5 **SECTION TWO. FINDINGS**

6 A. The World Health Organization (WHO) declared a Public Health Emergency of
7 International Concern related to the outbreak of coronavirus (COVID-19), a highly
8 contagious and sometimes fatal respiratory virus, on January 30, 2020; the U.S.
9 Department of Health and Human Services declared a Public Health Emergency related
10 to the COVID-19 outbreak on January 31, 2020; and the WHO declared a global
11 pandemic due to COVID-19 on March 11, 2020.

12 B. The Navajo Nation Commission on Emergency Management, with the concurrence of
13 Navajo Nation President Jonathan Nez, declared a Public Health State of Emergency
14 on the Navajo Nation on March 11, 2020 due to COVID-19. Resolution No. CEM 20-
15 03-11. The Navajo Nation Department of Health subsequently issued numerous Public
16 Health Emergency Orders. Public Health Orders 2020-001 through 2020-014 are
17 incorporated by reference into this resolution.

18 C. As of August 18, 2020, the Navajo Nation Health Command Operations Center has
19 confirmed 9,486 COVID-19 cases and 484 COVID-related deaths on the Navajo
20 Nation.

21 D. The U.S. Congress on March 27, 2020, enacted the Coronavirus Aid, Relief, and
22 Economic Security Act, Pub. L. No. 116-136, 134 Stat. 281 (2020) (the "CARES Act"),
23 which, at Title V, §5001, entitled "Coronavirus Relief Funds," attached as **Exhibit 1-**
24 **A**, sets aside \$8 billion in emergency aid for Tribal governments for the COVID-19
25 pandemic.

26 E. The CARES Act provides the Coronavirus Relief Fund shall be used to cover only
27 those costs that:

- 28 a. are necessary expenditures incurred due to the public health emergency
29 with respect to COVID-19;
30

- 1 b. are not accounted for in the Tribal budget most recently approved as of
2 March 27, 2020; and
- 3 c. are incurred from March 1, 2020 through December 30, 2020.
- 4 F. The U.S. Treasury on April 22, 2020 issued "Coronavirus Relief Fund Guidance for
5 State, Territorial, Local, and Tribal Governments" ("Treasury Guidance") related to the
6 permissible uses of the Coronavirus Relief Fund. **Exhibit 1-B.**
- 7 G. On May 28, 2020, the U.S. Treasury issued "Coronavirus Relief Fund Frequently
8 Asked Questions" ("Treasury FAQ"), attached as **Exhibit 1-C.**
- 9 H. As of June 30, 2020, the Navajo Nation has received seven hundred fourteen million
10 one hundred eighty-nine thousand six hundred thirty-one dollars and forty-seven cents
11 (\$714,189,631.47) as the Nation's share of the U.S. Treasury's initial distributions of
12 the Coronavirus Relief Fund.
- 13 I. The Navajo Nation has determined that immediately providing financial assistance to
14 Navajo individuals and families who have are facing financial hardship due to the
15 COVID-19 pandemic and attendant public health orders is necessary to
16 comprehensively combat the devastating effects of COVID-19 and mitigate the future
17 spread of the virus at the family and community level.
- 18 J. The purpose of the Navajo Nation CARES Fund Hardship Assistance Expenditure Plan
19 enacted through Navajo Nation Council Resolution No. CJY-67-20, was to
20 immediately provide emergency financial assistance to Navajo tribal members for
21 purchasing Personal Protective Equipment, paying past due utility bills, rent,
22 mortgages, isolation expenses, livestock-related expenses, education-related expenses
23 and other financial burdens created by the COVID-19 pandemic and the public health
24 emergency orders.
- 25 K. Resolution No. CJY-67-20 allocated only one thousand dollars (\$1,000) to the
26 Hardship Assistance Expenditure Plan; Navajo Nation leadership has determined that
27 amount of funding is woefully inadequate to address the COVID-19 caused financial
28 devastation faced by Navajo families and individuals and believes it is necessary to
29 increase that funding by one hundred seventy-five million dollars (\$175,000,000) as
30

1 set forth in the revised and amended Hardship Assistance Expenditure Plan set forth in
2 **Exhibit 2.**

