#### 25 26 **Section Six. Directives**

27       The Division of Economic Development Project Development Department and Rhino  
28       Health, LLC, shall report the status of the Church Rock Industrial Park Project  
29       construction progress to the Naabik'íyáti' Committee on a quarterly basis.

Project Development Department, Division of Economic Development

# Industrial Development and Job Creation, Church Rock Industrial Park – Project Plan - Revised

Sihasin Fund

May 1, 2019

## **Industrial Development and Job Creation Church Rock Industrial Park**

### **A. Mission of the Project Development Department, Division of Economic Development:**

The Division of Economic Development is one of twelve (12) Divisions within the Executive Branch of the Navajo Nation government whose legislative purpose is to promote and create employment and business opportunities in the commercial, industrial, tourism and private sectors of the Navajo economy. The Project Development Department (the Department) within the Division of Economic Development is the agent for the Navajo Nation government for the recruit and retention of tenants or businesses for the Nation's industrial parks. The Department, as a developer for the Navajo Nation, is responsible for the operation, maintenance and management of projects within the industrial parks on the Navajo Nation which includes construction of facilities for lease.

The main purpose of this proposal is to seek financial assistance from the Sihasin Fund to construction, including infrastructure, of a manufacturing and warehouse facility (124,000 square feet) for Phase II and III for a glove manufacturing business in the Church Rock Industrial Park in Church Rock, Navajo Nation, New Mexico. See Exhibit "A" of the Company's Letter of Intent and proposed concept of the site location and floor plan for the Phase II and III. The acreage is on Fee-simple land owned by the Navajo Nation.

The amount requested is \$19,000,000 to the Project Development Department within the Division of Economic Development. See Exhibit "B".

Phase I is underway with the tenant, Rhino Health, INC. (Rhino will have a sublease with the Church Rock Development, LLC). Currently, Rhino Health has a modification of an Emergency Operating Agreement (Exhibit "C") with the Division to occupy the current production and warehouse facilities in Lot 15 at the Church Rock Industrial Park. This agreement is a temporary agreement for an additional year. Church Rock Development, LLC is currently negotiating a master business site lease with the Navajo Nation. *Note: Rhino Health LLC amended their corporation filing with Navajo Business Regulatory to Rhino Health, INC, a foreign corporation incorporated on the Navajo Nation. (See Exhibit "A")*

### **B. Project Development Department - Authority to Develop Projects on the Navajo Nation**

In 2006, the Government Services Committee of the Navajo Nation Council by resolution, GSCAP-12-07 amend the Division of Economic Development's Plan of Operation, on how the Division conducts "business", with "the purpose of creating an environment that is conducive to the promote and develop businesses in the commercial, tourism, industrial and other sectors of the Navajo Nation economy, to enhance the creation of jobs and business opportunities." Thus, the Department has the authority on behalf of the Navajo Nation to serve as a developer of commercial

and industrial projects on the Reservation. Please see Exhibit “D” which is an *excerpt* of the Division of Economic Development’s Plan of Operation also known as the business plan of the Division for the Project Development Department.

The Department has in the past received funding from the Business Industrial Development Fund (BIDF) for these types of transactions in the past however, the BIDF is currently “frozen” by the Division Director of Economic Development. Thus, the Department is requesting funding from the Sihasin Fund for this new manufacturing facility with infrastructure located on the Navajo Nation.

The Department has applied and received funding for funds for shopping center development, manufacturing facilities in the industrial parks and for infrastructure in the past from the Navajo Nation Council, the Interest Income of the Permanent Trust Fund and the Sihasin Fund as well as the Business Industrial Development Fund. The Department in return for the investment funding - for the creation of jobs for the Navajo people – has dedicated the lease rentals to back to the Navajo Nation’s General Fund as the pay back method for the fund’s assistance.

The Department has been approached by Church Rock Development, LLC (a Holding Company) to lease additional property for Phase II and III and will manufacture gloves in additional facilities (production and warehouse) to accommodate the growth of the products made in Native America. Rhino Health, Inc. is the manufacturing company within Church Rock Development, LLC. Church Rock Development, LLC has written a Letter of Intent to lease the currently facilities and additional acreage to the Project Development Department. The lease terms indicated thus far is that the Company would like a fifty (50) year lease term with an option to renew for another fifty (50) years. The rental and the number of acres are currently being negotiated. Once the lease has been reviewed and negotiated, this business site lease will go before the Resources and Development Committee of the Navajo Nation Council for approval.

### **Summary/Project Description/Purpose**

This project’s purpose is to develop or construct a manufacturing facility with a warehouse and parking with infrastructure to manufacture gloves on the Navajo Nation. The manufacturing facility will become a supplier of Nitrile gloves to be marketed to Government agencies such as Department of Defense, Department of Homeland Security (TSA), Medical facilities such as Indian Health Service and Veterans Administration, Food Industry such as food manufacturing and fast food restaurant chains and lastly the Retail Industry such as Home Depot or Walmart as examples. Phase II and III will include additional Five (5) manufacturing lines and the expected jobs is 250+. Phase I has begun and will hire 30+ people in the current production and warehouse in Lot 15 at the Church Rock Industrial Park. The size of the manufacturing facility and warehouse is 124,000 SF with a parking lot to accommodate at least 150 parking spaces. The Business Plan is on file with the Department for this manufacturing company.

