RE: CD-61-22, *An Action Relating to Naabik'iyáti' Committee and Navajo Nation Council; Approving the Navajo Nation Fiscal Recovery Fund Delegate Region Project Plan for Honorable Vince R. James' Delegate Region (Chapters: Jeddito, Cornfields, Ganado, Kinlichee, Steamboat)*

Dear Speaker Tso,

The Nez/Lizer Administration supports the Chapters' endeavors to work collaboratively with their respective Council Delegate in completing the process to access funding made available with the \$211,256,148 allocated for regional expenditure plans under CJN-29-22.

The process to secure funding also involves collaborative efforts between the Chapters, the Division of Community Development, Navajo Nation Fiscal Recovery Fund (NNFRF) Office and the Navajo Nation Department of Justice (NNDOJ). Per BFS-31-21, each proposed expenditure must obtain NNDOJ verification that each proposed project is an eligible expense within ARPA/NNFRF regulations. Each of the projects within CD-61-22 has met all the requirements.

The ARPA/NNFRF process is still evolving since the inception of this funding. Within the United States Treasury and the Navajo Nation, processes have been updated at various times. An example is the Treasury guidelines referenced within Navajo Nation Council resolutions CJY-41-21 and CJN-29-22; the Treasury guidelines exhibit was updated by the United States Treasury on September 20, 2022. Accordingly, the legal guidance provided by NNDOJ and Office of Legislative Counsel is modified to comply with the Treasury guidelines.

One such modification of legal guidance involved the processing of regional expenditure plans. Originally, the guidance was that all projects had to equal \$8,802,340 to be considered as completed and ready for legislative action. This guidance was modified in December 2022 to allow partial funding of the \$8,802,340 allocations so that proposed ARPA/NNFRF projects ready for legislative action could be processed by Office of Legislative Counsel. Because of the time constraints for the 24th Navajo Nation Council to act on proposed legislation, programs did not have sufficient time to provide written verification to Chapters regarding the change in legal guidance.

THE NAVAJO NATION

JONATHAN NEZ | **PRESIDENT** MYRON LIZER | **VICE PRESIDENT**

Pursuant to the authority vested in the Navajo Nation President, I am signing Resolution CD-61-22 into law.

Sincerely,

Jonathan Nez, *President*
THE NAVAJO NATION

Myron Lizer, *Vice President*

RE: Cornfields Chapter (Navajo Station Phase IV) Powerline Project

Dear Ms. Earle:

NTUA is pleased to provide the **PRELIMINARY** construction cost estimate to provide service to residents within the area of Cornfields Chapter, referencing Chapter Resolution No. CF-April2021-103. These costs will supersede all previous costs. The following items are provided for your information:

1. The ownership of the power lines will belong to the Navajo Tribal Utility Authority. The Navajo Tribal Utility Authority will handle the operation and maintenance responsibilities.
2. The cost estimates that are submitted are **PRELIMINARY**. Final construction cost estimates will be based upon the results of archaeological and legal surveys and final engineering design.
3. NTUA has commenced with the archaeological clearance, environmental assessment, and legal surveys, and final engineering and design. This amount is shown on the attached estimate and contributes to the total project cost.
4. The Navajo Tribal Utility Authority will budget \$1,500.00 per customer provided their house is wired and ready for hook up prior to construction.

NOTE: If all homes are not wired, the NTUA Contribution will be adjusted downward to reflect the actual number of homes wired at the time of construction. This will result in an increase in contribution required by the Cornfields Chapter

MEMORANDUM

DATE: July 27, 2022

SUBJECT: DOJ Response to Directive in CJN-29-22 on FRF-Eligibility of Septic Tank Cleaning

This memorandum is in response to the directive in Council Resolution CJN-29-22, which was signed into law by President Nez on July 15, 2022. Specifically, Council Resolution CJN-29-22 directed the Navajo Nation Department of Justice (DOJ) to "inform Delegates, Chapters, and the Division of Community Development, in writing, whether septic tank cleaning is an eligible FRF expenditure and whether septic tank clean outs can be included in Delegate Region Project Plans." Although there is no governing authority that explicitly addresses septic tank clean outs, they are likely an eligible expenditure of Fiscal Recovery Funds, as more fully detailed below.

