DINE SCHOOL ACCOUNTABILITY PLAN

Greeting from the Department of Dine Education, Navajo Nation. As you are aware, the Dine School Accountability Plan (DSAP) was approved and signed by the U.S. Department of Education and U.S. Department of Interior on September 27, 2016. As result of this historic signing, the Navajo Nation has been afforded the opportunity develop the Dine School Accountability Plan as defined by Every Student Succeeds Act (ESSA) for Navajo education. The Navajo Nation was extended an additional year to implement Phase I of DSAP. The attached budget is funds the requirements of fulfilling this expectation from the federal government. The official letter of extension is attached for your reference and information.

The DSAP is being developed to be implemented in Phases. Phase 1 is meeting all federal requirement as defined by Title1 Part A of the ESSA. As such, we have hosted 3 teacher institutes for our Navajo teachers to develop an accountability plan for our Navajo students and schools. The first institute was in Flagstaff, Arizona. The second one, as in Albuquerque, New Mexico, and the third was in Tse Bonito, New Mexico. Each institute had a specific target and agenda to begin development of our accountability system. Our Navajo teachers have done excellent work. The Navajo Nation teachers and DODE have commenced the work for DSAP Phase I year implementation. Much more needs to be completed in the next year.

The work for the upcoming year will be calling on teachers to formulate 5 solution teams. The purpose of these teams will be to assist schools that are being challenged academically in language arts and math. Solutions teams will visit these schools to initiate intervention plans to improve the quality of instruction and to identify sources of student learning difficulties. Expertise from our schools will help shape the Dine School Accountability Plan.

The Dine School Accountability Plan (DSAP): *The Dine School Accountability Plan (DSAP) provides an academic framework for schools to implement the Navajo Sovereignty in Education Act of 2005 passed by the Navajo Nation Council. The DSAP is a long range tribal plan to improve the quality of life for NN Students within the parameters of the Every Student Succeeds Act (ESSA).*

- 1. DSAP represents the Navajo Nation's exercise of sovereignty in Education.**
 - i. A fundamental and significant component of DSAP is the implementation of the Dine Content Standards. Intervention to sustain the preserve Dine language and culture is now at the school level.*
- 2. DSAP is the framework to implement Title 10 of the NN code.**
 - i. NNC passed the Sovereignty of Education Act in 2005. DSAP is the implementation of the Sovereignty in Education Act of 2005 at the school and classroom level. DSAP is designed to create a Dine Education system to improve the life of NN students meeting all requirements of ESSA.*
- 3. DSAP addresses student learning and student achievement.**
 - i. Closing the achievement gap on the NN is the goal of DSAP. At present there is a significant achievement gap between NN students and others in all academic core subjects.*
- 4. DSAP addresses improving the academic instruction in the classroom.**
 - i. Evidence based instruction by infusing Dine culture content in academic core subjects for teachers is the foundation of DSAP to close the achievement gap.*
- 5. DSAP is designed to emphasize character development in education.**
 - i. In DSAP character development of NN students has been identified as the most significant factor in NN student academic achievement. Character development is standard built in DSAP.*
- 6. The DSAP is designed to close the academic achievement gap on the NN.**
 - i. DSAP is grounded in scientific rigor and is data driven. Research on the NN with 800 NN students highlighted that students have a strong and intense desire to learn their culture and language. In our research NN students with a foundation in Dine culture and language have demonstrate greater gains on state assessment than other student groups.*
- 7. DSAP holds tribally controlled schools on the NN to academic standards embedded in the common core academic standards.**
 - i. Presently, the academic accountability with tribally controlled schools is limited. When a school elects to surrender from the confines of BIE and*

migrate to the NN DODE they become a tribally controlled schools. As such, the DSAP provides an accountability plan to regulate and monitor their academic progress.

8. DSAP preserves the Dine culture, language, history, government, and character building of students from a Dine perspective.