**Production/Warehouse Description:** The Division has been approached by Church Rock Development, LLC a New Mexico company incorporated on the Navajo Nation as a Foreign

Corporation to manufacture disposable gloves. The manufacturing company, Rhino Health INC. will sublease from Church Rock Development, LLC. A copy of both companies Certificate of Good Standing are included in Exhibit A. The capital investment of will be from the Jungwoo Rubber and Plastics Company of Busan, Republic of Korea will invest provide a capital investment of \$4M to Phase I and \$25M to Phase II for this manufacturing facility. This facility will bring employment 250+ new jobs initially to the Navajo Nation where the unemployment rate is 57.6% (Source: 2016 IMPLAN Data in the Comprehensive Economic Development Strategy, CEDS April 2018 and the per capita income is only ~ \$ 12,161 (Source: CEDS, April 2018, Page 40). For Eastern (Navajo) portion of the Navajo Nation, the unemployment rate is well over 74%.

On the Navajo Nation, the manufacturing sector consists of only 3% of a total of 1,378 jobs on the reservation. Sixty-seven percent (67%) of the Navajo jobs on the reservation are in the Government, Service and Wholesale & Retail Trade economic sectors of the Navajo economy. Tribal, state, county and federal governments create government jobs. Service jobs are categorized as jobs at hospitals, schools, accommodation and food services. Because of this unbalance of jobs within the Navajo economy, the Project Development Department of the Nation's Division of Economic Development is seeking assistance to increase the number of manufacturing jobs by the construction of this facility.

Historically, industrial development has been misunderstood and was not a priority for economic development on the Navajo Nation whereas the emphasis for economic development was placed on tourism and small or home-based businesses. Now, however, under the support by the new Administration of President Nez and Vice President Lizer industrial development via this type of manufacturing of disposable gloves is one avenue to employ our Navajo People and diversify the Nation's economy. See the President Nez letter to Frank Dayish, Chief Procurement Officer, Navajo Area Indian Health attached as Exhibit "E." And see Press Release by the Office of the President and Vice President dated February 22, 2019 and the attached news article from Native Business Magazine in Exhibit "E".

Additional letters of support for this project are included with this proposal attached hereto as Exhibit "K".

As an education effort by the Project Development Department and Rhino Health, support resolutions from Church Rock Chapter and many other chapter communities surrounding Church Rock are also included with this proposal. See Exhibit "I".

The Church Rock Industrial Park has an Environmental Assessment Report for the entire industrial park is dated July 2002. And, the Environmental Summary was reviewed and signed off by Navajo Nation Environmental Protection Agency on January 8, 2019 for this project. This is also included with Exhibit "F". A copy of the Cover Page of the Report is also included with Exhibit "F".

**Job Creation:** The project impact or the creation of this manufacturing facility will bring economic base jobs to the Navajo economy. Economic base jobs also known as E-base jobs have a very high multiplier effect on an economy. It has been said that one manufacturing job creates three jobs in other sectors of an economy. For this project, the estimated number of construction jobs is 50. The estimated number of economic base jobs created is 35 initially and 350+ in Years

2 and 3. Employees are expected to be drawn from surrounding Navajo chapter communities near the Church Rock Industrial Park.

**Location:** These facilities will be located in Lot 15 and acreage to the west of Lot 15 within the Church Rock Industrial Park on the Navajo reservation near the New Mexico-Arizona border. The park is an existing development with full utilities located six miles east of Gallup, New Mexico, and is one of eight industrial sites located on the Navajo Nation. The park consists of 76 acres available for lease and is adjacent to Interstate 40, which is a prime cross-continent commercial transportation corridor. The park is also located adjacent to State Highway 118 and is served by a rail spur of the Atchison, Topeka and Santa Fe Railroad. Existing tenants within the park include USDA Food Distribution, Thompson's Convenience Store, the Fire Rock Navajo Casino, McKinley County Transportation Department and the Eastern Navajo Economic Development Office. Please see Exhibit "F", the Google Map photo and physical description of the Church Rock Industrial Park.

### C. Market Analysis

**Description and Need:** This project will be located on the Navajo Nation Indian Reservation. Amongst the over 500 American Indian Tribes and 310 Indian Reservations recorded by the United States Census, the Navajo Nation is the homeland of the largest American Indian tribe and its reservation sprawls across northeast Arizona, northwest New Mexico and southern Utah. The Navajo Nation land base is over 17 million acres and is situated in the Four Corners region of the United States; please see the map below.

Arid deserts and alpine forests with high plateaus, mesas, and mountains reaching as high as 10,500 feet in altitude and as low as 5,500 feet to the low desert regions characterize the topography of the Navajo Nation. Volcanic activities, wind and water erosions have formed and carved the Navajo Nation's many majestic mesas, mountains and canyons. The Navajo Nation is the home of a number of world renowned scenic wonders of the Southwest including Canyon de Chelly in Arizona, Shiprock peak in New Mexico and Monument Valley in Utah to name a few. The beauty and culture of the Navajo Nation draws over 5 million tourists annually from all over the world to this homeland of the Navajo people.

The population of the Navajo Nation is 175,108 on the reservation. The Navajo population growth rate is 2.25 (per 1,000) and is substantially higher than the U. S. growth rate of 1.24 (per 1,000). However, the estimated population growth rate from 1990 to 2000 was ~ 1.85%. This low growth rate has been partially attributed to the lack of employment opportunities on the Navajo Nation. Younger Navajos move to large cities in the Southwest such as Phoenix, Arizona, Albuquerque, New Mexico and Salt Lake City, Utah to find employment thereby reducing the population size and growth rate of the Navajo Nation. The Navajo population on the reservation is young with a median age of ~ 31 years compared to the United States median age of ~ 37 years. The population of the Navajo population is evenly divided between males (48%) and females (51%). Source: CEDS, April 2018, Page 31.

**Project Jobs:** This project will bring employment of 350+ new jobs to the Navajo Nation where the unemployment rate is 57% and the per capita income is only ~ \$ 12,101. For Eastern part of the Navajo Nation mostly in the State of New Mexico, the unemployment rate is over 74%.

