INTRODUCED BY

(Prime Sponsor)

TRACKING NO. 0373-17

AN ACTION

RELATING TO RESOURCES AND DEVELOPMENT, BUDGET AND FINANCE,
NAA'BIK'ÍYÁTI', AND NAVAJO NATION COUNCIL; APPROVING SUPPLEMENTAL
FUNDING FROM THE UNRESERVED, UNDESIGNATED FUND BALANCE IN THE
AMOUNT OF TWO HUNDRED SIXTY SIX THOUSAND AND TWENTY DOLLARS
(\$266,020.00) FOR THE MANY FARMS PHASE I AND PHASE II AND SCATTERED
POWERLINE EXTENSION PROJECT WITHIN THE MANY FARMS CHAPTER;
WAIVING 12 N.N.C. § 820(I) AND 860(C) RELATING TO THE CAPITAL
IMPROVEMENT PROCESS

BE IT ENACTED:

Section One. Authority

- A. The Navajo Nation established the Resources and Development Committee as a Navajo Nation Council standing committee and as such gave the Committee oversight over Navajo Nation Chapters. 2 N.N.C. §§ 164 (A)(9), 500 (A), 501 (C)(1).
- B. The Navajo Nation established the Budget and Finance Committee (BFC) as a Navajo Nation Council standing committee and as such empowered BFC

1 to review and recommend to the Navajo Nation Council the management of
2 all funds. 2 N.N.C. §§ 164 (A)(9), 300 (A), 301 (B)(2).

3 C. The Navajo Nation Council established the Naabik'íyáti' Committee as a
4 Navajo Nation standing committee and as such proposed legislation that
5 requires final action by the Navajo Nation Council shall be assigned to the
6 Naabik'íyáti' Committee. 2 N.N.C. §§ 164 (A)(9), 700 (A).

7 D. The Title 12 Appropriations Act Supplemental Appropriation requirements
8 include:

- 9 1. When the Controller identifies additional sources of revenues above
10 and beyond the initial or current revenue projections, supplemental
11 appropriations may be allocated by the Navajo Nation Council. 12
12 N.N.C. § 820(L).
- 13 2. Supplemental appropriations made from non-recurring revenues shall
14 only be made for non-recurring operations or purposes, as set forth at
15 § 820(F). The Controller of the Navajo Nation shall be responsible for
16 designating recurring and non-recurring revenues. 12 N.N.C. § 820(L).
- 17 3. All requests for annual operating funds and supplemental funds shall be
18 submitted to the Office of Management and Budget ("OMB") for budget
19 impact analysis. 12 N.N.C. § 820(M).

20 E. The Title 12 Capital Improvement Process includes:

- 21 1. Pursuant to 12 N.N.C. § 810(F), "Capital Improvement" means a major
22 project undertaken by the Navajo Nation that is generally not recurring on
23 an annual basis and which fits within one or more of the following
24 categories:
 - 25 i. All projects requiring debt obligation or borrowing;
 - 26 ii. Any acquisition or lease of land;
 - 27 iii. Purchase of major equipment or vehicles, with a life expectancy of
28 five years or more, valued in excess of an amount to be established
29 by the Controller;

- iv. Major building improvements that are not routine maintenance expenses and that substantially enhance the value or extend the useful life of a structure;
- v. Construction of new buildings or facilities including engineering, design, and other pre-construction costs with an estimated cost in excess of an amount to be determined by the Controller; and/or
- vi. Major equipment or furnishing required to furnish new buildings or other projects, the cost of which is above a certain amount to be established by the Controller.

2. Pursuant to 12 N.N.C. § 820 (I), the “[d]evelopment of the Capital Budget shall be coordinated with development of the Operating Budget. All budget requests for capital improvements shall be in compliance with an adopted Capital Improvement Plan and shall not be approved unless in compliance with the Plan.”

3. Pursuant to 12 N.N.C. § 860 (C)(2) “[t]he appropriation portion of the Capital Improvement Plan is subject to approval of the Navajo Nation Council upon recommendation of the Budget and Finance Committee. Any modification or amendment affecting the approved Capital Improvement Plan is subject to review and concurrence by the Resources and Development Committee prior to consideration by the Navajo Nation Council.”

