BE IT ENACTED:

- C. The Budget and Finance Committee of the Navajo Nation Council is empowered to review and recommend to the Navajo Nation Council the budgeting, appropriation, investment, and management of all funds and to coordinate and review all fiscal, financial and investment activities of the Navajo Nation. 2 N.N.C. §§ 301 (B) (2) and (5).

and to establish a subcommittee that consists of committee members which the committee selects. 2 N.N.C. §§ 186 and 701 (B). The Naabik'iyáti' Committee adopted NABIAP-20-15 establishing the Naabik'iyáti' Síhasin Fund Subcommittee to "recommend to the Naabik'iyáti' Committee and Navajo Nation Council financial support and/or financing plan(s) for the purposes designated in CD-68-14 [Navajo Nation Breach of Trust Settlement Act of 2014, establishing the Síhasin Fund]".

- F. The Navajo Nation Council is the governing body of the Navajo Nation. 2 N.N.C. § 102 (A).

Section Two. Findings

- A. On November 1, 2006, the 20th Navajo Nation Council unanimously passed Resolution No. CN-57-06 authorizing the Navajo Nation Attorney General to file a lawsuit against the United States for the alleged breach of its fiduciary duties to the Nation arising under treaties, executive orders, public laws, statutes, regulations and contracts due to its mismanagement of the Nation's tribal trust assets, including tribal trust funds and select tribal resources, specifically excluding water and assets held in trust for individual Navajo members. Resolution No. CN-57-06 was signed into law by the President of the Navajo Nation on November 13, 2006.
- B. On September 26, 2013, the Naabik'iyáti' Committee of the Navajo Nation Council passed NABIS-42-13 creating a Trust Mismanagement Litigation Task Force ("Task Force"), composed of Council Delegates, from each agency and each standing committee, as well as Presidential appointees, to assist and consult with the Navajo Nation Office of the Attorney General, Department of Justice, outside legal counsel and the Office of the Navajo Nation President & Vice-President in evaluating whether any proposals put forth by the United States to settle the lawsuit, *Navajo Nation v. United States*, No. 06-945L, (United States Court of Federal Claims) were in the best interests of the Nation.
- C. On May 16, 2014, the United States made a settlement offer that was acceptable to the Nation's Attorney General, outside legal counsel, the Task Force and the Office of the President & Vice-President as being in the best interests of the Navajo Nation and on May 30, 2014, the 22nd Navajo

Nation Council adopted Resolution No. CMY-28-14 accepting a settlement of the Navajo Nation's lawsuit, *Navajo Nation v. United States*, No. 06-945L, against the United States for its historical mismanagement of the tribe's trust assets and its failure to ensure that the Navajo Nation received all funds due and owed under the United States' trust obligations and fiduciary duties. Resolution No. CMY-28-14 was signed into law by the President of the Navajo Nation on June 4, 2014.

- D. The 22nd Navajo Nation Council recognized that during the many decades that the United States was in breach of its trust obligations and fiduciary duties to the Nation and engaged in the mismanagement of the Nation's tribal trust assets and resources, the tribal government was without sufficient funds to provide basic services and amenities to the Diné of past generations. The tribal government was also without funds to develop an infrastructure within the four sacred mountains that would support the growth and development of opportunities crucial for the prosperity of future generations of Diné. See Resolution No. CMY-28-14.
- E. Between October 6, 2014 and November 8, 2014, the Office of the Speaker held seven (7) Public Hearings, as directed by the Navajo Nation Council's Naabik'iyati' Committee, to receive input from Navajo Nation members on how the net proceeds from *Navajo Nation v. United States* should be used. During that same time period, the Office of the President & Vice-President also held five (5) town hall meetings for a similar purpose.
- F. On December 13, 2014, in the best interests of the Nation and consistent with the collective wishes expressed by its members, the 22nd Navajo Nation Council adopted Resolution No. CD-68-14 enacting the Navajo Nation Breach of Trust Settlement Act of 2014 (hereinafter "2014 Act") and establishing the Navajo Nation Síhasin Fund at 12 N.N.C. § 2501 et seq. The President of the Navajo Nation signed Resolution No. CD-68-14 into law on December 31, 2014.
- G. On January 31, 2018, the 23rd Navajo Nation Council adopted Resolution No. CJA-03-18 enacting amendments to CD-68-14 clarifying the intent of the 22nd Navajo Nation Council, including that Síhasin Fund infrastructure projects were not to be limited by 12 N.N.C. § 1310(F) (Navajo Nation Bond Financing Act) or by TCDCJY-77-99 (Capital Improvement Projects Guidelines Policies and Procedures).

