THE NAVAJO NATION FISCAL YEAR 2016 BUDGET INSTRUCTIONS MANUAL

I. PURPOSE AND AUTHORIZATION

A. Purpose

The Budget Instructions Manual (BIM) is designed to provide instructions and information for the development of the Navajo Nation comprehensive budget.

Copies of the BIM are available from the Records Management Department, (505) 371-5113 or on the Navajo Nation Office of Management and Budget (OMB) website at: www.omb.navajonsn.gov. For inquiries regarding the budget development process, OMB can be reached at (928) 871-6046/6470 and via e-mail at: customer service@www.omb.navajo-nsn.gov.

B. Authority

The Appropriations Act (12 N.N.C. § 800 - 880) is the primary Navajo Nation legislation which authorizes the process of developing the annual Navajo Nation comprehensive budget.

The Appropriations Act (Appendix L, 12 N.N.C. § 800) states that the Navajo Nation government has a fiduciary responsibility to:

- Account for public funds.
- Manage finances wisely.
- Plan for the adequate funding of services desired by the Navajo people, including the provision and maintenance of public facilities.
- Establish policies and procedures for the preparation, adoption, and implementation of the annual Navajo Nation Comprehensive Budget.

Other Navajo Nation legislation and policies, some of which are referenced in this manual, provide further information regarding fiscal and budgetary matters. These include: Branch Chief Authorities, Budget and Finance Committee and other legislative oversight committee authorities, program Plans of Operation, and program Fund Management Plans. For any differences between contents of this BIM and Navajo Nation law, the law shall takes precedence.

II. PERFORMANCE BUDGETING AND PERFORMANCE ASSESSMENTS

A. Performance Budgeting

The Navajo Nation government utilizes performance budgeting as a factor in making budget decisions. The Navajo Nation's Appropriations Act mandates a budget development process which includes the use of program performance information.

Performance budgeting is a method that incorporates the use of program performance criteria (goals and results/actuals results) per Budget Form 2 to allocate assist with the allocation of funds during the budget development process. Other factors are considered when making budget decisions, such as:

- Personnel
- Budgeted vs. actual expenditures
- Prior year(s) budget revisions
- · Carry-over funds availability and usage
- External funds availability and usage
- Supplemental funds availability and usage
- Political priorities

Therefore, mMeasurable program performance criteria are required for each program budget using Budget Form 2 information as well as information received from the program's respective oversight committee. Performance results are reported on a quarterly basis.

B. Methodology

During budget development, program managers develop five (5) significant program performance criteria/goal statements for relevant aspects of program performance areas. Programs may develop more criteria for their internal use, but five (5) are required for the budget process. The goal statements should address major relevant program performance areas and be measurable on a quarterly basis.

At the end of each quarter, program managers will submit the actual quarterly results for the goal statements established and approved for each program budget to OMB. The OMB Management & Policy Section will perform quarterly program assessments and generate reports based on the goals and actual accomplishments reported by program managers on Budget Form 2. Quarterly performance reports will be disseminated to key officials and made available to the public (via OMB's website).

C. Program Performance Assessments

Program Performance Assessments are conducted by OMB on a quarterly basis utilizing a system that compares the program performance criteria and the quarterly actual results.

At the end of each quarter, program managers will submit the actual quarterly results for the goal statements established and approved for each program budget to OMB. The OMB Management & Policy Section will perform quarterly program assessments and generate reports based on the goals and actual accomplishments reported by program managers on Budget Form 2. Quarterly performance reports will be disseminated to key officials. and made available to the public (via OMB's website).

A simple rating method is used to determine program performance scores. Program performance scores are based on performance criteria developed by program managers during budget development and actual results reported by program managers on a quarterly basis. OMB program analysts use a comparison of goal statements to actual results and determine scores for each goal statement. Scores range from 0 to 3 using the following scale:

- 3 Exceeded Indicates the program exceeded their goal statement.
- 2 Met Indicates the program met their goal statement.
- 1 Not Met Indicates the program did not meet their goal statement.
- 0 No Report Indicates the program did not report actual results to OMB.

An overall performance score is determined by calculating the cumulative average of all quarterly performance goal scores which becomes the program's average performance score. Any program that receives any additional funding during the fiscal year (carry-over, supplemental funding, etc.) must REVISE their current Budget Form 2 to incorporate the new performance criteria associated with the additional funding. Contact OMB's Management & Policy Section for further information and/or instructions, if needed.

III. FINANCIAL MANAGEMENT INFORMATION SYSTEM (FMIS) BUDGETING

A. Financial Management Information System (FMIS) Budgeting

The Navajo Nation's financial system, FMIS, uses financial software and technology structured for the Navajo Nation's organizational and periodic financial reporting requirements.

