PART I. Business Unit No.: 115035 Program Title: Navajo Nation Zoo Program / Department of Fish and Wildlife
Division/Branch: Natural Resources Amount Requested: \$401,514 Phone No.: 871-6573
Prepared By: David Mikesic Email Address: dmikesic@navajozoo.org

PART II. REASON FOR REQUEST AND STATEMENT OF NEED:

In 2011, the Navajo Nation became the fourth Native American Tribe in the United States permitted for an Eagle Aviary. This Golden Eagle Aviary project will provide the Navajo Nation and Navajo Zoo with a large building to house up to 30 injured, non-releasable Golden Eagles. The Navajo Zoo staff will provide daily care for these eagles, and use the aviary as an educational component to teach about eagle conservation and protection. Feathers that are naturally shed from these eagles will be distributed to Navajo Tribal members, in a legal manner pursuant to Federal regulations, so that feathers are available for traditional purposes. This process will expedite the access to eagle feathers by Navajo-Tribal members, and reduce illegal actions on eagles in the wild. The Navajo Nation received a federal grant in the amount of \$200,000 to design and begin construction of this facility. A completed floor plan and cost estimate for the Aviary, including necessary office and security support, has been developed by Navajo Nation Design and Engineering Services. The total Construction Costs for this project, as planned, are estimate at \$401,514, and total Project Costs are estimated at \$601,514. This budget request is to complete the final construction of the Navajo Nation Eagle Aviary.