Resolution No. CJA-03-18 was signed into law by the President of the Navajo Nation on February 8, 2018.

- H. The 2014 Act, as amended by CJA-03-18, mandates that the net proceeds and earnings thereon received by the Navajo Nation from the settlement of *Navajo Nation v. United States*, No. 06-945L, be deposited into the Síhasin Fund and managed and invested to provide financial support and/or financing for (1) the planning and development of economic development and regional infrastructure supporting economic development and community development, including such infrastructure as, but not limited to, housing, commercial and government buildings, waterlines, solid waste management development, powerline projects, transportation and communication systems, within the Navajo Nation; and/or (2) education opportunities for members of the Navajo Nation. See 12 N.N.C § 2501 and § 2502 (A), as amended.
- I. The 2014 Act, as amended, also established that "leveraging of the [Síhasin] Fund by way of guaranteeing loans, match funding, direct funding in part and other weighted uses of the Fund, including loan financing from the Fund for the purposes in § 2502 (A)(1), shall be favored over direct funding in whole". 12 N.N.C § 2502 (C), as amended.
- J. The 2014 Act further established that with the exception of outstanding and accrued litigation costs, Síhasin Fund Principal and Income shall only be expended pursuant to a Fund Expenditure Plan consistent with the purposes set forth in the 2014 Act, as amended, at 12 N.N.C. §2502 and adopted by a two-thirds (2/3) vote of all members of the Navajo Nation Council. See 12 N.N.C. § 2505 (A).
- K. On April 9, 2015, the Naabik'iyáti' Committee adopted NABIAP-20-15 establishing the Naabik'iyáti' Síhasin Fund Subcommittee to "recommend to the Naabik'iyáti' Committee and Navajo Nation Council financial support and/or financing plan(s) for the purposes designated in CD-68-14 [Navajo Nation Breach of Trust Settlement Act of 2014, establishing the Síhasin Fund]".
- L. Between April 2015 and March 2018, the Subcommittee, assisted by the Office of Legislative Services, Office of the Speaker, Office of Legislative Counsel and outside legal counsel, met on more than thirty (30) occasions in either work sessions or official meetings to review and evaluate comments and recommendations from the Navajo

People; hear proposals from Navajo Nation entities, Chapters, programs and officials; and develop expenditure plan(s) for the Sihasin Fund Principal and Income consistent with the purposes set forth in the 2014 Act, as amended.