This project impact is economic base jobs to the Navajo economy. Economic base jobs also known as E-base jobs have a very high multiplier effect on an economy. It has been said that one (1) manufacturing job creates three (3) jobs in other sectors of an economy. For this project, the estimated number of construction jobs is 20. The estimated number of jobs created is 35 (Phase I) initially and 350+ in Years 2 and 3. Employees are expected to be drawn from surrounding Navajo chapter communities.

#### **D. Management and Organization of Construction Project and Operations**

The Project Development Department is responsible entity as the developer for the Navajo Nation for commercial and industrial projects for this project.

**Construction and Infrastructure Funding Needed:** The amount of funding requested from the Sihasin is \$19,00,000 to construct of the anticipate manufacturing facilities and the infrastructure. A budget is attached hereto as Exhibit "B". The facilities will be Navajo-owned buildings and will be leased to the company.

Project funding in the amount of \$30,000,000 for the equipment of the facility via an Industrial Revenue Bond (IRB) for the purchase of the Equipment with the McKinley County government

received a do pass to move forward on the bond financing. This funding (IRB) is a financing mechanism for the tenant to purchase equipment for Phase II of the project.

Included as Exhibit “J” is the resolution (AUG-18-051) of the approving the Industrial Revenue Bond by the McKinley County Commission and its Smart Growth Fund Commission.

**Investment Pay Back to the Navajo Nation General Fund:** As has been the history of the Industrial Unit of the Project Development Department, the pay back for this investment will be in the form of monthly rental and creation of jobs.

The Division of Economic has historically negotiated business site leases within the Navajo Nation where the lease rental is to be paid to the Navajo Nation. This practice on monthly rental to the General Fund via the Navajo Nation Controller. The Department serves as the agent for the Navajo Nation in the recruitment and retention of tenants in the Nation’s industrial parks. The average term of these tenants is fifteen (15) years, thus these leases are long term leases. The prospective tenant has indicated that they prefer a fifty (50) year lease with an option to renew for an additional term of fifty (50) years.

The rental language historically used is as follows (dependent on lease negotiations):

The Lessee, in consideration of the foregoing, covenant and agrees to pay in lawful money of the United States of America to: Office of the Controller, Accounts Receivable Section, P.O. Box 3150, Window Rock, Arizona 86515 for the use and benefit of the Lessor the following:

Years 1 – 3	No rental, development period.
Years 4 – 5	at \$XXXXXX per month
Years 6 – 10	at \$XXXXXX per month.
Years 11 – 50	at \$XXXXXX per month.

**When will you need the funds to be available?** May 2019

**Ownership, Operation and Maintenance of the Facilities:** The facility to be built will be a Navajo Nation building and will get a Tribal Building Number when the construction is complete. The Project Development Department will be the responsible department within the Navajo Nation for this project. If approved, the Department will work with the NM LEDA fund to coordinate with the McKinley County on the construction bidding and construction management. NM LEDA has committed \$3.5M toward the project’s infrastructure and facility.

**Master Plan of the Church Rock Industrial Park:** A master plan has been completed by Red Bruin and Associates (Navajo-owned) in 2005 of the Church Rock Industrial Park which includes lot division and a proposed inter-road system within the Park. A drainage study was also completed in January 2006. This drainage study was used by D. Sloan Architects, P. C. (Navajo-owned) for the Lot 15 development and was used for the development of the Fire Rock Navajo Casino. Arviso Construction Company (Navajo-owned) constructed the Phase I facilities (also known) as the Rubber Glove Factory in 2007.

**Environmental Assessment:** An Environmental Assessment for the entire industrial park was completed in July 2002. And, an Environmental Assessment for Lot 15 at the Church Rock Industrial Park, in accordance with the National Environmental Policy Act of 1969, As Amended DOI DM Part 516 and 30 BIAM, Supplement 1 by J. R. Analla EA Services, EAS-0705 was completed in June 2007.

A copy of the Cover Page of that Report is included with Exhibit “F.” And, the Environmental Summary was reviewed and signed off by Navajo Nation Environmental Protection Agency on January 8, 2019 specifically for this development at the Church Rock Industrial Park. This is also included with Exhibit “F”.

**Land Withdrawals:** The Church Rock Industrial Park (site) is on the Navajo Nation reservation. The industrial park was withdrawn by Advisory Committee of the Navajo Tribal Council in 1971 for the purpose “industrial development by leasing its (Navajo Nation) lands and otherwise assisting in such developments.” Attached hereto is Exhibit “H”, Advisory Committee Resolution ACMY-189-71. A portion of the industrial park is owned by the Navajo Nation and the land it entitled “fee simple” land.

**Permits:** The Project Development Department will be the lead with all agencies and utilities to coordinate this large project regarding this new construction at Church Rock.

**Navajo Businesses:** Red Valley Survey (Navajo-owned) was hired by the Department for their surveying services for the survey plat for this business site lease. Ms. Tamara Begay, Navajo woman-owned company – Indigenous Design Studio, LLC was hired by Rhino Health for architectural and design services for the Phase II facility.

**Can this project be completed in 18 months or less?** Yes.

**Area map, site map, and floor map (as applicable):** A copy of the Church Rock Industrial Park outlining the lots within the industrial park is included as Exhibit “F” along with an Ariel photo of the industrial park and this development are included with this application.

## **E. Conclusion**

In conclusion, the Department experience with construction of manufacturing facilities for the occupation of tenant within the Navajo Nation’s Industrial Park. The prospective tenant has a \$29M capital investment towards this new manufacturing venture. Many site visits over the last two years have netted this Letter of Intent to bring jobs for our Navajo people.

Lastly, the Business Plan is on file with our Department as well as financials of this company.