- i. Dine Content standards is declared as an additional academic indicator in the DSAP. The voice of the students has evolved through research that Dine content standards explains 45% of the academic achievement variance in our data analysis.*

9. DSAP provides opportunities for teachers to build cultural and academic learning communities in the school.

- i. The power of placed based learning has been documented as an affective teaching strategy to promote student learning. It was evidenced in the NN Rural Systemic Initiative cultural infusion professional development of over 300 teachers.*

10. DSAP directs schools to prepare students to be college and career ready.

- i. The NN higher education institutions, Dine College and Navajo Technical University, have consistently made it known that a significant number of NN student attending their schools are not academically prepared when they enter the first year of the college programs. There are too academic remedial classes and resources directed to this group of students. DSAP is designed to better prepare students in math, reading, writing, and science to become career and college ready students.*

11. DSAP allows schools to build on culture content and cultural infusion in core academic areas.

- i. DSAP allows schools to create an academic culture grounded in affective teaching and learning. Dine values and standards are the fundamental pillars of this culture.*

12. DSAP provides a foundation for students to be academically and culturally prepared to meet the challenges of world.

- i. DSAP provides opportunities for teachers, schools, parents, tribal leaders and most off all students to productive, resourceful, respectfully, cultural grounded, and professional members of society. It is the building block for success in school, community, and one's profession.*

JONATHAN NEZ VICE PRESIDENT

September 29, 2017

Honorable Jonathan Hale, Chair, NNC HEHSC
Honorable Seth Damon, Chair, NNC, BFC
Honorable Lorenzo Bates, Chair, NNC, NABI

Honorable Chair Persons,

I am writing in support of the Navajo Nation Department of Diné Education's (NNDODE) submission of a supplemental budget targeting the Undesignated Unreserved Fund Balance (UUFB) in the amount of \$700,000 for fiscal year 2018 (FY 18). The purpose of NNDODE's request is to continue to implement the Diné School Accountability Plan (DSAP) for school year 2017-2018. As you are aware, the DSAP was approved and signed by the U.S. Department of Education (USDOE) and U.S. Department of Interior (USDOI) on September 27, 2016. As a result of this historic signing, the Navajo Nation has been afforded the opportunity to develop academic accountability as defined by the Every Student Succeeds Act (ESSA) for Navajo students. Attached is the initial approval letter from USDOE and USDOI. Also included is the approved extension letter for SY 2017-18 for you reference and information.

The DSAP is being developed to be implemented in several Phases. Phase 1 is meeting all federal requirements as defined by Title 1, Part A of the ESSA. As such, NNDODE has hosted three teacher institutes for our Navajo teachers to develop an accountability plan for our Navajo students and schools. Each institute had a specific target and agenda to begin development of our accountability system. Our Navajo teachers have done excellent work to provide the needed guidance as first responders to the education of our Navajo students. Their work needs to continue into this school year. The NNDODE proposed the DSAP budget which contains the need for funds to execute and continue work to fully implement DSAP Phase 1. I am confident our teachers will provide the needed interventions to improve the quality of education to our Navajo students.

This year, we will be calling on teachers to formulate five solution teams. The purpose of these teams will be to assist schools that are being challenged academically in language arts and math. Solution teams will visit these schools to initiate intervention plans to improve the quality of instruction and to identify sources of student learning difficulties. We are seeking your nomination of two teachers, or a principal, to represent each school, and to serve one of the five teams. We had announced this strategy at the last two institutes. Expertise for your schools will help shape the Diné School Accountability Plan.

We appreciate your work and tremendous effort directed to improve the education of our Navajo students. Please call me at (928) 871-7001 for any questions you may have regarding this matter.

Respectfully,

Mr. Tommy Lewis
Superintendent, Navajo Nation Diné
Department of Education
P.O. Box 670
Window Rock, Arizona 86515

Dear Mr. Lewis:

We are writing in response to the Navajo Nation's (Tribe) request that the Secretary of the Department of the Interior (DOI) and the Secretary of the Department of Education (ED) approve the Navajo's accountability workbook under section 1116(g)(1)(B) of the Elementary and Secondary Education Act of 1965 (ESEA), as amended by the No Child Left Behind Act of 2001 (NCLB), and 25 C.F.R. §§ 30.104(b)–30.108. The accountability workbook governs the accountability system required by Title I, Part A of the ESEA. We are pleased to grant the Navajo approval to implement the first phase of its request for school years (SY) 2015–2016 and 2016–2017.