3

9 five million dollars (\$175,000,000) of Navajo Nation CARES Fund to the Hardship
10 Assistance Plan as set forth in **Exhibit 2.**
- 11 B. The Coronavirus Relief Funds are externally restricted funds and the Navajo Nation
12 Appropriations Act, 12 N.N.C. §§ 800 *et seq.*, as applicable to externally restricted
13 funds, shall apply to the Expenditure Plans set forth herein; detailed Expenditure Plan

 - d. expenditures must be for costs incurred during the period that begins on March 1, 2020, and ends on December 30, 2020. A cost is “incurred” when the responsible unit of government has expended funds to cover the cost.
- 5. Consistent with the eligible uses described in the U.S. Treasury Frequently Asked Questions (FAQ).
 - 6. Consistent with the eligible uses as may be described in any and all future guidance, rules, or regulations of the Department of the Treasury or the Department of the Interior related to the Coronavirus Relief Fund pursuant to Title V of the CARES Act.

4 governmental entities, and by the Financial Accounting Standards Board (FASB) for
5 public and private companies and non-profits.

**Coronavirus Relief Fund
Guidance for State, Territorial, Local, and Tribal Governments
April 22, 2020**

The purpose of this document is to provide guidance to recipients of the funding available under section 601(a) of the Social Security Act, as added by section 5001 of the Coronavirus Aid, Relief, and Economic Security Act ("CARES Act"). The CARES Act established the Coronavirus Relief Fund (the "Fund") and appropriated \$150 billion to the Fund. Under the CARES Act, the Fund is to be used to make payments for specified uses to States and certain local governments; the District of Columbia and U.S. Territories (consisting of the Commonwealth of Puerto Rico, the United States Virgin Islands, Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands); and Tribal governments.

The CARES Act provides that payments from the Fund may only be used to cover costs that—

1. are necessary expenditures incurred due to the public health emergency with respect to the Coronavirus Disease 2019 (COVID-19);
2. were not accounted for in the budget most recently approved as of March 27, 2020 (the date of enactment of the CARES Act) for the State or government; and
3. were incurred during the period that begins on March 1, 2020, and ends on December 30, 2020.¹

The guidance that follows sets forth the Department of the Treasury's interpretation of these limitations on the permissible use of Fund payments.

Necessary expenditures incurred due to the public health emergency

The requirement that expenditures be incurred "due to" the public health emergency means that expenditures must be used for actions taken to respond to the public health emergency. These may include expenditures incurred to allow the State, territorial, local, or Tribal government to respond directly to the emergency, such as by addressing medical or public health needs, as well as expenditures incurred to respond to second-order effects of the emergency, such as by providing economic support to those suffering from employment or business interruptions due to COVID-19-related business closures.

Funds may not be used to fill shortfalls in government revenue to cover expenditures that would not otherwise qualify under the statute. Although a broad range of uses is allowed, revenue replacement is not a permissible use of Fund payments.

The statute also specifies that expenditures using Fund payments must be "necessary." The Department of the Treasury understands this term broadly to mean that the expenditure is reasonably necessary for its intended use in the reasonable judgment of the government officials responsible for spending Fund payments.

Costs not accounted for in the budget most recently approved as of March 27, 2020

The CARES Act also requires that payments be used only to cover costs that were not accounted for in the budget most recently approved as of March 27, 2020. A cost meets this requirement if either (a) the cost cannot lawfully be funded using a line item, allotment, or allocation within that budget or (b) the cost

¹ See Section 601(d) of the Social Security Act, as added by section 5001 of the CARES Act.

is for a substantially different use from any expected use of funds in such a line item, allotment, or allocation.

The “most recently approved” budget refers to the enacted budget for the relevant fiscal period for the particular government, without taking into account subsequent supplemental appropriations enacted or other budgetary adjustments made by that government in response to the COVID-19 public health emergency. A cost is not considered to have been accounted for in a budget merely because it could be met using a budgetary stabilization fund, rainy day fund, or similar reserve account.

Costs incurred during the period that begins on March 1, 2020, and ends on December 30, 2020

A cost is “incurred” when the responsible unit of government has expended funds to cover the cost.