Section Two. Findings

- A. This is a funding request for the construction of the Many Farms Phase I and Phase II and Scattered Power Line Project within the Many Farms Chapter. See Exhibit D.
- B. The supplemental funding request forms are attached as Exhibit A.
- C. The Office of Management and Budget has provided a memorandum satisfying the requirements of 12 N.N.C. § 820(M) and is attached as Exhibit B.

- 1 D. The Office of the Controller has provided a memorandum dated September 8,
2 2017 indicating the balance in the Unreserved, Undesignated Fund Balance as
3 of September 8, 2017 is \$31,258,307. This memorandum is provided to meet
4 the requirements of 12 N.N.C, 820 (L), however the Controller of the Navajo
5 Nation has not designated the funds as recurring or non-recurring. This
6 memorandum is attached as Exhibit C.
- 7 E. The request for funds for construction of the Many Farms Phase I and Phase
8 II and Scattered Power Line Project within Many Farms Chapter is not
9 included in the Title 12 Capital Improvement Plan because the Plan was
10 rescinded by Navajo Nation Council. CAP-23-17
- 11 F. Any modification or amendment affecting the approved Capital Improvement
12 Plan is subject to review and concurrence by the Resources and Development
13 Committee prior to consideration by the Navajo Nation Council. 12 N.N.C.
14 § 860.
- 15 G. The Navajo Nation finds it in the best interest to waive 12 N.N.C. §§ 820(I)
16 and 860 (C) regarding the Capital Improvement for the Many Farms Phase I
17 and Phase II and Scattered Power Line Project.
- 18 H. The Navajo Nation finds it in the best interest of the Navajo people to approve
19 this supplemental appropriation request.

Subject: Proposal for Powerline (Phase II) Project

Thank you for submitting the referenced proposal for consideration under the Fiscal Year 2017 Community Development Block Grant (CDBG) funds. Your proposed activity did not receive sufficient points for funding consideration. The rating and ranking results show that the activity received an average of 77 points based on 100 point rating scale. Each proposal was rated by a Proposal Evaluation Team on the selection criteria set forth in the Notice of Funding Availability (NOFA Guide issued by HUD). Regrettably, this activity did not fully satisfy the NOFA requirements to receive the maximum points. The proposal lacked or had insufficient information on the following information:

- XX No resolution adopting O/M plan.
- XX Leveraging less than 4 percent.
- XX No demonstration of need.
- XX Other (No proof of Chapter funds)

The program is returning the proposal that was submitted to CDBG Office. It is recommended that you coordinate with appropriate entities to make effort to address the above noted deficiencies and to enhance the feasibility of the proposed activity. The CDBG staff is available to provide technical assistance, and an orientation on the eligible projects upon request.

If you have any questions, please contact our office at 928.871.6564.

Sincerely,

A handwritten signature in blue ink, appearing to read "James Adakai".

Mr. Stevens:

RE: Proposal requesting for Fiscal Year 2017 CDBG Funding for Phase II Scattered Powerline Extension Project.

Many Farms Chapter is pleased to submit a proposal to Community Development Block Grant. The proposal is arranged to meet program criteria contained in the guidelines. The Phase II scattered powerline extension project qualifies under CDBG funding requirements.

The completion of this powerline extension project would be a great accomplishment to benefit the identified homes in Many Farms community.

We look forward to working with you and the staff on this proposal to obtain CDBG funding. We thank you for your support and assistance to Many Farms Chapter and the community.

Sincerely,

Danny Francis, Community Services Coordinator

SUMMARY

The Many Farms Chapter will collaborate with Community Development Block Grant and Navajo Tribal Utility Authority in making this project a reality. The Many Farms Chapter along with Community Development Block Grant and Navajo Tribal Utility Authority intend on constructing scattered home powerline extension project.

According to project plans, the Navajo Tribal Utility Authority will extend 2.95 miles powerline extension for six (6) homes under this project. The total project cost is \$187,345.00

Upon completion of the proposed powerline, the residents will enjoy a higher standard of living as well as improvement of health for the children, families and the elderly. The Many Farms Chapter Administration and Officials will oversee the project making periodic reports to the Navajo Tribal Utility Authority and Community Development Block Grant.

