenditures and passthrough funds. Passthrough funds are normally defined as payments to participants, stipends to eligible recipients, or subawards, all of which normally require minimal administrative effort.

Treatment of fringe benefits: Fringe benefits applicable to direct salaries and wages are treated as direct costs; fringe benefits applicable to indirect salaries and wages are treated as indirect costs.

Section II: General

Page 1 of 3

A. Limitations: Use of the rate(s) contained in this agreement is subject to any applicable statutory limitations. Acceptance of the rate(s) agreed to herein is predicated upon these conditions: (1) no costs other than those incurred by the subject organization were included in its indirect cost rate proposal, (2) all such costs are the legal obligations of the grantee/contractor, (3) similar types of costs have been accorded consistent treatment, and (4) the same costs that have been treated as indirect costs have not been claimed as direct costs (for example, supplies can be charged directly to a program or activity as long as these costs are not part of the supply costs included in the indirect cost pool for central administration).

B. Audit: All costs (direct and indirect, federal and non-federal) are subject to audit. Adjustments to amounts resulting from audit of the cost allocation plan or indirect cost rate proposal upon which the negotiation of this agreement was based will be compensated for in a subsequent negotiation.

C. **Changes:** The rate(s) contained in this agreement are based on the organizational structure and the accounting system in effect at the time the proposal was submitted. Changes in organizational structure, or changes in the method of accounting for costs that affect the amount of reimbursement resulting from use of the rate(s) in this agreement, require the prior approval of the cognizant agency. Failure to obtain such approval may result in subsequent audit disallowance.

D. **Rate Type:**

1. **Fixed Carryforward Rate:** The fixed carryforward rate is based on an estimate of costs that will be incurred during the period for which the rate applies. When the actual costs for such period have been determined, an adjustment will be made to the rate for a future period, if necessary, to compensate for the difference between the costs used to establish the fixed rate and the actual costs.

2. **Provisional/Final Rate:** Within six (6) months after year end, a final indirect cost rate proposal must be submitted based on actual costs. Billings and charges to contracts and grants must be adjusted if the final rate varies from the provisional rate. If the final rate is greater than the provisional rate and there are no funds available to cover the additional indirect costs, the organization may not recover all indirect costs. Conversely, if the final rate is less than the provisional rate, the organization will be required to pay back the difference to the funding agency.

3. **Predetermined Rate:** A predetermined rate is an indirect cost rate applicable to a specified current or future period, usually the organization's fiscal year. The rate is based on an estimate of the costs to be incurred during the period. A predetermined rate is not subject to adjustment. (Because of legal constraints, predetermined rates are not permitted for Federal contracts; they may, however, be used for grants or cooperative agreements.)

E. **Rate Extension:** Only final and predetermined rates may be eligible for consideration of rate extensions. Requests for rate extensions of a current rate will be reviewed on a case-by-case basis. If an extension is granted, the non-Federal entity may not request a rate review until the extension period ends. In the last year of a rate extension period, the non-Federal entity must submit a new rate proposal for the next fiscal period.

F. **Agency Notification:** Copies of this document may be provided to other federal offices as a means of notifying them of the agreement contained herein.

G. **Record Keeping:** Organizations must maintain accounting records that demonstrate that each type of cost has been treated consistently either as a direct cost or an indirect cost. Records pertaining to the costs of program administration, such as salaries, travel, and related costs, should be kept on an annual basis.

H. **Reimbursement Ceilings:** Grantee/contractor program agreements providing for ceilings on indirect cost rates or reimbursement amounts are subject to the ceilings stipulated in the contract or grant agreements. If the ceiling rate is higher than the negotiated rate in Section I of this agreement, the negotiated rate will be used to determine the maximum allowable indirect cost.

I. Use of Other Rates: If any federal programs are reimbursing indirect costs to this grantee/contractor by a measure other than the approved rate(s) in this agreement, the grantee/contractor should credit such costs to the affected programs, and the approved rate(s) should be used to identify the maximum amount of indirect cost allocable to these programs.

J. Other:

1. The purpose of an indirect cost rate is to facilitate the allocation and billing of indirect costs. Approval of the indirect cost rate does not mean that an organization can recover more than the actual costs of a particular program or activity.

2. Programs received or initiated by the organization subsequent to the negotiation of this agreement are subject to the approved indirect cost rate(s) if the programs receive administrative support from the indirect cost pool. It should be noted that this could result in an adjustment to a future rate.

3. Each Indian tribal government desiring reimbursement of indirect costs must submit its indirect cost proposal to our office within six (6) months after the close of the Tribe's fiscal year, unless an exception is approved.

Instructions for Completion of BIA Indian Highway Safety Program Law Enforcement Grant Applications

The Highway Safety Act of 1966, U.S.C. Title 23, Section 402, provides U.S. Department of Transportation funding to assist Indian tribes in implementing traffic safety projects. These projects are designed to reduce the high number of traffic crashes and their resulting fatalities, injuries and property damage within Indian Country.

Tribes can apply for the full-time and over-time Law Enforcement grant with this application: use the drop down menu to select the grant the tribe is applying for. Complete the application in its entirety: do not leave any blank spaces/fields.

The BIA Indian Highway Safety Program is performance-based and data driven. A traffic safety problem **must** be identified; all applications must contain measurable targets and performance measures, and be justified by data. **Insufficient data to justify a traffic safety problem will significantly reduce the possibility of funding for the Tribe.**

These 402 funds are intended to **supplement** an existing traffic safety program on the reservation.

Indian Highway Safety Program grants are funded in the form of reimbursements. Tribes must first expend their funds and submit documentation for reimbursement consideration each month. Monthly report and financial reports (requests for reimbursement) are required.

A Tribal Resolution and the Tribe's most current approved Indirect Cost Rate Agreement Letter **must** be submitted with the application.

Please contact the Indian Highway Safety Program at (505)563-3780 to inquire about BIA IHSP Grant Writing Training.

Grant applications are due by:

May 1, 2017 for the FY2018 Grant Year

May 1, 2018 for the FY2019 Grant Year

May 1, 2019 for the FY2020 Grant Year