- M. After reviewing the comments and recommendations submitted during the Public Hearings and town hall meetings, as well as the reports and comments made during Sihasin Fund Subcommittee meetings, the Subcommittee determined that powerline projects and Chapter capital and economic development projects were a high priority for Navajo communities and that the funding of such projects would afford Navajo communities the opportunity to start and complete local projects currently stalled by the lack of sufficient funds, apply for additional state and federal funds requiring an identified match, as well as support CMY-28-14's intent to expand infrastructure(s) on the Navajo Nation, spur economic development at the local level and provide amenities to Navajo communities.
- N. In November of 2017, the Subcommittee issued a directive to the Speaker of the Navajo Nation Council to develop a nationwide powerline projects expenditure plan combining Undesignated Unreserved Fund Balance ("UUFB") and Sihasin Funds to total one hundred million dollars (\$100,000,000.00) divided equally amongst the twenty-four Council Delegate Districts equaling \$4,166,666.67 per District. On February 15, 2018, the Navajo Nation Council issued a further directive to the Speaker to have his staff meet with Navajo Nation Council Delegates and the Chapters they represent to develop a nationwide powerline and chapter projects expenditure plan for one hundred million dollars (\$100,000,000.00) divided equally amongst the twenty-four Council Delegate Districts with the Sihasin Fund as the intended funding source.
- O. Between March 5, 2018 and March 16, 2018, Office of the Speaker staff, contract legal counsel, Capital Projects Management Department ("CPMD") staff, and Navajo Tribal Utilities Authority ("NTUA") staff, met twice with each Council Delegate and their Chapter representatives, including but not limited to Chapter Officials, Chapter Managers and Community Service Coordinators, to review each District's proposed projects for (1) compliance with the 2014 Act's, as amended, purpose of "the planning and development of economic development and regional

infrastructure supporting economic development and community development, including such infrastructure as, but not limited to, housing, commercial and government buildings, waterlines, solid waste management development, powerline projects, transportation and communication systems, within the Navajo Nation"; and (2) readiness status, e.g., project ready, construction ready or shovel ready, as applied by CPMD.

- P. Powerline, economic development and infrastructure projects were proposed at the March meetings including, but not limited to, Head Start facilities, senior and veteran centers, and road improvements. A listing of the proposed projects, including match and contribution funding, is included on attached **Exhibits A through E**.
- Q. To ensure that Síhasin Funds are not prematurely withdrawn and continue to earn investment earnings for as long as possible, CPMD, with the assistance of the Office of the Speaker and NTUA, compiled the proposed projects into nationwide three-year funding plans, i.e., Chapter Projects, NTUA Powerlines, Non-NTUA Powerlines, and Waterlines, attached as **Exhibits A through E**, based on individual project readiness status.
- R. On March 23, 2018, contract legal counsel and CPMD updated the Síhasin Subcommittee on the Office of the Speaker's efforts to develop the powerline and Chapter projects expenditure plan, including the identification of almost twenty million dollars (\$20,000,000.00) in already secured project matching funds.
- S. During the update to the Síhasin Subcommittee, the following accountability and implementation measures were discussed:
 - 1. Due to their experience and expertise, as well as economies of scale, the funding and responsibility for implementing Chapter projects and Non-NTUA Powerline projects should be allocated to CPMD with a template in place, e.g., Memorandum of Agreement or other form of grant agreement, for CPMD to transfer the project funds and responsibilities to Local Governance Act Certified Chapters at their request;
 - 2. Due to their experience and expertise, as well as community need to lock-in project pricing, the funding

and responsibility for NTUA Powerline and waterline projects should be allocated directly to NTUA;

3. If the funding for NTUA Powerline and Waterline projects is disbursed directly to NTUA and the funding for Chapter and non-NTUA Powerline projects is disbursed directly to CPMD, the funding for projects at Chapters sanctioned pursuant to 12 N.N.C. § 9 should not be subject to § 9 (B)'s ten percent (10%) withholding;
 4. All of the proposed projects were vetted by CPMD and NTUA, respectively, for project readiness before being apportioned into the three-year plans based on project readiness status; therefore, if the funding for a project is not spent or encumbered within twenty-four (24) months of distribution, the project funds should revert to the Sihasin Fund; and
 5. To support expeditious administration and implementation of the more than two hundred (200) Chapter projects, CPMD operations should be supplemented with administrative costs.
- T. In addition, during the District meetings with Delegates and their Chapter officials and community representatives to select and vet powerline and Chapter projects, concerns were raised that the President's line-item veto of even a single project would disrupt the equal distribution of funds among the Districts, as well as, negate local choice in project selection and impair Chapter and community efforts to procure additional matching funds from federal and state sources.
- U. The Navajo Nation Council finds that the Powerline and Chapter Projects Expenditure Plan proposal, attached as **Exhibits A through E**, meets the purposes of the 2014 Act, as amended, i.e., "the planning and development of economic development and regional infrastructure supporting economic development and community development, including such infrastructure as, but not limited to, housing, commercial and government buildings, waterlines, solid waste management development, powerline projects, transportation and communication systems, within the Navajo Nation"; as well as the leveraging preference criteria of the 2014 Act, as Sihasin Funds will only fund a portion of the overall total cost of the projects with at least \$19,440,279.45, as