INTRODUCTION

The Many Farms Chapter and community is geographically situated in Apache County 13 miles north of Chinle, Arizona. The Many Farms Chapter is located at the junction of state highway 191 and Navajo Route 59.

According to the 2010 census records, the community's population is approximately 2,733 residents. There are also limited employment opportunities available with the community. Many families still receive Navajo Nation General Assistance, Food Stamps or Temporary Assistance for Needy families.

The Many Farms community has various governmental offices serving the local residents. They include: Navajo Nation Chapter House, Senior Citizen Center, Navajo Headstart, Day Care Center, Boys & Girls Club/Office of Dine Youth, and a Community Post Office. Employment is also offered by the Many Farms BIA High School, Many Farms Community School Inc., Many Farms Public Schools, 2-Convenient Stores and other tribal programs. The local chapter is operated by the Chapter Administration with three Officials serving as an oversight.

NEEDS

The Many Farms Chapter is respectfully requesting for project funds in the amount of \$187,345.00 from Community Development Block Grant to construct Phase II Powerline Extension Project for Many Farms scattered projects. Currently, the residents depend on oil lamps for basic lighting in the home. This situation is further compounded by dirt roads, which are often impassable during inclement weather to get to schools and local convenient stores.

Furthermore, a large percentage of residents residing in the project area not educated and thus are not practicing healthful habits such as proper cooking of food, cleanliness, refrigeration of food and medication. The Navajo Tribal Utility Authority is responsible for construction of the actual powerline extension to each home. Upon completion, six (6) families will enjoy electric facilities.

OBJECTIVES AND GOALS

The objective of this particular project is to improve health, sanitation and an overall enhancement of the quality of life for (6) families who are in dire need of services. Furthermore, through the successful and timely completion of this project, the chapter will exemplify the ability to work with various agencies/organizations in meeting community prioritized needs of the Many Farms Chapter. The completion of this project will also contribute to further capital development such as additional waterlines, powerline extensions and improved roads. To meet community needs and goals, the Many Farms Chapter will require approval of the funds that are being requested. The community supports the project and with proper direction completion will occur within two years.

SCOPE OF WORK

The Many Farms Chapter Administration and Officials will play a key role as the primary coordinator for the project. The Navajo Tribal Utility Authority personnel will plan, design and construct the actual powerline extension project. Upon completion, Navajo Tribal Utility Authority will maintain and operate the powerline. Final reports and inspections will be coordinated with Navajo Tribal Utility Authority.

Define the role of key personnel, programs, entities, etc., that may be involved in the project.

The Many Farms Chapter Administration and Officials has been providing quality services for its community members. The chapter is responsible for providing oversight and quality work for projects within the jurisdiction of the community.

The Community Services Coordinator (CSC) is responsible for field monitoring on status and progress of projects. The CSC has direct communication with Navajo Tribal Utility Authority to ensure that work progress is established with timeline.

Provide a project description, summary and/or design i.e., number of miles.

The plan is to have Community Development Block Grant fund the powerline extension project to serve (6) homes. The Navajo Tribal Utility Authority did the construction cost to determine number of miles of the project. The materials and supplies will be provided by Navajo Tribal Utility Authority.

Describe accessibility design features for handicap and disabled, if applicable.

The chapter may identify individual(s) that will require accessibility design features for handicap ramp and rail for this project.

Describe other alternative methods were considered (feasibility studies)

Providing powerline extension to each home is the only alternative method available at this time. The six (6) homes identified in the project will be served with electricity to each home.

Describe who will operate and maintain the project upon completion.

The Navajo Tribal Utility Authority will maintain and operate the powerline. Individual homeowner receiving electricity will be responsible for monthly utility payment.

Explain the status of archaeological and environmental reviews.

The Navajo Tribal Utility Authority will obtained the archaeological and environmental documents.

Explain the status of Right of Ways, easements, and/or land withdrawals for the project.

The Navajo Tribal Utility Authority will obtained the rights-of-ways documents for the construction.

Indicate the status of powerline extension project.

The six (6) homes receiving powerline extensions are house wired and will be inspected by Navajo Tribal Utility Authority.

Indicate who will do the construction of how it will be carried out.