### **Reference: Glove manufacturing project in Church Rock industrial complex**

Dear **Mr. Perry** and **Ms. Begay-Platero**,

Please accept this letter as a sincere expression of our intent to build an income generating nitrile glove manufacturing plant and distribution warehouse facility at above two Church Rock buildings in the Church Rock Industrial Park. The buildings are in Lot 15 at Church Rock, New Mexico.

These two buildings were originally custom built for the glove manufacturing and has been empty for many years. Though bit smaller than we need, due to market timing, we would like to utilize these two existing buildings as anchor factory for our first venture in the United States with the Navajo Nation.

We plan to expand much larger factory immediately after the successful launching of the first operation (Phase 2). We would build the second facility and occupy a 100,000 square feet facility to the west and north of the Lot 15 at the Church Rock Industrial Park. Mainly Lot#13, 14, 20, 19 & 18.

This will be very long-term commitment of capital, experience, time and much resources to enhance and support Navajo people and for its well-being community.

Since 1984, Church Rock Development head company, Jungwoo Rubber and Plastic Co. in Korea has supplied commodity items such as natural rubber to global clients such as tire, chemical, medical glove, construction, rubber derivative and synthesized consumer products, health and pharmaceutical, shoe manufacturing industries, etc.

# Church Rock Development LLC.

- **We will be targeting following customers:**

Government; DOD, DOJ, FEMA, TIS, etc.

Medical; IHS, VA, Armed Forces, etc.

Food Industry: Fast food chains, Food Manufacturing & Process Plants. etc.

Retail; Home Depot, Wal-Mart, etc.

- **Usage of each bldg. & Lot:**

The current Lot 15 Production building will be refit with one manufacturing line

The Warehouse building will be packaging, palletizing, warehouse, shipping and administration office use.

2<sup>nd</sup> Phase empty lot, we will construct and build new and larger production complex.

- **Machinery and line set ups:**

It will be state of art and latest high-tech production, first of its kind in the United States.

Production machine is about 4 stories high and over 200 ft long.

- **Employee potentials:**

1<sup>st</sup> Phase: ~30+ one line

2<sup>nd</sup> Phase: ~300 + from 5 lines

- **Estimated Capital requirement per phase:**

1<sup>st</sup> Phase: \$5-8 million USD

- **Confidentiality:**

The entering into of this Letter of Intent, and the potential completion of this transaction, will be kept strictly confidential and will not be disclosed to customers, suppliers, employees or other persons without the consent of both parties, such consent not to be unreasonably delayed or withheld; this provision shall not apply to disclosure to professional advisors, potential financiers, or appraisers, provided they agree to maintain the same level of confidentiality required by the parties.

## **Church Rock Development LLC.**

The purpose of this letter is to fully secure the building for long term leasing by Church Rock LLC to start Nitrile Glove manufacturing plants operation.

Upon completion of the both plants, this complex will create more than 300 direct and indirect projected jobs at operations and management levels.

Rhino Health LLC is a US manufacturing company, which will be responsible for operation of "Made in USA" nitrile glove manufacturing in Navajo land and sales - first in the USA.

Church Rock Development will be creating long-term quality employment opportunities for Navajo people and boost of its economy.

We look forward to working together to create the most constructive and beneficial relationship together.

Sincerely,

**Church Rock Development LLC.**

About the project:

# Rhino Health Manufacturing Phase II Factory Expansion Churchrock, New Mexico

Total Estimated Square Footage: 148,000 SF

Rhino Health Manufacturing brings their Vision to Navajo Nation. The Phase II expansion project is in the preliminary architectural conceptual phase which will outline the form of the building. The main driver for sizing this facility is the manufacturing process of the product. This process produces 2.7 million pieces per day. The finished product is then packaged and stored in the warehouse for shipping.

The building program defines the needed spaces for the building function, building systems and other building requirements for the project. The concept is based on a premanufactured steel building to house the production operation, the machine, warehouse, packing and shipping, raw material storage for production, truck dock, staff, security and building support.

Re: Rhino Health, Inc. and Red Rock Unlimited, LLC.

Ya'teeh Mr. Dayish;

As you are aware, the Navajo Nation supports the continuing efforts of Rhino Health, Red Rock Unlimited, and Church Rock Development in a new business venture located on the Navajo Nation. Rhino Health is completing the initial stages to the production facility that will manufacture disposable nitrile gloves used in healthcare facilities, food service establishments, and retail outlets. Rhino Health has established a partnership with Red Rock Unlimited, a Navajo owned distributor, to distribute nitrile gloves and related medical supplies to area and regional businesses. Rhino Health anticipates creating 350 new jobs with this venture; creating much needed employment for our local communities.

It is my sincere belief that this newest venture will inspire other manufacturing opportunities and business development with the Navajo Nation, stimulating the Navajo economy, and benefiting our Navajo people. Should the Indian Health Service be interested in this production facility I encourage you to reach out to the partnership to learn more.

Any questions may be directed to Christopher Bahe, Executive Staff Assistant in the Office of the President and Vice President at (928) 871-7000.

Sincerely,

**PHOTO:** President Jonathan Nez, Vice President Myron Lizer, and Rhino Health, LLC officials at the Church Rock Manufacturing site in Church Rock, N.M. on Feb. 21, 2019.

**CHURCH ROCK, N.M.** – On Thursday, President Jonathan Nez, Vice President Myron Lizer, and Navajo Nation Division of Economic Development Economic Director JT Willie met with officials from Rhino Health LLC, an international nitrile glove manufacturing company that is expanding their operations to produce latex gloves at the Church Rock Manufacturing facility in Church Rock, N.M. The initiative has the potential of creating up to 350 new jobs on the Navajo Nation.

The group visited the facility where workers are currently assembling heavy equipment to produce the latex gloves, which is part of the multi-phase project that includes an investment of more than \$49 million from Rhino, LLC.