set forth on **Exhibits A through E**, of projects' costs covered by other Navajo Nation funds or federal, state or private entities through match funding, joint funding, contribution funding, cost-share funding or similar arrangements and agreements.

- V. The Navajo Nation Council also finds that the proposed Powerline and Chapter Projects Expenditure Plan proposal, attached as **Exhibits A through E**, supports community choice and addresses CMY-28-14's intent to expand infrastructure(s) on the Navajo Nation, provide economic development at the local level and provide amenities to Navajo communities.
- W. The Navajo Nation Council hereby determines that allocating Sihasin Funds to implement the Powerline and Chapter Projects Expenditure Plan, as set forth in **Exhibits A through E**, fits within the priorities established under the July 20, 2015 One Nation, One Voice Navajo Nation Three Branch Agreement and that it is in the best interests of the Navajo Nation, as well as in the best interests of community development, the expansion of infrastructure(s) on the Navajo Nation, economic development at the local level and the provision of amenities to Navajo communities, to adopt the Sihasin Fund Powerline and Chapter Projects Expenditure Plan, attached as **Exhibits A through E**.

- C. The Sihasin Funds allocated for the Sihasin Fund Powerline and Chapter Projects Expenditure Plan may be further leveraged by the Navajo Nation through bond or loan financing pursuant to the Navajo Nation Bond Financing Act, 12 N.N.C. § 1300 et seq., as amended, using Sihasin Fund Earnings for repayment and financing costs upon the recommendation of the Budget & Finance Committee and approval by a two-thirds (2/3) vote of all members of the Navajo Nation Council.

MEMORANDUM

TO: Honorable LoRenzo Bates, Speaker
Navajo Nation Council

FROM: 
Russell Begaye, *President*
THE NAVAJO NATION

DATE: May 7, 2018

SUBJECT: Resolution No. CAP-35-18: RELATING TO HEALTH EDUCATION AND HUMAN SERVICES, RESOURCES AND DEVELOPMENT, BUDGET AND FINANCE, NABIK'ÍYÁTI' COMMITTEES AND NAVAJO NATION COUNCIL; ADOPTING THE SISHASIN FUND POWERLINE AND CHAPTER PROJECTS EXPENDITURE PLAN PURSUANT TO CD-68-14, AS AMENDED BY CJA-03-18 AND 12 N.N.C. 2501-2508, AS AMENDED; WAIVING 12 N.N.C. 810 (F), 820(I) AND (M) AND 860(C) RELATING TO THE CAPITAL BUDGET AND CAPITAL IMPROVEMENT PROCESS

Pursuant to 2 N.N.C. 1005 (C)(10), action for Resolution No. CAP-35-18 is being submitted to the Navajo Nation Council, through the Office of the Speaker within the ten (10) days requirement. Furthermore, the Navajo Nation President has line item veto authority for budget items within the Supplemental Appropriations, which are not subject to override by the Navajo Nation Council. 2 N.N.C. 164 (A)(17).