The prohibition on payment for abortions does not apply to an abortion if the pregnancy is the result of an act of rape or incest; or in the case where a woman suffers from a physical disorder, physical injury, or physical illness, including a life-endangering physical condition caused by or arising from the pregnancy itself, that would, as certified by a physician, place the woman in danger of death unless an abortion is performed. **Coronavirus Relief Fund
Frequently Asked Questions
Updated as of May 28, 2020**

The following answers to frequently asked questions supplement Treasury's Coronavirus Relief Fund ("Fund") Guidance for State, Territorial, Local, and Tribal Governments, dated April 22, 2020, ("Guidance").¹ Amounts paid from the Fund are subject to the restrictions outlined in the Guidance and set forth in section 601(d) of the Social Security Act, as added by section 5001 of the Coronavirus Aid, Relief, and Economic Security Act ("CARES Act").

Eligible Expenditures

Are governments required to submit proposed expenditures to Treasury for approval?

No. Governments are responsible for making determinations as to what expenditures are necessary due to the public health emergency with respect to COVID-19 and do not need to submit any proposed expenditures to Treasury.

The Guidance says that funding can be used to meet payroll expenses for public safety, public health, health care, human services, and similar employees whose services are substantially dedicated to mitigating or responding to the COVID-19 public health emergency. How does a government determine whether payroll expenses for a given employee satisfy the "substantially dedicated" condition?

The Fund is designed to provide ready funding to address unforeseen financial needs and risks created by the COVID-19 public health emergency. For this reason, and as a matter of administrative convenience in light of the emergency nature of this program, a State, territorial, local, or Tribal government may presume that payroll costs for public health and public safety employees are payments for services substantially dedicated to mitigating or responding to the COVID-19 public health emergency, unless the chief executive (or equivalent) of the relevant government determines that specific circumstances indicate otherwise.

The Guidance says that a cost was not accounted for in the most recently approved budget if the cost is for a substantially different use from any expected use of funds in such a line item, allotment, or allocation. What would qualify as a "substantially different use" for purposes of the Fund eligibility?

Costs incurred for a "substantially different use" include, but are not necessarily limited to, costs of personnel and services that were budgeted for in the most recently approved budget but which, due entirely to the COVID-19 public health emergency, have been diverted to substantially different functions. This would include, for example, the costs of redeploying corrections facility staff to enable compliance with COVID-19 public health precautions through work such as enhanced sanitation or enforcing social distancing measures; the costs of redeploying police to support management and enforcement of stay-at-home orders; or the costs of diverting educational support staff or faculty to develop online learning capabilities, such as through providing information technology support that is not part of the staff or faculty's ordinary responsibilities.

Note that a public function does not become a "substantially different use" merely because it is provided from a different location or through a different manner. For example, although developing online instruction capabilities may be a substantially different use of funds, online instruction itself is not a substantially different use of public funds than classroom instruction.

¹ The Guidance is available at <https://home.treasury.gov/system/files/136/Coronavirus-Relief-Fund-Guidance-for-State-Territorial-Local-and-Tribal-Governments.pdf>.

May a State receiving a payment transfer funds to a local government?

Yes, provided that the transfer qualifies as a necessary expenditure incurred due to the public health emergency and meets the other criteria of section 601(d) of the Social Security Act. Such funds would be subject to recoupment by the Treasury Department if they have not been used in a manner consistent with section 601(d) of the Social Security Act.

May a unit of local government receiving a Fund payment transfer funds to another unit of government?

Yes. For example, a county may transfer funds to a city, town, or school district within the county and a county or city may transfer funds to its State, provided that the transfer qualifies as a necessary expenditure incurred due to the public health emergency and meets the other criteria of section 601(d) of the Social Security Act outlined in the Guidance. For example, a transfer from a county to a constituent city would not be permissible if the funds were intended to be used simply to fill shortfalls in government revenue to cover expenditures that would not otherwise qualify as an eligible expenditure.

Is a Fund payment recipient required to transfer funds to a smaller, constituent unit of government within its borders?

No. For example, a county recipient is not required to transfer funds to smaller cities within the county's borders.

Are recipients required to use other federal funds or seek reimbursement under other federal programs before using Fund payments to satisfy eligible expenses?

No. Recipients may use Fund payments for any expenses eligible under section 601(d) of the Social Security Act outlined in the Guidance. Fund payments are not required to be used as the source of funding of last resort. However, as noted below, recipients may not use payments from the Fund to cover expenditures for which they will receive reimbursement.