“Our Navajo people need jobs and our Nation needs additional revenue and that’s what this project will deliver as long as we continue working together,” said President Nez, who has supported the project since he was Vice President of the Navajo Nation.

In December, President Nez joined officials from the Navajo Nation Division of Economic Development, New Mexico Office of the Governor, and McKinley County as they announced that the project was selected by the New Mexico Economic Development Department to receive \$3.5 million through the Local Economic Development Act funds.

“This is a great initiative and it’s all thanks to the partnership of the private sector and others to bring economic opportunities to the community of Church Rock and surrounding

communities. We understand that there is remains a need for additional funding to fulfill the vision of this project and we will continue supporting the Division of Economic Development and other partners as this venture progresses,” stated Vice President Lizer.

Rhino, LLC officials said the manufacturing facility will become a supplier of nitrile to be sold to government agencies, medical facilities, and food and retail industries once completed.

“The economic impact will be longer-term. Projects such as this take time to get moving and bringing an impact to the economy. Over time we will see the positive results of the glove manufacturing site. The best thing everyone can do now is support the efforts. Encourage your vendors, suppliers, your communities to buy Navajo” stated DED Executive Director JT Willie.

# International Glove Manufacturer to Build \$49M Facility on Navajo Nation, Create 350 Jobs

Rhino Health LLC is expanding its U.S. production of nitrile rubber gloves. The manufacturing firm, under leading Korean rubber conglomerate Jungwoo Rubber & Plastic, has chosen Church Rock, New Mexico, on the Navajo Nation Reservation for its new \$49 million, 124,000-square-foot manufacturing facility and warehouse. Rhino Health's expansion to Navajo land will create up to 350 new jobs.

"I supported this project as Vice President and will continue to support it under the Nez-Lizer administration," said Navajo Nation President-elect Jonathan Nez. "We understand the importance of partnering with the private sector to bring economic opportunities and most importantly jobs for the people. I am excited about today's announcement and look forward to welcoming Rhino Health to Church Rock, Navajo Nation."

The manufacturing facility will become a supplier of nitrile to be marketed to government agencies, medical facilities, the food industry and retail. Industrial development and glove manufacturing is a new avenue to employ Navajo people and diversify the Nation's economy.

"We are proud to be establishing our first Nitrile Glove factory in the USA," said Rhino Health CEO Mark Lee. "This will be the first of many 'Made in the USA' products coming out of New Mexico. With future expansions, we will be creating approximately 350 jobs in the region. I first want to thank Governor Martinez for her support – the LEDA fund and business-friendly climate make New Mexico a great place for our first on-shore manufacturing facility. I also wish to recognize Sharlene Begay-Platero of the Navajo Nation Project Development Department, Gallup Mayor Jackie McKinney, the Greater Gallup Economic Development Corporation team and Patty Lundstrom who were all instrumental in getting this project up."

The international recruitment was supported by New Mexico's closing fund, Local Economic Development Act (LEDA). The New Mexico Economic Development Department will invest up to \$3.5 million in LEDA funds for the expansion.

"Rhino Health choosing New Mexico represents another successful Foreign Direct Investment (FDI) win under Governor Martinez's leadership," said Economic Development Secretary Matt Geisel. "This big win represents impactful job creation on the Navajo Nation and for rural New Mexico. It really highlights the power of our economic development toolbox and effective, smart collaboration across entities to diversify the Nation's and the State's economy. Welcome to New Mexico, we're thrilled to have you."

The news of Rhino Health opening a manufacturing facility in Church Rock came on the heels of the Governor's announcement that international manufacturer Admiral Cable is moving to New Mexico and creating nearly 350 new jobs in Dona Ana County.

"I'm so proud to see another world-class manufacturing leader choose to invest in New Mexico," said Governor Susana Martinez in a statement. "Since 2011, we have worked hard to make New Mexico business-friendly for manufacturers and we are again seeing the results of our efforts."

# Church Rock Industrial Park

## Brief Physical Description of Project Site

The Church Rock Industrial Park (site) is located approximately six miles east of downtown Gallup, New Mexico. The site is located between Interstate 40 (I-40) frontage road, State Highway 118 (formerly Historic Route 66) to the south and the Burlington Northern Santa Fe Railroad (BNSF) to the north. The Church Rock Industrial Park (CRIP) is characterized by nearly flat terrain, allowing the development of requisite facilities with a minimum of site preparation.

Access to I-40 is provided via old Highway 66, the Interstate frontage road. I-40 off ramps are located 2 miles west and 4 miles east of the CRIP. The BNSF railroad, including a short spur line runs along the north site of the industrial park. This spur could be extended if needed. Commercial air transportation is available at the Gallup Municipal Airport 10 miles west.

Two water and sewer systems are available at the site. The City of Gallup and the Navajo Tribal Utility Authority (NTUA) operate these systems. The City of Gallup system consists of an 8" waterline and 8" sewer line. The NTUA system has varying line sizes and is designed to serve the residential needs in the Church Rock community. The sewer drains into a three-stage sewage lagoon facility located directly northeast of the CRIP. High-voltage electric service lines are located within the frontage road right-of-way along the south side of the industrial park. Also included in this corridor are 2" and 8" gas lines.