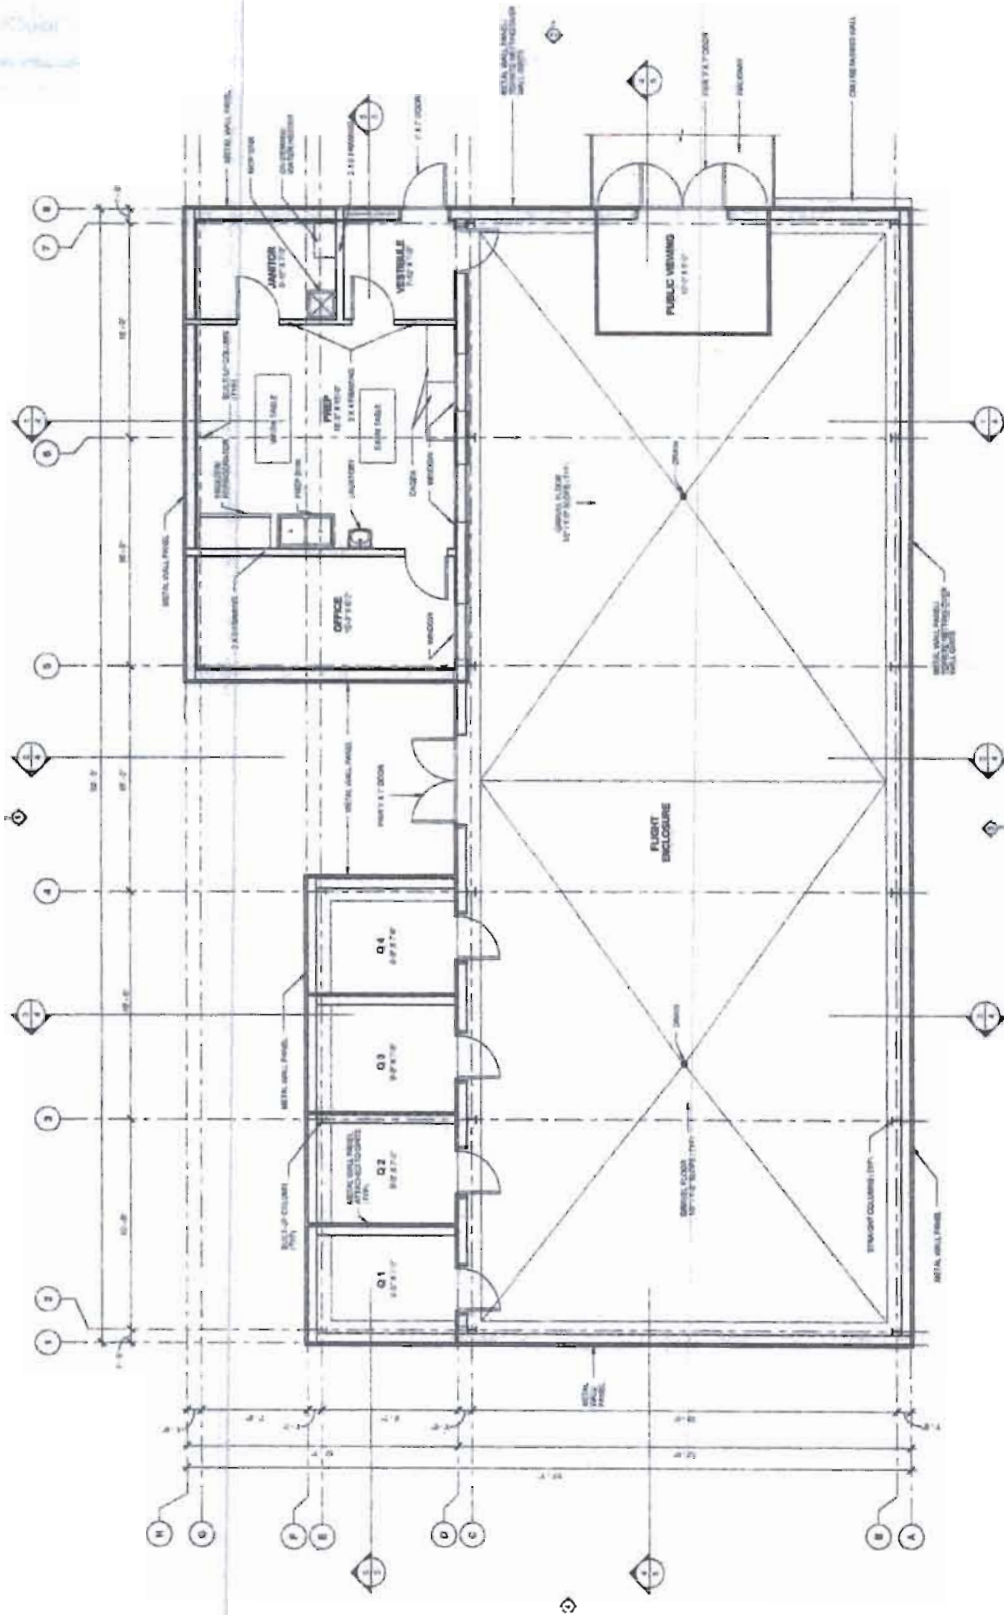

PART III. SCOPE OF WORK/METHODOLOGY

The scope of work for this project is to complete the construction of the Navajo Nation's Eagle Aviary. A finalized floor plan for the entire project is completed and attached. The \$200,000 of federal funding acquired by the Navajo Nation and Department of Fish and Wildlife will only nearly complete the construction of the main building to house eagles. Additional funding will be necessary to finalize necessary aspects of the main eagle housing area, the staff office space and quarantine areas for the eagles (see attached design). Because this project is shovel-ready and already underway, we anticipate very little time to obligate the funds to a construction contractor and complete construction of these necessary aspects of the Aviary. This project will be completed within 6 months of acquisition of funding.

PART IV. AFFIRMATION IS PROVIDED THAT THE PROPOSAL INFORMATION IS COMPLETE AND ACCURATE AND THE APPROPRIATE BRANCH CHIEF RECOMMENDS APPROVAL.

Branch/Division: DNR/Fish & Wildlife, Navajo Zoo

Branch/Division Purpose: Construct Golden Eagle Aviary and Eagle Education Center at the Navajo Zoo. The Zoo is seeking funds to construct an Aviary to house injured Eagles, use the facility for education, and distribute feathers to Navajo Tribal members.

Branch/Division's Overall Assessed Need and Total Estimated Cost to Address the Overall Need

In 2011, the Navajo Nation became the fourth Native American Tribe in the United States permitted for an Eagle Aviary. This Golden Eagle Aviary project will provide the Navajo Nation and Navajo Zoo with a large building to house up to 30 injured, non-releasable Golden Eagles. The Navajo Zoo staff will provide daily care for these eagles, and use the aviary as an educational component to teach about eagle conservation and protection. Feathers that are naturally shed from these eagles will be distributed to Navajo Tribal members, in a legal manner pursuant to Federal regulations, so that feathers are available for traditional purposes. This process will expedite the access to eagle feathers by Tribal members, and reduce illegal actions on eagles in the wild. A completed floor plan and cost estimate for the Aviary, including necessary office and security support, has been developed by Navajo Nation Design and Engineering Services. The total Construction Costs for this project, as planned, are estimate at \$401,514, and total Project Costs are estimated at \$601,514.

Proposed One Year Estimated Cost to Address Above Assessed Need

Construction Cost are estimated to be \$601,514 for this project. In 2014, the Navajo Zoo received a federal grant through the U.S. Fish and Wildlife Service's Tribal Wildlife Grant program to cover \$200,000 of the design and engineering, and initial construction. The architectural & engineering portion of the project will be covered by the federal grant, along with approximately \$130,000 of construction costs. To complete construction of this aviary, a total of \$351,514 is needed for construction, and an additional \$50,000 to cover the additional costs for construction, equipment, and administration. **Therefore, The Navajo Zoo Program of the Department of Fish and Wildlife is requesting a total of \$401,514 to cover the remainder of the construction costs of this Eagle Aviary.**

Current Year's Existing Budget to Address Assessed Need

Total Existing Budget Estimated Cost: \$ 200,000 from Federal Tribal Wildlife Grant program of the U.S. Fish and Wildlife Service.