After review of Resolution No. CAP-35-18, I hereby exercise my line-veto to:

1. Section Three. Approval and Adoption of Expenditure Plan.
2. Section Four. Approval and Adoption of Expenditure Plan Administration.
3. EXHIBIT D. SISHASIN FUND POWERLINE AND CHAPTER CAPITAL PROJECTS EXPENDITURE PLAN

- a. **NO. 42 YEAR 1 Funding \$46,100.00, YEAR 2 Funding \$143,250.00, YEAR 3 Funding \$643,983.00, SIHASIN FUNDS REQUESTED in the total amount of \$833,333.00.**
- b. **NO. 70 YEAR 1 Funding \$350,000.00, SIHASIN FUNDS REQUESTED in the total amount of \$350,000.00**

After consultation with the impacted Divisions, I have decided to exercise my line-item veto authority. The justification and details for use of the President's line-item veto is set forth below.

- a. **NO. 42 YEAR 1 Funding \$46,100.00, YEAR 2 Funding \$143,250.00, YEAR 3 Funding \$643,983.00, SIHASIN FUNDS REQUESTED in the total amount of \$833,333.00.**
- b. **NO. 70 YEAR 1 Funding \$350,000.00, SIHASIN FUNDS REQUESTED in the total amount of \$350,000.00**

First, the 110 Chapters have millions in unexpended dollars and should expend these fund for the many uses and projects on this Sihasin project listing. There are still many people that need water and electricity and these dollars should be priority for these funds. Second, the two projects vetoed are Bureau of Indian Affairs (BIA) projects and should remain under the BIA funding. Third, I support these appropriations as they also fulfill our four (4) pillars for Veterans, Youth and Elders, Jobs and Infrastructure.

I am pleased to sign this legislation into law as it will stimulate our economy by creating much needed jobs and bringing in infrastructure for our People.

Therefore, I will exercise my line-item veto authority to only two (2) items.

Cornfields Chapter Rural Addressing Sihasin Project: \$10,000

The goal of Cornfields Chapter is to complete the “physical” address of the houses and dwelling structures in the community. The system of physical addresses is to enhance the effective and rapid location of properties by public safety personnel, including law enforcement, fire, rescue, and emergency medical services personnel in the rural areas of the Navajo Nation.

Cornfields Chapter initiated this effort three to four years ago. Field Data Collection was done by the Local Rural Addressing Committee (LRAC), the Chapter administration. Primary roads have been identified and recommended road names. Due to lack of funds, this project has been on hold.

Using the Chapter funds, one staff will be hired to update the Field Data Collection (FDC). This will require visitation to homes and/or dwelling structures to verify and filter the data collected. This information will be pinned to the map of the community. All data will become part of the NNRA database. The centerline configuration will be included.

Local Rural Addressing Committee (LRAC) will be established at the chapter. The committee maybe consist of two selected community members, Chapter Administration, local ALERT member, a member from Law Enforcement, Fire Department, and Emergency Medical Services. This committee will assign names to roads according to the naming standards and will establish the actual physical addresses under the leadership of the Chapter Manager. A public hearing will be held to meet the guidelines of the NNRAA.

After the road naming have been completed, signs and other equipment such as an auger/post hole digger will be purchased using the sihasin fund.

The purchase of the needed equipment is an investment into the Navajo Nation Rural Addressing effort. Maintaining the rural addressing system is not a one-time project. The addressing system is a continuous process by updating and adding new addresses. The equipment will be used continuously.

RESOLUTION OF THE CORNFIELDS CHAPTER

Supporting and Endorsing the completion of a Rural Addressing System and the Development and Implementation of a Navajo Nation Enhanced Emergency 9-1-1 System.

WHEREAS:

1. The Cornfields Chapter is a recognized governing entity of the Navajo Nation located within the boundaries of the Navajo Nation. It is endowed with perennial responsibilities to advocate for its citizens and community in the Navajo Nation; and
2. The Cornfields chapter is aware of the need for a Navajo Nation-wide enhanced Emergency 9-1-1 System for any sudden occurrences of emergencies, and recognizes; and
3. The Cornfields Chapter acknowledges the need for establishment of an Enhanced emergency 9-1-1 System on the Navajo Nation, to improve adequate communications and expedite emergency services; and
4. Furthermore, the Cornfields Chapter genuinely believes those communities within Navajo Nation will not only benefit the people, but also public businesses, health care facilities, educational institutions, fire districts, emergency rescue personnel and police district.