Fiscal Recovery Funds (FRF) under the American Rescue Plan Act (ARPA) are intended for the following purposes and must fall into one of the following four (4) eligible use categories:

- (1) To support the COVID-19 public health and economic response by addressing COVID-19 and its impact on public health as well as addressing economic harms to households, small businesses, nonprofits, impacted industries, and the public sector;
- (2) To provide premium pay for eligible workers performing essential work;
- (3) To provide government services up to the amount of revenue loss due to the pandemic; or
- (4) To make necessary investments in water, sewer, and broadband infrastructure.

The U.S. Department of Treasury (Treasury) issued a Final Rule further discussing eligible uses of FRF and has also issued an Overview of the Final Rule and Frequently Asked Questions (FAQs). As a starting point to any analysis Treasury has advised that, “[t]he best way to begin evaluation of whether a specific use is an eligible use of [FRF] funds is to consider which of the four eligible use categories the use may fall into....The [FRF] program provides substantial flexibility for each jurisdiction to meet local needs within these eligible use categories. In general, recipients should think about what services they are trying to provide, and for which groups or populations, and assess whether this use of funds would fit within the parameters of the eligible use category as outlined in the Overview and the final rule.”¹

Under eligible use category number 4 - to make necessary investments in water and sewer - Treasury’s Final Rule states that any project that would be eligible under the Clean Water State Revolving Fund (CWSRF) or Drinking Water State Revolving Fund (DWSRF) would be eligible uses of FRF. Beyond CWSRF and DWSRF, Treasury states that FRF can also be used to fund projects that are “necessary.”² “Necessary” means: 1. Responsive to an identified need to achieve or maintain an adequate minimum level of service; and 2. is a cost effective means for meeting that need.³

The questions posed by Council therefore depend on whether septic tank clean outs can be funded by the CWSRF, DWSRF, or are otherwise “necessary” as defined by Treasury. The following provision regarding decentralized wastewater systems, including individual onsite systems, supports a determination by the Navajo Nation that constructing, repairing, or replacing private septic systems is an eligible FRF expenditure.

“The final rule continues to allow the use of SLFRF funds for projects eligible under the CWSRF, consistent with the interim final rule. Under the CWSRF, a project must meet the criteria of one of the following CWSRF eligibilities to be eligible for assistance. Section 603(c) of the Clean Water Act (CWA) [33 U.S.C. 1383(c)] provides that the CWSRF can provide assistance: ... (iv) for the construction, repair, or replacement of decentralized wastewater treatment systems that treat municipal wastewater or domestic sewage. Eligible projects include, but are not limited to, the construction of new decentralized systems (e.g., individual onsite systems and cluster systems), as well as the upgrade, repair, or replacement of existing systems.”⁴

¹ Treasury FAQs from April 27, 2022. FAQ 4.1 “How do I know if a specific use is eligible?”

² *Id.* at FAQ 6.1. In Treasury’s Interim Final Rule, projects under the fourth eligibility category were limited to only those that could be funded with CWSRF or DWSRF. However, in response to public comment, the Final Rule expressly states that additional projects could be funded if they meet Treasury’s definition of “necessary.” Treasury FAQ on this topic reads, “[W]ith broadened eligibility under the final rule, SLFRF funds may also be used to fund additional types of projects — such as additional stormwater infrastructure, residential wells, lead remediation, and certain rehabilitations of dams and reservoirs — beyond the CWSRF and DWSRF, if they are found to be “necessary” according to the definition provided in the final rule and outlined on page 38 of the Overview.”

³ Treasury Final Rule at 266.

⁴ Treasury Final Rule at 276-78.