Are there prohibitions on combining a transaction supported with Fund payments with other CARES Act funding or COVID-19 relief Federal funding?

Recipients will need to consider the applicable restrictions and limitations of such other sources of funding. In addition, expenses that have been or will be reimbursed under any federal program, such as the reimbursement by the federal government pursuant to the CARES Act of contributions by States to State unemployment funds, are not eligible uses of Fund payments.

Are States permitted to use Fund payments to support state unemployment insurance funds generally?

To the extent that the costs incurred by a state unemployment insurance fund are incurred due to the COVID-19 public health emergency, a State may use Fund payments to make payments to its respective state unemployment insurance fund, separate and apart from such State's obligation to the unemployment insurance fund as an employer. This will permit States to use Fund payments to prevent expenses related to the public health emergency from causing their state unemployment insurance funds to become insolvent.

Are recipients permitted to use Fund payments to pay for unemployment insurance costs incurred by the recipient as an employer?

Yes, Fund payments may be used for unemployment insurance costs incurred by the recipient as an employer (for example, as a reimbursing employer) related to the COVID-19 public health emergency if such costs will not be reimbursed by the federal government pursuant to the CARES Act or otherwise.

The Guidance states that the Fund may support a "broad range of uses" including payroll expenses for several classes of employees whose services are "substantially dedicated to mitigating or responding to the COVID-19 public health emergency." What are some examples of types of covered employees?

The Guidance provides examples of broad classes of employees whose payroll expenses would be eligible expenses under the Fund. These classes of employees include public safety, public health, health care, human services, and similar employees whose services are substantially dedicated to mitigating or responding to the COVID-19 public health emergency. Payroll and benefit costs associated with public employees who could have been furloughed or otherwise laid off but who were instead repurposed to perform previously unbudgeted functions substantially dedicated to mitigating or responding to the COVID-19 public health emergency are also covered. Other eligible expenditures include payroll and benefit costs of educational support staff or faculty responsible for developing online learning capabilities necessary to continue educational instruction in response to COVID-19-related school closures. Please see the Guidance for a discussion of what is meant by an expense that was not accounted for in the budget most recently approved as of March 27, 2020.

In some cases, first responders and critical health care workers that contract COVID-19 are eligible for workers' compensation coverage. Is the cost of this expanded workers compensation coverage eligible?

Increased workers compensation cost to the government due to the COVID-19 public health emergency incurred during the period beginning March 1, 2020, and ending December 30, 2020, is an eligible expense.

If a recipient would have decommissioned equipment or not renewed a lease on particular office space or equipment but decides to continue to use the equipment or to renew the lease in order to respond to the public health emergency, are the costs associated with continuing to operate the equipment or the ongoing lease payments eligible expenses?

Yes. To the extent the expenses were previously unbudgeted and are otherwise consistent with section 601(d) of the Social Security Act outlined in the Guidance, such expenses would be eligible.

May recipients provide stipends to employees for eligible expenses (for example, a stipend to employees to improve telework capabilities) rather than require employees to incur the eligible cost and submit for reimbursement?

Expenditures paid for with payments from the Fund must be limited to those that are necessary due to the public health emergency. As such, unless the government were to determine that providing assistance in the form of a stipend is an administrative necessity, the government should provide such assistance on a reimbursement basis to ensure as much as possible that funds are used to cover only eligible expenses.

May Fund payments be used for COVID-19 public health emergency recovery planning?

Yes. Expenses associated with conducting a recovery planning project or operating a recovery coordination office would be eligible, if the expenses otherwise meet the criteria set forth in section 601(d) of the Social Security Act outlined in the Guidance.

Are expenses associated with contact tracing eligible?

Yes, expenses associated with contract tracing are eligible.

To what extent may a government use Fund payments to support the operations of private hospitals?

Governments may use Fund payments to support public or private hospitals to the extent that the costs are necessary expenditures incurred due to the COVID-19 public health emergency, but the form such assistance would take may differ. In particular, financial assistance to private hospitals could take the form of a grant or a short-term loan.

May payments from the Fund be used to assist individuals with enrolling in a government benefit program for those who have been laid off due to COVID-19 and thereby lost health insurance?