In addition to the features that lend to its suitability and quality as a commercial development site, it is remote enough to have no adverse effects on residential areas and yet close enough to allow those employed at the site a short commute (generally less than five to six miles). The industrial park is large enough to accommodate a number of diverse ventures. The location of the CRIP and existing infrastructure make it a prime site for commercial development. Uses of the site may included by not limited to:

- Expansion of the Navajo Nation Food Distribution truck maintenance shop, now located on the western end of the CRIP
- Portable campus/storage building manufacturing
- Cabinet manufacturing operations
- Bituminous and concrete pave operations
- General manufacturing plants
- General offices
- Retail Sales operations

Summary of Compliance with Environmental Laws:

1. National Historic Preservation:

The Church Rock Industrial Park was inventoried by the Office of Contract Archaeology, University of New Mexico. The report describes the fieldwork and findings. Development at the Church Rock Site will have no effect on traditional cultural properties or sacred areas. The Navajo Nation Historic Preservation Department, Cultural Resource Compliance Section has reviewed all work conducted at Church Rock and no further work is required and authorizes development to proceed. A Cultural Resource Compliance Form, OCA-88-447, UNM Proposal No. 185-369 was approved by NNHPD. (Source: An Environmental Assessment (EA) for the Church Rock Industrial by J.R. Analla EA Services, July 2002.)

2. Floodplain Management:

The Church Rock Industrial Park is not located in a 100 year frequently flood plan as defined in 24 CFR 55, Executive Order 11988. This site is protected from the Rio Puerco flood plain by the Burlington Northern & Santa Fe railroad. No wetlands have been identified with the tract as defined by Executive Order 11990. 4. Endangered Species Act:  
The Navajo Department of Fish and Wildlife, Natural Heritage Program has determined the project is not expected to affect any federally listed species or significantly impact any tribally listed species or other species of concern. Letter dated 9/24/02. (Source: An Environmental Assessment (EA) for the Church Rock Industrial by J.R. Analla EA Services, July 2002.)
5. Air Quality:  
Development at the Church Rock Industrial Park may result in an increase of dust in the immediate area during the construction and development of businesses at the site. This is short-term and will not result in an increase in airborne pollutants except when the wind is blowing in the area of the project. The proposed business site lease will not have an effect on the air quality. Lessee shall for the entire term of this lease: (1) fully comply with the Navajo Nation Air Quality Prevention and Control Act of 2004; and (2) obtain and maintain any necessary air quality permits related to reporting emissions, and comply with any subsequent permit conditions as contained in respective permits from the USEPA or the Navajo Nation Air Quality Program under the Navajo Environmental Protection Agency.

## RESOLUTION OF THE ADVISORY COMMITTEE OF THE NAVAJO TRIBAL COUNCIL

Creating Church Rock Industrial Park and Park Facilities,  
and Authorizing NTUA to Make Applications for Federal  
Grant from the Economic Development Administration (EDA),  
U.S. Department of Commerce and Environmental  
Protection Agency to Construct the Park and Park Facilities

### WHEREAS:

1. Navajo Tribal Council Resolution No. CO-40-55, provided that The Navajo Tribe is willing to participate in the development of industries where such industries will create payrolls for the members of The Navajo Tribe, and

2. By Resolution No. CMA-15-64, the Navajo Tribal Council adopted a Navajo Tribal Economic Development Policy concerning private capital investment in Navajoland, in which policy The Navajo Tribe invites and encourages investment by private capital to develop the extensive natural and human resources, and which policy indicates that the Tribe is convinced that mutual benefits will result and that job opportunities and technical training leading to better living standards for the Navajo people will be generated. In the same policy, The Navajo Tribe indicated its willingness to participate in industrial development by leasing its lands, and otherwise assisting such developments, and

3. The Eastern Navajo Industries, Inc., by resolution of its Board of Directors, dated February 15, 1971, gives assurances to The Navajo Tribe that it will lease a site or sites on an industrial park for the establishment of a mobile and modular homes manufacturing plant provided that The Navajo Tribe will construct an industrial park, known as the Church Rock Industrial Park, and a building thereon to house its manufacturing plant, and

4. In order to locate such industries in the area, and to provide space and facilities for other industries which may desire to locate in the area, it will require the withdrawal of certain Tribal land and the construction of an industrial park and park facilities thereon, and

5. The estimated cost of construction of the industrial park is \$1,200,000.00, and the building thereon to house the Eastern Navajo Industries, Inc. Manufacturing Plant is \$750,000.00, or a total cost of \$1,950,000.00, and

PROPERTY OF  
THE NAVAJO TRIBE

6. The Navajo Tribe desires to make application to the Economic Development Administration and Environmental Protection Agency for a 100 percent grant of Federal funds to construct the industrial park, the estimated cost of which is \$1,200,000.00, and a 50 percent grant and a 50 percent loan to construct a building on the park for housing the Eastern Navajo Industries Manufacturing Plant, the estimated cost of which is \$750,000.00, and

7. The Economic Development Administration Administration has tentatively indicated a willingness to give consideration to providing a 100 percent Federal grant for construction of the industrial park, and a 50 percent Federal grant and a 50 percent loan to finance construction of a building on the park, and

8. The Navajo Tribal Utility Authority (NTUA), an enterprise of the Navajo Tribe, in prosecuting such applications, and it is deemed appropriate to authorize the Authority to make said applications on behalf of The Navajo Tribe.

NOW THEREFORE BE IT RESOLVED THAT:

1. There is hereby withdrawn approximately 76 acres, more or less, of Navajo Tribal Trust Land located as described on the attached sheet marked Attachment "A".

2. The Chairman of the Navajo Tribal Council is hereby authorized to execute on behalf of The Navajo Tribe a lease with the Eastern Navajo Industries, Inc. for an appropriate site or sites for its industries on said industrial park and upon terms and conditions as may be approved by the Advisory Committee of the Navajo Tribal Council.

3. The Navajo Tribal Utility Authority is hereby authorized to act for The Navajo Tribe as applicant for an Economic Development and Environmental Protection Agency grant in the amount of 100 percent for construction of the Church Rock Industrial Park.

4. The Navajo Tribal Utility Authority is further authorized to act for The Navajo Tribe as applicant for an Economic Development Administration 50 percent grant and a 50 percent loan for construction of a building thereon, and to prosecute said applications, including construction of projects to completion.