NOW THEREFORE, BE IT RESOLVED THAT:

1. The Cornfields Chapter hereby respectfully submits its support and endorsement in the implementation of a Rural Addressing System, commitment to help maintain the accuracy and subsequently, a Navajo Nation Enhanced Emergency 9-1-1 System, an effort by and through the Communications and Utilities Department of the Navajo Division of General Services.

CERTIFICATION

I, hereby certify that the foregoing resolution was duly considered by the Cornfields Chapter at a duly called meeting at Cornfields Navajo Nation, Arizona at which a quorum was present and that the same was passed by a vote of 34 in favor, 0 opposed and (1) abstention, this 20th day of May 2007.

Presiding Officer

Jimmie Taliman, Sr., Chapter President
Cornfields Chapter

Navajo Nation Enhanced 9-1-1 and Rural Addressing Initiative

The primary goal of the Enhanced 9-1-1 addressing process is to link each telephone number to a permanent unique address that clearly identifies where a caller is physically located. This requires the creation of a physical address for any property that currently has a telephone, might have one installed, or might be occupied by someone using a wireless phone.

The most important reason for creating physical addresses is to enhance the effective and rapid location of properties by public safety personnel, including law enforcement, fire, rescue, and emergency medical services personnel in the rural areas of the Navajo Nation. The addressing standard is further designed to eliminate duplicate or phonetically similar street names, to provide for the uniform signage marking streets and roadways, and to provide for the assignment of numbers for all properties and structures throughout the Navajo Nation.

Rural Addressing

What is rural addressing?

A collection of information necessary for enabling the enhanced 9-1-1 system. Rural addressing is the "physical" address of a house dwelling structure. When 9-1-1 is dialed from a "landline" phone in an emergency, the Automatic Location Identifier (ALI) information is immediately available to the dispatcher.

Why do I need an address?

When the Public Safety Answering Point (PSAP) facility receives a 9-1-1 call, the Person Reporting (PR) is located by digital mapping. The dispatcher guides emergency responders to the PR or to the location of emergency. In the case of "landline" phones, an address is linked to a unique record in the ALI database so the location information is readily available to the PSAP dispatchers.

When do I need an address?

Most types of structures require an address at all times, including some types of barns, shops, buildings and garages; businesses; all houses and mobile homes. An address is assigned when a structure is being built or moved onto a location, such as a mobile home.

How should I display my 9-1-1 address?

Seconds count when emergency responders are trying to locate an address. Street/Road signs are to be posted by Navajo Division of Transportation. Structure signs are posted on addressable structures are determined by "Navajo Nation Rural Addressing Standards." The filename is TCDCAP-1-09.pdf and located on our website.

How will my address be created?

An address is generated based on a combination of geographical location which is determined by geo-referenced spatial information; numbers are generated by driveway intersections with the centerline street/roads. Therefore, each street/road must have an official name.

Addressing Methods

Examples of some methodology include Block Addressing (most common in cities, towns, and other municipalities) and Grid Addressing (most common in rural areas where roads follow section lines). Navajo Nation Addressing Authority (NNAA) provides Local Rural Addressing Committee (LRAC) training. Registration is required and a training schedule is posted at our website: www.nnaa.nndcd.org

Equal Interval Addressing is sometimes called the "mile marker method" and is the most common addressing method in New Mexico. Every road begins with "1" and increments at a standard interval per mile of roadway.