Yes. To the extent that the relevant government official determines that these expenses are necessary and they meet the other requirements set forth in section 601(d) of the Social Security Act outlined in the Guidance, these expenses are eligible.

May recipients use Fund payments to facilitate livestock depopulation incurred by producers due to supply chain disruptions?

Yes, to the extent these efforts are deemed necessary for public health reasons or as a form of economic support as a result of the COVID-19 health emergency.

Would providing a consumer grant program to prevent eviction and assist in preventing homelessness be considered an eligible expense?

Yes, assuming that the recipient considers the grants to be a necessary expense incurred due to the COVID-19 public health emergency and the grants meet the other requirements for the use of Fund payments under section 601(d) of the Social Security Act outlined in the Guidance. As a general matter, providing assistance to recipients to enable them to meet property tax requirements would not be an eligible use of funds, but exceptions may be made in the case of assistance designed to prevent foreclosures.

May recipients create a "payroll support program" for public employees?

Use of payments from the Fund to cover payroll or benefits expenses of public employees are limited to those employees whose work duties are substantially dedicated to mitigating or responding to the COVID-19 public health emergency.

May recipients use Fund payments to cover employment and training programs for employees that have been furloughed due to the public health emergency?

Yes, this would be an eligible expense if the government determined that the costs of such employment and training programs would be necessary due to the public health emergency.

May recipients use Fund payments to provide emergency financial assistance to individuals and families directly impacted by a loss of income due to the COVID-19 public health emergency?

Yes, if a government determines such assistance to be a necessary expenditure. Such assistance could include, for example, a program to assist individuals with payment of overdue rent or mortgage payments to avoid eviction or foreclosure or unforeseen financial costs for funerals and other emergency individual needs. Such assistance should be structured in a manner to ensure as much as possible, within the realm of what is administratively feasible, that such assistance is necessary.

The Guidance provides that eligible expenditures may include expenditures related to the provision of grants to small businesses to reimburse the costs of business interruption caused by required closures. What is meant by a "small business," and is the Guidance intended to refer only to expenditures to cover administrative expenses of such a grant program?

Governments have discretion to determine what payments are necessary. A program that is aimed at assisting small businesses with the costs of business interruption caused by required closures should be tailored to assist those businesses in need of such assistance. The amount of a grant to a small business to reimburse the costs of business interruption caused by required closures would also be an eligible expenditure under section 601(d) of the Social Security Act, as outlined in the Guidance.

The Guidance provides that expenses associated with the provision of economic support in connection with the public health emergency, such as expenditures related to the provision of grants to small businesses to reimburse the costs of business interruption caused by required closures, would constitute eligible expenditures of Fund payments. Would such expenditures be eligible in the absence of a stay-at-home order?

Fund payments may be used for economic support in the absence of a stay-at-home order if such expenditures are determined by the government to be necessary. This may include, for example, a grant program to benefit small businesses that close voluntarily to promote social distancing measures or that are affected by decreased customer demand as a result of the COVID-19 public health emergency.

May Fund payments be used to assist impacted property owners with the payment of their property taxes?

Fund payments may not be used for government revenue replacement, including the provision of assistance to meet tax obligations.

May Fund payments be used to replace foregone utility fees? If not, can Fund payments be used as a direct subsidy payment to all utility account holders?

Fund payments may not be used for government revenue replacement, including the replacement of unpaid utility fees. Fund payments may be used for subsidy payments to electricity account holders to the extent that the subsidy payments are deemed by the recipient to be necessary expenditures incurred due to the COVID-19 public health emergency and meet the other criteria of section 601(d) of the Social Security Act outlined in the Guidance. For example, if determined to be a necessary expenditure, a government could provide grants to individuals facing economic hardship to allow them to pay their utility fees and thereby continue to receive essential services.

Could Fund payments be used for capital improvement projects that broadly provide potential economic development in a community?

In general, no. If capital improvement projects are not necessary expenditures incurred due to the COVID-19 public health emergency, then Fund payments may not be used for such projects.

However, Fund payments may be used for the expenses of, for example, establishing temporary public medical facilities and other measures to increase COVID-19 treatment capacity or improve mitigation measures, including related construction costs.