#### CERTIFICATION

I hereby certify that the foregoing resolution was duly considered by the Advisory Committee of the Navajo Tribal Council at a duly called meeting at Window Rock, Navajo Nation

(Arizona), at which a quorum was present and that same was passed by a vote of 16 in favor and 0 opposed, this 12th day of May, 1971.

21 a balanced and stable economy in the County and to promote the public health, welfare, safety,  
22 convenience and prosperity; and

23 **WHEREAS,** Rhino Health, LLC, a New Mexico Limited Liability Company (the  
24 "Company"), has presented to the Board of County Commissioners (the "Board") of the County  
25 a proposal (the "Project Plan") whereby the Company will acquire equipment (up to 12  
26 "manufacturing lines") used in the operation of a glove manufacturing facility which will  
27 constitute an industrial development project (the "Project"), as defined in the Act; and

28 **WHEREAS,** the Project Plan proposes the issuance by the County of its Taxable  
29 Industrial Revenue Bonds (Rhino Health, LLC Project) in one or more series (the "Bonds")  
30 under the Act in an aggregate principal amount not to exceed \$30,000,000 to finance all or part  
31 of the costs of the Project and certain costs incurred in connection with the authorization,  
32 issuance and sale of the Bonds; and

CONTINUATION PAGE 2, ADMINISTRATIVE RESOLUTION No. AUG-18-051

1       **WHEREAS**, the issuance of the Bonds by the County to finance the Project will  
2       constitute one of the inducements whereby the Company will determine to proceed with the  
3       Project; and

4       **WHEREAS**, concurrently with the issuance of the Bonds, the Company will enter into a  
5       lease or other financing agreement with the County providing for the payment of lease rentals or  
6       payments on the property sufficient to pay the debt service on the Bonds, subject to the prior  
7       approval of the Board; and

8       **WHEREAS**, the County desires to indicate its intent, subject to, among other things, the  
9       conditions provided in Section 7 below, to proceed with the issuance of the Bonds for the  
10      financing of the Project pursuant to the terms of an ordinance (the "Bond Ordinance") to be  
11      adopted by the Board at a later date prior to the issuance of the Bonds; and

12      **WHEREAS**, the County and the Company understand that the adoption of this  
13      Resolution shall not obligate the County to issue the Bonds except in full compliance with the  
14      terms of the Bond Ordinance adopted by the Board prior to the issuance of the Bonds and related  
15      bond documents in form satisfactory to the County.

16      **NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF COUNTY**  
17      **COMMISSIONERS, THE GOVERNING BODY OF MCKINLEY COUNTY, NEW**  
18      **MEXICO, THAT ADMINISTRATIVE RESOLUTION NO. AUG-18-051 BE ADOPTED**  
19      **THIS 21st DAY OF AUGUST, 2018:**

20      **SECTION 1. Ratification.** All actions (not inconsistent with the provisions hereof)  
21      heretofore taken by the Board and the officers of the County, related to the purposes of this  
22      Resolution be and the same hereby are ratified, approved and confirmed.

23      **SECTION 2. Project.** The Board has been informed that:

24              **(a)** The Project will consist of the acquisition of equipment necessary for the  
25      operation of a glove manufacturing facility.

26              **(b)** The maximum aggregate principal amount of the Bonds to be issued by  
27      the County to finance the Project is \$30,000,000.

28              **(c)** The developer of the Project will be the Company.

29              **(d)** The location of the Project is within Church Rock Industrial park east of  
30      the junction of Interstate 40, New Mexico Highway 566 and the Historic Route 66, just five  
31      miles east of Gallup itself near the Fire Rock Navajo Casino, New Mexico.

DOC# 386008

1       **SECTION 3. Interest on the Bonds not Tax-Exempt.** The County understands that  
2 the Company does not intend that interest on the Bonds be excludable from gross income of the  
3 holders of the Bonds under the Internal Revenue Code of 1986, as amended. Pursuant to the Act,  
4 interest on the Bonds is exempt from State taxation.

5       **SECTION 4. Intent to Issue Bonds.** In order to promote the local health and general  
6 welfare, safety, convenience and prosperity of the inhabitants of the County, it is the intent of the  
7 Board to take all necessary and advisable steps to effect the issuance of the Bonds, in an  
8 aggregate principal amount not to exceed \$30,000,000, in order to defray part or all of the costs  
9 of the Project, provided that the issuance of the Bonds is subject to the conditions described in  
10 Section 7 hereof.

11       **SECTION 5. Limited Obligations.** The Bonds shall be special limited obligations of  
12 the County payable solely from the revenues derived from the leasing of the Project, and shall  
13 not constitute a debt or indebtedness of the County within the meaning of any provision or  
14 limitation of the Constitution or statutes of the State and shall not constitute or give rise to a  
15 pecuniary liability of the County or a charge against its general credit or taxing powers. Nothing  
16 contained in this Resolution or in any other instrument shall be construed as obligating the  
17 County to any pecuniary liability or a charge upon the general credit of the County or against its  
18 taxing powers, it being understood that no costs are to be borne by the County and that all costs  
19 incurred by the County in connection with the Bonds are to be promptly reimbursed by the  
20 Company.