Under DOI's regulations at 25 C.F.R. § 30.104(a), each school funded by DOI's Bureau of Indian Education (BIE) must use the standards, assessments, and definition of adequate yearly progress (AYP) of the state in which the school is located, unless the tribal governing body or school board waives the BIE's definition and proposes an alternative approved by the Secretaries of DOI and ED under section 1116(g)(1)(B) of the ESEA, as amended by NCLB, and 25 C.F.R. §§ 30.104(b)–30.108. Section 1116(g)(1)(B) of the ESEA, as amended by NCLB, requires the Secretaries to approve such a request unless they determine that the request does not meet the requirements of section 1111(b) of the ESEA, as amended by NCLB, taking into account the unique circumstances and needs of such school or schools and the students served.

We appreciate the Tribe's efforts to develop this request, which is based on thoughtful consideration by the Tribe to develop a system that will better serve the needs of Navajo children and reflects years of work with DOI and ED. As a result of this request, assessment results will be comparable across Navajo schools in multiple states and, therefore, your educators can work together to support and inform instruction. Administrators can also develop strategies to improve schools based on common data. During the drafting of the Tribe's request, Congress reauthorized the ESEA by passing the Every Student Succeeds Act (ESSA), which was signed into law on December 10, 2015, and which takes effect with respect to Title I, Part A beginning in SY 2017–2018. Consistent with the transition provisions of the ESSA, this approval is being granted for SY 2015–2016 and SY 2016–2017 under the ESEA, as amended by NCLB. As we transition to a new law, we look forward to working with you as you consider how to develop a system of accountability for SY 2017–2018 and beyond, which is consistent with the new requirements, including regulations that may be issued by DOI and ED.

To support an orderly transition to the new requirements under the ESEA, as amended by the ESSA, states are not required to submit annual measurable objectives or calculate AYP for SY 2014–2015 through SY 2016–2017. Consequently, those are not part of the approved Navajo accountability workbook, a copy of which is enclosed with this letter. The Tribe's request includes several key elements necessary for the Navajo's Diné Department of Education (DoDE) to unify its system of

accountability for its schools, which are located in New Mexico, Utah, and Arizona. The Tribe has adopted and is implementing a common set of college- and career-ready standards in reading/language arts and mathematics for all of its schools, rather than implementing the standards and assessments of New Mexico, Utah, and Arizona, as it did previously pursuant to BIE regulations.

For SY 2015–2016, the DoDE administered the same aligned assessment system in all its schools, the Partnership for Assessment of Readiness for College and Careers (PARCC), in reading/language arts and mathematics, as formally approved by the DOI in a letter dated March 8, 2016. For SY 2015–2016, the DoDE administered alternate assessments for students with the most significant cognitive disabilities based on the academic achievement standards in the States in which the schools were located. The DoDE will use attendance as its “other academic indicator” for elementary and middle grades and a 4-year adjusted cohort graduation rate for high schools. For SY 2016–2017, the DoDE will implement the accountability provisions set forth in the accountability workbook.

In order for the Navajo to implement its system of accountability in SY 2015–2016, the Navajo requested a waiver of DOI’s regulation in 25 C.F.R. § 30.113(f)(2), which requires an approved alternative definition of the AYP to become effective at the start of the school year following its approval. Given that DOI previously approved the Navajo to adopt and implement college- and career-ready content standards and to administer an assessment system aligned to those standards, the Secretary of the Interior hereby grants the Tribe a waiver of 25 C.F.R. § 30.113(f)(2), pursuant to 25 C.F.R. § 1.2, on the basis that permitting the Navajo Nation to implement its system of accountability during SY 2015–2016 is in the best interest of the students and the Tribe.

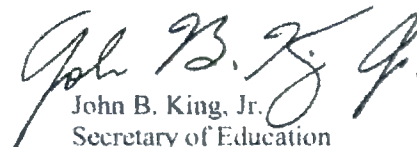

We congratulate the Navajo Nation on approval of the first phase of its accountability workbook and thank you for the work you and the staff at DoDE have done to secure that approval. We look forward to continuing to support the DoDE as it implements its accountability system and works to improve academic achievement and the quality of instruction for all of its students.