Administration of the FMIS budget data is the responsibility of OMB and Office of the Controller is responsible for administration of the FMIS expenditure data. Generally, the system maintains budget information on various budget ledger types, such as ledgers for budget development, final budget and budget revisions. Budget ledger types are administered by OMB and are used with other FMIS ledgers to provide budget status and other important financial information to verify availability of funds or to generate reports.

The Office of the Controller, at the request of the OMB, assigns general fund business unit (BU) numbers for each Navajo Nation Program and these numbers are maintained in the FMIS for financial budgeting and accounting purposes. Budget development and administration in the FMIS are maintained within the assigned business unit number. Navajo Nation programs may have multiple business units or numbers depending on funding source(s).

The FMIS is designed to allow remote access and usage by trained and authorized Navajo Nation employees. FMIS remote usage currently includes inquiry access to budget data. Program managers can contact the Office of the Controller FMIS support staff at (928) 871-6337 for more information on FMIS access requirements and training opportunities.

B. Chart of Accounts for Budgeting Purposes and Level of Detail (LOD)

The official Navajo Nation Chart of Accounts uses a 4-digit coding system (object codes) to maintain line-item revenue and expense information in the FMIS. Appendix A, Chart of Accounts for Budgeting Purposes, shows the <u>various</u> object codes to be used in the development of the Navajo Nation budget. Each object code in the chart is assigned a level of detail ranging from 3 to 7. Accounts at LOD 7 are the most detailed and accounts at LOD 3 are less detailed. Those accounts at a lesser level of detail are primarily used for generating budget or financial reports on a sub-totaled basis. Data entered at a higher level of detail (usually 6 or 7, depending on the ledger type) allows for information to be rolled up or down for reporting and inquiry purposes, as well as for budgeting or expenditure reporting and sorting purposes.

Budget data on the budget ledger must be are entered at a LOD 6, except personnel fringe benefits, which are budgeted at LOD 5 in object code 2900. All procurement and financial accounting of actual expenses are processed at the LOD 7 by the Office of the Controller. Budget amounts entered at LOD 6, if sufficient funds are available, will cover any LOD 7 object code expenses within that LOD 6 object code. This allows programs to budget at a lesser level of detail and account for expenditures at LOD 7.

IV. BUDGET TIMETABLE AND PROCESS

A. Budget Development Process Chart

The chart displayed on the next page shows the annual Navajo Nation budget development process which starts with the Budget and Finance Committee approvals of the BIM, calendar, revenue projections and Branch Planning allocations.  - (b) From that date to the end of the fiscal year (September 30, 2016 or to a

- day before the employee's anniversary date), determine the number of hours the employee is to be paid at the higher rate.
- (c) Determine the dollar amount difference between the new hourly rate of pay and the current hourly rate of pay.
- (d) Multiply the hours to be paid at the new hourly rate (from Step (1) (b) above) by the dollar amount difference calculated (from Step (1) (c) above).

These amounts are to be budgeted in object code 2200. If there are insufficient funds to cover the above entry level salary, a budget revision should be processed for the additional amount. is required. The amount needed must be transferred from a non-personnel object code(s).

For programs not eligible to utilize the Personnel Savings (Lapse Fund) Account for the general wage adjustment the cost will be absorbed by the respective programs.

Implementation of this type of salary adjustment for external grant funded programs shall be based on budget funds availability verified by OMB and OOC.

5. Merit Pay Bonus. Merit pay bonus payments are subject to approval by the respective Personnel Office. The employees must not have received a step increase during the applicable rating period to be eligible for a merit pay bonus. These costs must be absorbed by the program and budgeted in object code 2710

Implementation of this type of salary adjustment for external grant funded programs shall be based on budget funds availability verified by OMB and OOC.

6. Other Bonus. Other bonuses payments are subject to approval by the respective Personnel Office. The costs for other bonus payments must be absorbed by the program and budgeted in object code 2710.

Implementation of this type of salary adjustment for external grant funded programs shall be based on budget funds availability verified by OMB and OOC.

- 7. Budgeting Fringe Benefits. Use the appropriate rates in Appendix E to calculate applicable fringe benefits for all budgeted positions and associated salaries. Fringe benefits must be budgeted for all personnel costs such as salaries, overtime and bonuses, including any changes made to the personnel salary. These amounts are to be budgeted in object code 2900. Also see Section X.E.10.
- C. Layoff/Reduction-In-Force (RIF) Procedures. Any changes in positions, which will result in displacing employees, shall be made in accordance with the applicable Personnel Policies. Layoffs or Reduction-In-Force (RIF) must be listed on Budget Form 5.
- **D. Personnel Savings (Lapse Fund) Account.** Pursuant to Navajo Nation Council Resolution, CF-07-11, all unexpended general fund personnel savings in the personnel object code 2001 category are designated as restricted carryover funds solely for use in the administering and maintaining the Classification and Pay Plans by the Department of Personnel Management.