Treasury's Final Rule also states, "[c]onsistent with the CWSRF, the installation, repair, or replacement of private septic units continues to be an eligible use of SLFRF funds under the final rule. For example, eligible projects include those that address groundwater contamination resulting from faulty septic units and those that would connect failing septic systems to centralized wastewater treatment."⁵ Treasury does not add much additional guidance but mentions private septic tanks in the Overview to the Final Rule, which states, "[r]ecipients may fund a broad range of water and sewer projects, including those eligible under the [CWSRF] or the [DWSRF], *and certain additional projects*, including a wide set of lead remediation, stormwater infrastructure, and *aid for private wells and septic units*."⁶ (Emphasis added.)

DOJ previously reviewed an FRF application for a septic system installation program expenditure plan to utilize FRF allocated under Council Resolution CJY-41-21. DOJ determined that such project was FRF-eligible. That project consisted of constructing and installing new septic systems to outlying homes on the Navajo Nation that are too far from a centralized wastewater system to be connected. DOJ determined that such project was an eligible use of FRF. Specifically, DOJ determined that the project was eligible given the CWSRF's focus on septic system upgrades, repairs, or replacement, and the construction/installation of new systems.

Unfortunately, ARPA, Treasury guidance on FRF, and the CWSRF, do not explicitly address septic tank clean outs. Therefore, there is some uncertainty. However, as noted, the CWSRF allows funding decentralized wastewater systems, including individual onsite systems, for constructing, repairing, or replacing private septic systems, which supports a determination that septic tank clean outs are likely eligible. To the extent that septic tank clean outs constitute "operation and maintenance costs," EPA views such costs associated with individual septic systems as not eligible under the CWSRF; however EPA views capital costs associated with management programs, such as purchasing pump-trucks as eligible.⁷ It is therefore important to further define the program seeking FRF funding to ensure CWSRF eligibility.

Even if septic tank clean outs are outside the scope of the CWSRF, they still could be eligible as "necessary." Specifically, septic tank clean outs are responsive to an identified need for an adequate minimum level of service and maintenance - which includes cleaning, and is a cost effective means for meeting that need. Without regular clean outs, private septic tanks will likely fail, and groundwater contamination logically follows - the cost of which to clean up would be an eligible expense.

Additionally, septic tank clean outs may also be eligible under the eligible use category number 3 - provision of government services up to the amount of revenue loss due to the pandemic. Treasury FAQs provide, "[i]f a use does not appear to be eligible under the water, sewer, and

broadband infrastructure, premium pay, or public health and negative economic impacts eligible use categories, then recipients should consider using funds under the revenue loss eligible use category. The revenue loss eligible use category provides recipients broad latitude to use funds for the provision of government services to the extent of reduction in revenue due to the pandemic.”⁸ In Treasury’s Final Rule with respect to government services, “generally speaking, services provided by the recipient governments are “government services” under the interim final rule and final rule, unless Treasury has stated otherwise. Government services include, but are not limited to, maintenance or pay-go funded building of infrastructure, including roads; modernization of cybersecurity, including hardware, software, and protection of critical infrastructure; health services; environmental remediation; school or educational services; and the provision of police, fire, and other public safety services.”⁹

Septic tank clean outs are not prohibited under Treasury guidance. Although the Nation does not typically provide cleaning services for private septic tanks nor does the Nation typically provide financial assistance for homeowners to pay for private contractors to provide septic tank cleaning services, the Nation does provide funding for financial assistance to individual Navajo members for firewood, fuel, food, and other forms of emergency assistance. Full and overflowing septic tanks constitute a sanitation concern. Throughout the pandemic and beyond, the Nation has invested in improving public health conditions for its members.

In conclusion, FRF eligibility determinations require a careful analysis of the specific details of a proposed expenditure. To make a conclusive determination regarding the FRF eligibility of a proposed septic tank cleaning program, DOJ recommends that one or more Council Delegates work with the FRF Office and the Division of Community Development to develop an FRF expenditure plan and supporting documents for further review.