The Honorable Tommy Lewis
Superintendent
Navajo Nation Diné Department of Education
PO Box 670
Window Rock, AZ 86515

Dear Superintendent Lewis:

We are writing in response to the Navajo Nation's (Navajo) existing waiver of the Bureau of Indian Education's (BIE) standards, assessments and accountability system. We are granting Navajo a one-year extension of its waiver through school year (SY) 2017-2018.

On March 8, 2016, the U.S. Department of Interior's (DOI) Acting Assistant Secretary of Indian Affairs granted a waiver of DOI's regulations under 25 C.F.R. §§ 30.104(a) to permit the Navajo to implement common standards and common aligned assessments in its schools for reading/language arts and mathematics for SY 2015-2016. The Navajo's proposed comprehensive accountability system, detailed in the Diné Accountability Workbook, was approved on September 20, 2016 for SYs 2015-2016 and 2016-2017 by both the Department and DOI agencies, using the Secretary of DOI's authority in 25 C.F.R. § 1.2, and both the Secretary of DOI and the Secretary of the U.S. Department of Education's (ED) authority in section 1116(g)(1)(B) of the ESEA, as amended by the No Child Left Behind Act.

With the reauthorization of the ESEA, as amended by the Every Student Succeeds Act (ESSA), section 8204(c) of the ESEA requires BIE to use a negotiated rulemaking process to develop regulations to define the standards, assessment and an accountability system consistent with section 1111 of the ESSA for the schools funded by the BIE. To support an orderly transition to the new requirements, ED and BIE have agreed that BIE will complete the negotiated rulemaking in time for new BIE regulations to be effective for SY 2018-2019. Pending completion of the negotiated rulemaking process, ESEA section 1111(k) determines the standards and assessments that each BIE funded school must use based on its accrediting authority.

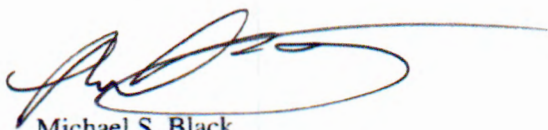

With this one-year extension, the Navajo will be able to continue to implement the standards and assessments previously approved and the accountability provisions set forth in its accountability workbook through SY 2017-2018. Beyond this timeframe, in order to continue implementing its own standards, assessments, and accountability, the Navajo must submit a new request to the Secretaries for SY 2018-2019 that is consistent with the amended ESEA.

Our decision to grant this extension is based on the determination that the Navajo's ability to continue implementing its waiver will promote locally tailored strategies to improve educational

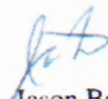

outcomes for all students, close achievement gaps, and to improve instruction. This extension is being granted pursuant to the Secretary of DOI's academic indicator and assessment approval authority in ESEA section 1111(k)(2) and the Secretary of ED's orderly transition authority in ESEA as amended by the ESSA.

We appreciate our continued relationship with the Navajo and remain committed to working with you. Thank you for your commitment and continued focus on improving academic achievement for all of your students. If you need any additional assistance please do not hesitate to contact Dr. Jeffrey Hamley at DOI or Mr. Robert Salley at ED at: jeffrey.hamley@bic.edu or OSS.BIE@ed.gov.

Dine School Accountability Plan in the amount of \$700,000.

1. The balance in the available UUFB as of October 13, 2017 is \$31,258,217, according to the Office of the Controller. Earlier this week the President's signed two (2) supplemental appropriations for \$1,457,300 for UNM Student Housing and \$2,452,257 for Grazing Committees, Land Boards and Farm Boards. The adjusted UUFB's \$27,348,660. There are a number of supplemental budget requests, totaling more than \$60 million. What are the priorities?
2. The salaries for the personnel listed are not correct. The program need to use the new salary schedule, so the whole budget would need to be corrected.
3. Seven (7) personnel positions are budgeted as permanent employees which is a recurring cost, but the UUFB is non-recurring funds. The Appropriation Act at Section 820 (F) and (L) speak to using non-recurring funds only for non-recurring expenses. Also the positions are budgeted for the full year when 3 months have lapsed, so the position would have to be prorated for the remaining months.
4. There is a similar Legislation going through the process for the same purpose, Legislation #0406-17 stated as an emergency supplemental appropriation.