Notwithstanding D. above, general funded personnel funds transfers within personnel object codes are allowable until the end of the third quarter of the fiscal year. Personnel fund transfers, not including object codes 2110-Regular and 2900-Fringe Benefits, continue to be allowable in the fourth quarter.

All unexpended general fund personnel savings (i.e. vacant positions) are considered lapsed after each pay period in a given fiscal year (October 1st through September 30th) and are unavailable for personnel action. The only exceptions are those positions that are budgeted for less than 2,080 hours and indicate a specific timeframe (i.e. April 1 through October 30).

Programs receiving approval for a prior year carryover amount from unexpended personnel savings are not eligible to utilize the Personnel Savings (Lapse Fund) Account.

XIII. BUDGETING OPERATING EXPENSES

All offices shall budget for telecommunication expenses <u>not included</u> in the above item including telecommunication line installation, equipment, and related service request options (i.e. line moves, voice mail, programming for telephone features, etc.) This also includes toll free numbers and data circuit services (dial up, DSL, T-1 or Metro Ethernet, etc.) inclusive of all installation and monthly service cost.

The NNTU department shall budget for long distance services under the Fixed Cost – Telecommunications budget.

d. All request for telecommunication services under A, B, & C require prior approval by the NNTU department pursuant to GSCO-45-10, GSCN-46-10 and GSCN-47-10. All NN governmental offices are required to abide by these policies and procedures which are available on the Telecommunication/Utilities website at www.nntu.navajo-nsn.gov.

Applicable telecommunications rates are tariff driven and approved by the applicable state commission, and can be obtained from your service provider in your area.

e. Call NNTU at (928) 871-7613 regarding any of the above or any other questions.

B. Budgeting Insurance Expenses

1. Criteria for determining vehicle insurance rate and premiums.

All vehicle(s), whether assigned through Navajo Nation Fleet Management Department, department/Chapter purchased or GSA leased vehicles, will be *required* to establish an insurance premium line item (budget) amount for auto physical damage, and if applicable, auto liability coverage, and a deductible line item (budget) amount. The insurance rates for fleet vehicles are shown in Appendix F of this BIM. For any questions regarding vehicles insurance, call Risk Management Department at (928) 871-6335.

2. Property. Each Division, department, program or Chapter is *required* to budget for property insurance premiums. The rates and deductibles are as follows:

| Coverage | Rate | Per Value | Deductible |
|------------------------|-------------|-----------|------------|
| Contents | 0.86 | \$1,000 | \$1,500 |
| | 1.11 | | |
| Contractor's equipment | 0.86 | \$1,000 | \$1,500 |
| | <u>1.11</u> | | |

Example: Program reports \$50,000 in total insurable values (TIV) for its property contents and contractor's equipment. Formula: $$50,000 \text{ (TIV)} \div $1,000 = $50 \text{ x } $0.86 \text{ } \underline{1.11} = $43.00 \text{ } \underline{55.50}$. Program should then budget \$43.00 $\underline{55.50}$ for property premium based on the TIV report.

3. General Liability. Each Division, department, program or Chapter is *required* to budget for general liability coverage to cover unforeseen accidents within the work environment. General liability rate are 12 20 cents (12 20¢) per \$100.00 of payroll.

Example: Program budgets \$500,000 in payroll (including fringe benefits). Formula: \$500,000 (payroll) \div \$100 = \$5,000 x \$0.12 $\underline{20}$ = \$700.00 $\underline{1,000}$. Program should then budget \$700.00 $\underline{1,000}$ for general liability premium, based on reported payroll.

4. Exposure Summary Information. The Navajo Nation Risk Management program has an "Exposure Summary Packets" for policy year 2016 which will assist each Division, department, program or Chapter in determining property premium rates to be budgeted.  - a. "General Fund." This Fund is the general operating fund of the Navajo Nation. It is used to account for all financial resources except those required to be accounted for in another fund.
 - b. "Special Revenue Fund."  - a. "Enterprise Fund." This Fund is used to account for Navajo Nation operations that are financed and operated in a manner similar to private business enterprises where the intent is that the costs of providing goods or services to the public be financed or recovered primarily through user charges: or where a periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for accountability purposes.

Nonexpendable trust funds and pension trust funds are accounted for in a manner similar to proprietary funds.

Upon notification from the Controller of additional projected funds, the Budget and Finance Committee may convene budget hearings for the purpose of hearing and considering requests for supplemental appropriations. Supplemental appropriations to programs or activities with approved fiscal year operating budgets must be supported by additional recurring revenues for the same fiscal year.