The Navajo Tribal Utility Authority is vested with the responsibilities of providing all necessary labor, equipment and supplies for the construction of the powerline extension for each home. Navajo Tribal Utility Authority is also responsible for providing supervision to oversee and administer the implementation of the powerline extension construction.

The Many Farms Chapter and Navajo Tribal Utility Authority stipulates the responsibilities of each and their commitment to completing the powerline extension project.

Indicate who were involved in the planning of the project i.e., NTUA etc.

This project is a cooperative effort of the Many Farms Chapter, Community Development Block Grant, and Navajo Tribal Utility Authority. The Many Farms Chapter initiated the planning and NTUA did the construction cost and map for the powerline extension project. The Navajo Tribal Utility Authority provides the construction materials, supplies and construction supervision for proposed powerline extension project. The Many Farms Chapter identified six (6) individual home for this project.

The Many Farms Chapter and the community passed a resolution on November 7, 2016 to support Phase II Poweline Extensions Project. Therefore, the chapter is respectfully requesting Community Development Block Grant to approve funding in the amount of \$187,345.00 for this capital project

The Navajo Tribal Utility Authority will obtain the feasibility studies documents.

Provide a total project cost.

Provide a breakdown of sources and amount contributed by each source.

RE: Many Farms Chapter (Scattered Phase II) Power Line Project

Dear Mr. Francis:

Provided herewith are **PRELIMINARY** construction costs estimates to provide service to residents within the Many Farms Chapter area. These costs will supersede all previous costs. The following items are provided for your information:

1. The ownership of the power lines will belong to the Navajo Tribal Utility Authority. The Navajo Tribal Utility Authority will handle the operation and maintenance responsibilities.
2. The cost estimates that are submitted are **PRELIMINARY**. Final construction cost estimates will be based upon the results of archaeological and legal surveys and final engineering design.
3. Notice of funding for right-of-way acquisition must be received before NTUA can commence with the archaeological clearance, environmental assessment, and legal surveys; and final engineering and design. This amount is shown on the attached estimate and contributes to the total project cost.
4. The Navajo Tribal Utility Authority will budget \$1,500.00 per customer provided their house is wired and ready for hook up prior to construction.

NOTE: If all homes are not wired, the NTUA Contribution will be adjusted downward to reflect the actual number of homes wired at the time of construction. This will result in an increase in contribution required by the Many Farms Chapter.

Mr. Begay:

Please accept this document as a formal request to release CIO funds in the amount of \$21,460, account number N01097 to Community Development Block Grant.

Many Farms Chapter authorized Community Development Block Grant Office to assist updating the contract scope of work to utilize the CIO fund sub-account 8540 for Many Farms scattered powerline project.

Many Farms Chapter is updating its project proposal to CDBG for funding year 2017, therefore, this fund balance will enhance the leveraging cost of the proposed powerline extension project.

Your approval to our request will be appreciated. If you have any questions, please contact Many Farms Chapter at (928) 781- 3610.

Sincerely,

Danny Francis, Coordinator

AN ENTERPRISE OF THE NAVAJO NATION

December 12, 2016

Danny Francis, Community Services Coordinator
Many Farms Chapter
P O Box 185
Many Farms, Arizona 86538

Mr. Francis:

Chinle Navajo Tribal Utility Authority District Office supports the efforts by Many Farms Chapter to apply for CDBG grant to acquire the necessary funds to construct Many Farms Phase II Scattered Powerline Extension Project.

Many Farms scattered powerline extension project includes construction of 2.95 miles to serve six (6) homes in the Many Farms community. This project also includes the construction off the main electrical service line that is needed to power the homes.

The NTUA estimated the total cost of this proposal to be \$187,345.24. Many Farms Chapter also committed chapter funds to this project.

Upon completion of this proposal, six (6) homes under the Many Farms community will receive electricity onsite to each home. If the CDBG grant is provided, NTUA-Chinle District will commence the construction of Phase II powerline extension project.

If there are any questions or you need further information, please contact NTUA-Chinle District Office.

Thank you,

Lemanuel James

SUMMARY

The Many Farms Chapter is collaborating with Community Housing & Infrastructure Department (CHID) and Navajo Tribal Utility Authority (NTUA) in making this project a reality.