The Guidance includes workforce bonuses as an example of ineligible expenses but provides that hazard pay would be eligible if otherwise determined to be a necessary expense. Is there a specific definition of "hazard pay"?

Hazard pay means additional pay for performing hazardous duty or work involving physical hardship, in each case that is related to COVID-19.

The Guidance provides that ineligible expenditures include "[p]ayroll or benefits expenses for employees whose work duties are not substantially dedicated to mitigating or responding to the COVID-19 public health emergency." Is this intended to relate only to public employees?

Yes. This particular nonexclusive example of an ineligible expenditure relates to public employees. A recipient would not be permitted to pay for payroll or benefit expenses of private employees and any financial assistance (such as grants or short-term loans) to private employers are not subject to the restriction that the private employers' employees must be substantially dedicated to mitigating or responding to the COVID-19 public health emergency.

May counties pre-pay with CARES Act funds for expenses such as a one or two-year facility lease, such as to house staff hired in response to COVID-19?

A government should not make prepayments on contracts using payments from the Fund to the extent that doing so would not be consistent with its ordinary course policies and procedures.

Must a stay-at-home order or other public health mandate be in effect in order for a government to provide assistance to small businesses using payments from the Fund?

No. The Guidance provides, as an example of an eligible use of payments from the Fund, expenditures related to the provision of grants to small businesses to reimburse the costs of business interruption caused by required closures. Such assistance may be provided using amounts received from the Fund in the absence of a requirement to close businesses if the relevant government determines that such expenditures are necessary in response to the public health emergency.

Should States receiving a payment transfer funds to local governments that did not receive payments directly from Treasury?

Yes, provided that the transferred funds are used by the local government for eligible expenditures under the statute. To facilitate prompt distribution of Title V funds, the CARES Act authorized Treasury to make direct payments to local governments with populations in excess of 500,000, in amounts equal to 45% of the local government's per capita share of the statewide allocation. This statutory structure was based on a recognition that it is more administratively feasible to rely on States, rather than the federal government, to manage the transfer of funds to smaller local governments. Consistent with the needs of all local governments for funding to address the public health emergency, States should transfer funds to local governments with populations of 500,000 or less, using as a benchmark the per capita allocation formula that governs payments to larger local governments. This approach will ensure equitable treatment among local governments of all sizes.

For example, a State received the minimum \$1.25 billion allocation and had one county with a population over 500,000 that received \$250 million directly. The State should distribute 45 percent of the \$1 billion it received, or \$450 million, to local governments within the State with a population of 500,000 or less.

May a State impose restrictions on transfers of funds to local governments?

Yes, to the extent that the restrictions facilitate the State's compliance with the requirements set forth in section 601(d) of the Social Security Act outlined in the Guidance and other applicable requirements such as the Single Audit Act, discussed below. Other restrictions are not permissible.

If a recipient must issue tax anticipation notes (TANs) to make up for tax due date deferrals or revenue shortfalls, are the expenses associated with the issuance eligible uses of Fund payments?

If a government determines that the issuance of TANs is necessary due to the COVID-19 public health emergency, the government may expend payments from the Fund on the accrued interest expense on TANs and unbudgeted administrative and transactional costs, such as necessary payments to advisors and underwriters, associated with the issuance of the TANs.

May recipients use Fund payments to expand rural broadband capacity to assist with distance learning and telework?

Such expenditures would only be permissible if they are necessary for the public health emergency. The cost of projects that would not be expected to increase capacity to a significant extent until the need for distance learning and telework have passed due to this public health emergency would not be necessary due to the public health emergency and thus would not be eligible uses of Fund payments.

Are costs associated with increased solid waste capacity an eligible use of payments from the Fund?

Yes, costs to address increase in solid waste as a result of the public health emergency, such as relates to the disposal of used personal protective equipment, would be an eligible expenditure.

May payments from the Fund be used to cover across-the-board hazard pay for employees working during a state of emergency?

No. The Guidance says that funding may be used to meet payroll expenses for public safety, public health, health care, human services, and similar employees whose services are substantially dedicated to mitigating or responding to the COVID-19 public health emergency. Hazard pay is a form of payroll expense and is subject to this limitation, so Fund payments may only be used to cover hazard pay for such individuals.