21       **SECTION 6. State Tax Matters.** The Company, as agent for the County and consistent  
22 with Taxation and Revenue Department Regulation 3.2.212.22 NMAC (the "Regulation"), will  
23 acquire the Project. The Company will, consistent with New Mexico law and as agent for the  
24 County, apply to the Taxation and Revenue Department for Type 9 Nontaxable Transaction  
25 certificates (the "Certificates"). The Company will deliver a Certificate to each person selling  
26 tangible personal property to the Company for the Project as applicable under the New Mexico  
27 Gross Receipts and Compensating Tax Act and the Regulation. For this purpose, by adoption of  
28 this Resolution, the County authorizes the Company to act as agent for the County with respect  
29 to the acquisition of the Project. The Company shall not use the Certificates other than for the  
30 purchase of capital equipment and other tangible personal property, nor shall the Company use  
31 such Certificates after the completion of the Project. This Resolution is intended to be an

DOC# 386008

1 "inducement resolution" as that term is used in, and for the purposes of, the Regulation. The  
2 Company will indemnify the County for any taxes that may be levied or assessed pertaining to  
3 use of the Certificates.

4 **SECTION 7. Issuance of Bonds Conditioned Upon Full Review and Approval.** The  
5 issuance of the Bonds and the execution and delivery of any documents to which the County is a  
6 party in connection therewith shall be subject to a review of the Project by the County in the  
7 normal course. Issuance of the Bonds will be subject to the approval and authorization by the  
8 Board pursuant to the Bond Ordinance. The County Clerk is hereby authorized to publish notice  
9 of intent to adopt a Bond Ordinance, in substantially the form attached hereto as Exhibit A, at  
10 least fourteen (14) days prior to the public meeting at which the Board will consider the Bond  
11 Ordinance, such public notice to specify the time, date and location of the Board's meeting. In  
12 connection with this Resolution, the Board has been informed that the Company has expressed  
13 its understanding that a failure or refusal of the Board, however arising, to adopt the Bond  
14 Ordinance will have the effect of voiding any benefits to the Company under the Act, including  
15 voiding the Certificates issued to the Company for capital equipment purchases and making such  
16 purchases subject to whatever tax would be due if such Certificates had not been issued.

17 **SECTION 8. Further Steps.** The Chair, County Manager, Bond Counsel, and other  
18 appropriate County officials are hereby authorized and empowered to take such steps and to do  
19 such things as may be necessary to achieve the purposes of this Resolution.

20 **SECTION 9. Severability.** If any section, paragraph, clause or provision of this  
21 Resolution shall for any reason be held to be invalid or unenforceable, the invalidity or  
22 unenforceability of that section, paragraph, clause or provision shall not affect any of the  
23 remaining provisions of this Resolution.

24 **SECTION 10. Repealer.** All orders and resolutions, or parts thereof, in conflict with this  
25 Resolution are repealed; this repealer shall not be construed to revive any order, resolution, or  
26 part thereof, heretofore repealed.

27 **SECTION 11. Effective Date.** This Resolution shall take effect immediately upon its  
28 adoption and approval by the Board and shall remain in effect until 180 days following the date  
29 of adoption.

*RE: Letter of Intent*

Dear Mr. Lee:

It is with great pleasure that I write this letter to document Bosma Enterprises' intent to work jointly with Rhino Health Inc. to develop business opportunities in the Church Rock community. Bosma Enterprises is eager to build upon this partnership and is confident that both parties possess the resources necessary to be successful in this endeavor.

Bosma Enterprises is a 501(c)(3) nonprofit organization headquartered in Indianapolis, Indiana. For more than 100 years, Bosma Enterprises has worked to further opportunities for people who are blind or visually impaired through a variety of lines of business that employ people who are blind. Of our more than 200 employees, more than 55% are blind or visually impaired.

Bosma Enterprises' primary line of business is packaging medical devices. Through the AbilityOne Program, our organization is the mandatory source of supply for a number of disposable gloves for all VA Hospitals nationwide. Additionally, we operate a substantial kitting operation which packages medical supplies. We are proud to be both ISO 9001:2008 and ISO 13485:2003 certified.

This collaboration will be a tremendous benefit to the Church Rock community as well. Both parties have discussed multiple business opportunities, and we believe there are numerous ways we can leverage our strengths to build a strong partnership. Under the current proposal, Rhino Health and Bosma Enterprises will jointly work to develop business opportunities for the Indian Health Service. Additionally, we intend to work with Rhino Health to develop disposable gloves that may be sold into existing or newly found channels to potential customers such as but not limited to the VA, the Department of Defense, etc. There have been discussions about opportunity for an enclave in which Bosma Enterprises would employ people who are blind to package and distribute disposable gloves within Rhino Health's facility. Additional opportunities that have been discussed include: Rhino Health utilizing our company for warehousing and distribution, Bosma utilizing Rhino Health's existing oversees manufacturing to support commodity volume and business in highly competitive markets, the development of the "Magic Cleaner" product, and the development of products containing "Tyvek Materials."

Altogether, we believe this partnership will create numerous job opportunities throughout the community. This partnership presents an excellent opportunity for Bosma to acquire products that are **made in the USA** (specifically **Navajo made products** produced at one of Rhino Health's factories) which can be transformed into products for sale to both current and future customers. Purchasing products that are made in the USA is a key selling point to these customers, and we are eager to further explore business opportunities alongside Rhino Health.

Sincerely,

To Whom It May Concern:

I am writing on behalf of Greater Gallup Economic Development Corporation (GGEDC) to express our full support for the proposed Legislation NO: 0347-18: Approving and adopting the Church Rock Industrial Park Project Fund Expenditure Plan.

GGEDC believes the business siting of Rhino Health in the Churchrock Industrial Park will meet the region's growing employment needs and provide both community and economic benefits to the Navajo community of Churchrock and McKinley County. Not only will the Rhino Health project ensure economic development but will provide environmental sustainability through state-of-the-art technology using recycled water, creating less water discharge.

Additionally, Rhino Health will provide employment opportunities to the region, including more than 300 jobs of direct employment and an estimated payroll exceeding \$12 million.

On behalf of GGEDC, I respectfully request that the Navajo Nation support Legislation NO: 0347-18.

Respectfully submitted,

  
Patty Lundstrom, CECD  
Executive Director