According to the project plans, the Navajo Tribal Utility Authority will extend scattered powerline extensions from the main overhead service line to each home. There are a total of (13) homes identified under this project (see attached Form B).

The total project cost is \$567,824. (See breakdown of funding source) The chapter is responsible to ensure that the house wiring to each home is completed prior to electric connection. The Navajo Tribal Utility Authority (NTUA) will perform the inspection procedures.

Upon completion of the proposed powerline, the residents will enjoy a higher standard of living as well as improvement of health for the children, families and the elderly. The Many Farms Chapter Administration and Officials will oversee the project making periodic reports to Navajo Tribal Utility Authority (NTUA) and Community Housing & Infrastructure Department (CHID).

INTRODUCTION

The Many Farms Chapter and the community is geographically situated in Apache County 13 miles north of Chinle, Arizona. The Many Farms Chapter is located at the junction of State Highway 191 and Navajo Route 59.

According to the 2010 census records, the community's population is approximately 2,733 residents. There are limited employment opportunities available in the community therefore, many families receive Navajo Nation general assistance, food stamps or temporary assistance for needy families.

The Many Farms community has various governmental offices serving the local residents. They include: the chapter house, senior citizen center, Navajo headstart, day care center, office of Dine youth center, and a community post office. Employment is also offered by Many Farms BIA High School, Many Farms Community School, Chinle Public Schools, Navajo Tribal Utility Authority, Community Health Representative Program and Navajo Nation Programs/Departments. The Many Farms Chapter is operated by the chapter administration support staff with three chapter officials serving as an oversight.

NEEDS

The Many Farms Chapter and the community is requesting for funding in the amount of \$500,000 from the Navajo Nation Community Development Block Grant (CDBG) to construct scattered powerline extensions project. Currently, the residents depend on oil lamps for basic needs. This situation is further compounded by dirt roads, which are often impassable during inclement weather.

Furthermore, a large percentage of residents residing in the project area are not educated and thus are not practicing healthful habits such as proper cooking of food, cleanliness, refrigeration of food and medication.

The Navajo Tribal Utility Authority (NTUA) will construct the actual powerline extensions to each home. Upon completion, thirteen (13) families will enjoy decent lighting in their home.

OBJECTIVES AND GOALS

The objective of this particular project is to improve health, sanitation and an overall enhancement of the quality of life for (13) families who are in dire need of services. Furthermore, through the successful and timely completion of this project, the chapter will exemplify the ability to work with various agencies/organizations in meeting community prioritized needs of the Many Farms Chapter. The completion of this project will also contribute to further capital development such as additional waterlines, powerline extensions and improved roads. To meet community needs and goals, the Many Farms Chapter will require approval of the funds that are being requested. The community supports the project and with proper direction completion will occur within two years.

SCOPE OF WORK

The Many Farms Chapter Administration and Officials will play a key role as the primary coordinator for the project. The Navajo Tribal Utility Authority (NTUA) electric system planning section will provide the preliminary construction cost estimates to provide services to residents in Many Farms Chapter area. The ownership of the power lines will belong to the Navajo Tribal Utility Authority. The Navajo Tribal Utility Authority will handle the operation and maintenance responsibilities. Final construction cost estimates will be based upon the results of archaeological and legal surveys and final engineering design. The notice of funding for right-of-way acquisition will be paid before NTUA commence with all the necessary clearances and design requirements.

Define the role of key personnel, programs, entities, etc., that may be involved in the project.

The Many Farms Chapter administration staff and officials will continue to advocate and provide quality services for its community members. The Community Services Coordinator and Chapter Officials is responsible for the field monitoring on status and progress of projects. The CSC and officials has direct communication with Navajo Tribal Utility Authority to ensure that work progress is established with timeline.

Provide a project description, summary and/or design i.e., number of miles.

The plan is to have Community Development Block Grant fund the powerline extensions project to serve the thirteen (13) eligible homes. Based on NTUA map and construction cost estimates, the number of miles will be determined to each home. All the construction materials and supplies will be provided by Navajo Tribal Utility Authority.

Describe accessibility design features for handicap and disabled, if applicable.

The chapter may identify individual(s) that will require accessibility design features for handicap ramp and rail under this project.