The illustration above is an example of "Equal

Interval Addressing method". The mile marker technique is used to identify the physical address. The first address would be as follows:

Willie Beagle
220 Navajo Route 112
Window Rock, Arizona 86515

Geographic Information Systems (GIS)

Global Positioning System (GPS) system is used to collect roads centerline and house dwelling locations "Addressable Structures" to be used to get exact latitude and longitude coordinates for rural addressing. GIS databases are created and furnished to telephone companies to be used for the Enhanced 9-1-1 system by NNAA.

Who assigns addresses?

LRAC will be established at each chapter community. The committee will consist of selected community members, Master Street Address Guide (MSAG) coordinator, representatives from Law Enforcement, Fire Department, and Emergency Medical Services. The LRAC members will assign names to roads according to the naming standards. NNAA will establish the actual physical addresses (RA numbers).

Road Naming and Numbering

Navajo Nation will use postal valid road naming and addressing protocol in their GIS databases. All roads that serve four or more properties with different owners will be named regardless of whether the ownership is public or private. Duplicate road names will be prohibited. There will be no road names using the Navajo Language due to Non-Navajos interpreting or translating back the language in emergency situations.

Road Signage Program

The LRAC upon adoption of addressing standards, shall institute a program for the installation and maintenance of street/road name signs with Navajo DOT. Driveways post will be installed at the entrance of driveways if the addressable structure is 150 feet or more away from the main street/road. Structure sign installation is separate from street/road sign installations.

Maintaining an Addressing System

Rural addressing is not a one time project. The addressing system is a continuous process by updating and adding new addresses. All new addresses must be added to the MSAG.

RE: Support Letter

To whom it may concern,

June 26, 2018

On behalf of the Cornfields Chapter Community Land Use Planning Committee, I would like to express my full support for the Rural Addressing Project. This project is one of the top five priorities the chapter administration already has in place. When this project is complete it will be beneficial to all of the residents located in the Cornfields service area.

There are two main objectives once the Rural Addressing Project is completed. The first is to accommodate residents in the area with a personal physical address. The second, and most important objective, is to locate and identify where residents live. It will also provide them with a unique ID number that local law enforcement and emergency personnel can pinpoint their location in case of emergencies.

Again, I fully support the completion of the Rural Addressing Project for the safety and well-being of our community members.

If you have any questions or concerns please feel free to contact me.

Sincerely,

A handwritten signature in dark ink, appearing to read "L. Shirley", written in a cursive style.

SUBJECT: Cornfields Council Government's Proposal to NNCPMD to Utilize the Sihasin Funds

I am writing this letter to support the Cornfields Council Government's application and proposal to use the Sihasin Funds for Cornfields Chapter Top Five Capital Projects beginning in FY2018: 1. Fencing and improvement of 10 acre Community Cemetery including a designated Veterans cemetery; 2. Rural Addressing System for Cornfields Community; 3. Low Water Crossing for Sunrise Wash; 4. Deer Point Business Site Development; 5. Scattered Waterline Project for 49 homes; 6. A used Backhoe to use for Cornfields Community High-Risk individuals and 7. A Green House for the Demonstration Farm. All these projects are long standing needs that the community has had no funds for in past years.

As Fire Chief for the Ganado Fire District, I am aware of Cornfields Community and its needs. As such, I share and support the mission of the Cornfield's local government to become more self-sufficient to meet the needs of its people. All these projects are essential and some are necessary in emergency situations such as the Rural Addressing, Low Water Crossing, Waterline Project and the Backhoe. All of the projects are needed to enhance the quality of life, safety and welfare for the residents of Cornfields Chapter.

Again, I am writing this letter in support of Cornfields Council Government's application and proposal to the Navajo Nation Capital Projects Management Department to utilize the Sihasin Funds for its Top Five Priority Capital Projects. We believe this partnership between the Navajo Nation and the Chapters will produce positive results for the local communities including Cornfields Community.

Thank you for any consideration you can provide to Cornfields' Chapter application.

Respectfully,

Dewayne Woodie, Fire Chief
