Option Number 2: P.L. 93-638 Contract - The tribe or tribal organization (Contractor) elects to perform the planning phase activities via P.L. 93-638 contract. The Contractor will be responsible for overall project management, status reporting, review coordination with DFMC and DSRM, and completing all procurement actions, including the scope of work, in accordance with applicable federal, state, and local building codes and standards, as well as additional requirements identified by DFMC.

Option Number 3: IA Performs the Activities - The responsible Regional Facilities Manager, with support from the DFMC, will be responsible for overall project management, status reporting, review coordination with DFMC and DSRM, and completing all procurement actions, including the scope of work, in accordance with applicable federal, state, and local building codes and standards, as well as additional requirements identified by DFMC.

For Option 1 or 2, an informational meeting will be scheduled to discuss the required application process and other matters related to the respective project. For Option 3, DFMC assures you that the facility users and your designated tribal representative(s) will be fully involved throughout each phase of the project.

Project Management Responsibilities: The progress and execution of each project will be the subject of close and detailed reporting and scrutiny. DFMC will provide oversight to help ensure deadlines are met in order to achieve established milestones throughout all phases of the project. To be successful, we must work together closely to ensure continual progress. Regular status reporting will be required to ensure progress toward achieving milestones, to maintain data required in eCPIC, and for DFMC to regularly report progress to the Department of Interior and other oversight authorities. Additionally, if the tribe or tribal organization elects either option 1 or 2, it must select a project manager that meets the DFMC Minimum Project Manager Standards (will be provided at the informational meeting to follow).

Extensions of deadlines will be granted under extenuating circumstances only. Failure to adhere to the requirements of the Contract or Grant will result in a project review by Indian Affairs to consider withdrawing, withholding, and/or redirecting the use of all or some project funds for more efficient and timely use toward other projects. This would likely result in postponing a project until some future date when the schedule is back on track and new funding can be identified.

Tribal Intention and Resolution Regarding Funding Contract for Project Management and Procurement Option Selected: We request you select one of the above implementation options and inform DFMC within the specified timeframe. If we do not receive a response from your office within the timeframe, Indian Affairs will initiate this project using Option Number 3. A Tribal Resolution will be required should you decide to use Option 1 or 2. Please attach the Tribal Resolution with your notice of selection. If a tribal resolution cannot be obtained within the given period, please inform us of your intended option using attachment 1. The Tribal Resolution will be required. If necessary an Organizational Capacity Review will be conducted, prior to entering the formal planning stage.

Deadline for a Tribal Response to this Consultation Letter: Please provide your response with all requested attachments, and other documentation to DLMC within 15 business days from the date of receipt of this letter. Please ensure you include, at a minimum, the completed and signed attachment indicating tribal decisions for funding option and project management.

For your convenience, a response form (Decision of Funding Contract for Project Management) is attached. Please review carefully, select your option, sign and date. Return your response to our office within the deadline noted above. You may fax your response to (505) 563-5106 Attention: Laylene Adakar Sanchez or email the response to laylene.adakarsanchez@bia.gov. The original documents must be submitted by mail immediately afterward. If you have questions regarding this consultation letter, please contact our office at (505) 563-5104.