Describe other alternative methods were considered (feasibility studies)

Providing powerline extensions to each home is the only alternative method available at this time. The thirteen (13) homes identified in the project will be served with electricity.

Describe who will operate and maintain the project upon completion.

The Navajo Tribal Utility Authority will handle the operation and maintenance responsibilities. Individual homeowner will be responsible for monthly service payment to Navajo Tribal Utility Authority.

Explain the status of archaeological and environmental reviews.

The Navajo Tribal Utility Authority will handle and obtained the archaeological and environmental required documents prior to construction.

Explain the status of Right of Ways, easements, and/or land withdrawals for the project.

The Navajo Tribal Utility Authority will handle and obtained the rights-of-way acquisition required clearances for the construction.

Indicate the status of powerline extension project.

Based on the request of the individual homeowners, the Many Farms Chapter supported and recommended that these homes will be considered for powerline extensions since the homes are situated in a feasible location to receive services. The Many Farms Chapter requested the Navajo Tribal Utility Authority (NTUA) to conduct assessment to determine cost for powerline extensions to each home. Maps and construction cost estimates are included for reference. Upon completion of the project, the families will benefit and enjoy a suitable living environment.

Indicate who will do the construction of how it will be carried out.

The Navajo Tribal Utility Authority is vested with the responsibilities of providing all necessary labor, equipment and supplies for the construction of the powerline extensions for each home. The Navajo Tribal Utility Authority (NTUA) is also responsible for providing supervision to oversee and administer the implementation of the powerline extensions construction.

The Many Farms Chapter and Navajo Tribal Utility Authority stipulates the responsibilities of each and their commitment to completing the powerline extensions project.

Indicate who were involved in the planning of the project i.e., NTUA etc.

This powerline extensions project is a cooperative effort of the Many Farms Chapter, Community Housing & Infrastructure Department (CHID) and Navajo Tribal Utility Authority. The Many Farms Chapter initiated the planning process and the Navajo Tribal Utility Authority (NTUA) provided the map and cost estimate for the powerline extensions project. The Navajo Tribal Utility Authority will provide the construction materials, on-site supervision for the powerline extensions project to serve thirteen (13) eligible homes under this project.

Include any supporting resolutions, letters, etc.

Attached is the Many Farms Chapter resolution requesting for Community Development Block Grant funds in the amount of \$500,000 for the proposed activity. The chapter anticipates other associated cost may be incurred to complete the powerline extensions project.

Attach the feasibility studies.

The Navajo Tribal Utility Authority will handle and obtained the feasibility studies documents.

BUDGET

Provide a total project cost.

The total cost estimate for powerline extensions project is \$567,824 with the match fund by the chapter in the amount of \$46,364 and capital improvement general fund account #N01097 that has a balance in the amount of \$21,460 to be used for powerline extensions activity.

Provide a breakdown of sources and amount contributed by each source.

Below is a breakdown of funding source

Source	Amount
Chapter	\$ 46,364
CIO Fund	\$ 21,460
CDBG	\$500,000
Total	\$567,824

Include letter of commitments, resolutions, purchase order numbers, copy of checks, etc., identifying the source and amount.

RE: Many Farms Chapter (Scattered Phase II) Power Line Project

Dear Mr. Francis:

Provided herewith are **PRELIMINARY** construction costs estimates to provide service to residents within the Many Farms Chapter area. These costs will supersede all previous costs. The following items are provided for your information:

1. The ownership of the power lines will belong to the Navajo Tribal Utility Authority. The Navajo Tribal Utility Authority will handle the operation and maintenance responsibilities.
2. The cost estimates that are submitted are **PRELIMINARY**. Final construction cost estimates will be based upon the results of archaeological and legal surveys and final engineering design.
3. Notice of funding for right-of-way acquisition must be received before NTUA can commence with the archaeological clearance, environmental assessment, and legal surveys; and final engineering and design. This amount is shown on the attached estimate and contributes to the total project cost.
4. The Navajo Tribal Utility Authority will budget \$1,500.00 per customer provided their house is wired and ready for hook up prior to construction.

NOTE: If all homes are not wired, the NTUA Contribution will be adjusted downward to reflect the actual number of homes wired at the time of construction. This will result in an increase in contribution required by the Many Farms Chapter.
