## MEMORANDUM

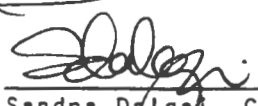

TO : Sandra Dalgai, Chairperson  
Motor Vehicle Review Board

FROM :   
Ben Manuelito, Department Manager III  
Fleet Management Department

DATE : February 12, 2018

SUBJECT : Vehicle Procurement - Replacement

Approved/Disapproved

  
Sandra Dalgai, Chairperson  
MVRB MEETING 02-14-2018

Fleet Management is requesting approval for the procurement of Navajo Nation vehicles as replacements. The attached cost summary prepared from a list of vehicles that have accumulated mileage in excess of 100,000 miles and due for replacement.

Following MVRB approval, Fleet Management will forward the 2018 Vehicle Assessment form to each eligible program for input. Upon receipt of the form, Fleet Management will review and incorporate into the specifications. Fleet Management will work with each eligible program to ensure that cost consideration is kept in mind, as well as practicality and usage. Previously, the MVRB also approved the assignment of vehicles for some programs and Fleet has been unable to assist with any vehicle, therefore these requests will be added to the listing, and may increase the total slightly.

The Office of the Controller (OOC) has provided the unaudited balance of the Fleet Management fund as of December 31, 2017, indicating that there is an unaudited Unreserved amount available for use in the fund balance. Additionally, there is currently a budget within the business unit 812003 that is available, see attached memorandum. A recommendation based on mileage criteria beginning at 100,000 miles, quantity of vehicles and projected cost is forthcoming from OOC. The Purchasing Department will be assisting Fleet Management's proposed procurement via public bidding. Fleet Management will prepare an Invitation for Bid and specifications for each vehicle class, and initiate the process of vehicle replacement which should be completed by late summer 2018. Your favorable consideration and approval is requested and appreciated.

Motion: Pete Ken Atcitty  
Second: Nelson Begaye

**FLEET MANAGEMENT DEPARTMENT  
INTERNAL SERVICE PROPRIETARY FUND ACCOUNT FUND MANAGEMENT PLAN**

**I. ESTABLISHMENT**

There is hereby established the Fleet Management Department Revolving Account, ~~2-86200, Proprietary Fund Account, 812003~~, for use by the Fleet Management Department within the Division of General Services of the Executive Branch and the Government Services Committee of the Navajo Nation Council shall provide legislative oversight.

**II. PURPOSE**

The purpose of the Fleet Management Department revolving account ~~Proprietary Fund account~~ is to provide a source of funds to provide motor vehicle transportation services to the Navajo Nation Government departments and programs. Fleet Management provides rental of a fleet of vehicles to the various Divisions, Departments, and Programs shall be used to offset the Fleet Management Department's actual operation expenses.

**III. ADMINISTRATION**

**A. FUNDING SOURCE**

The Fleet Management Department receives its revenue from five major sources. The first source is through the annual vehicle rental agreement between Fleet Management and the various departments/programs. These vehicles are classified as permanent assignments in 17 different classes and are charged monthly fixed rental rate. The second source is through the temporary rental of available vehicles. ~~These vendors are classified as the rental pool. Each department/program is charged for the use of the vehicles assigned to their department/programs. to departments on a short term basis. These vehicles are classified as the rental pool and are charged the daily use rate.~~ The third source is through monthly vehicle mileage user charges from both annual vehicle assignment and temporary short term vehicle rental pool. The fourth source is through vehicle service agreements with various department/programs and entities. Revenue is

~~also received from the sale of surplus vehicles that are returned to the fleet account, mileage credits and other tribal credits. The account balance in the program account shall be carried over into the following year without further action pursuant to 12 N.T.C., Section 804(3). The fifth source is from proceeds received from the sale of surplus vehicles through the Property Management Department.~~

## **B. RATE SETTING MECHANISM**

The motor vehicle service user rates are derived by a composite of last fiscal year's financial and statistical information of total miles driven, repair and maintenance cost on vehicles, auto equipment services, fuel consumption, vehicle lease payment other expenses and personnel. ~~There are two different vehicle rates calculated, first rate is for Fleet Management acquired vehicle, either through direct purchase or long term lease purchase plan. The second rate is for department acquired vehicle through their program funds. The vehicle mileage rate is determined from annual cost of fuel (bulk delivery and commercial gasoline purchase through credit card). There are five different group vehicle rates and they are composite of similar vehicle description (vehicle gross weights, engine capacities, four wheel drive, two wheel drive, and etc.). These vehicles are acquired through direct purchase (via lease purchase plan) and vehicle depreciation expenses are calculated. The vehicles acquired with external funds also are composite of similar vehicle description and the vehicle depreciation expenses are not included. The annual cost of fuel (bulk delivery and fuel purchase through credit card), maintenance cost of dispensing equipment and administration overhead are included. (See Exhibit B).~~

The motor vehicle service user rates are annually reviewed annually and established to recover fleet services and operating operation expenses. These users' rates are approved reviewed and recommended by The Office of the Controller for adoption of annual budget policies and guidelines.

## **C. EXPENDITURES OF FUNDS**

The direct fleet vehicle operating expense includes the Fleet's personnel (salaries/fringe benefits), travel, supplies/inventory (parts, oil, tires & etc.),

~~fuel purchase, vehicle lease payments or vehicle purchase, auto body repairs, windshield/glass repairing, telephone/communication, repairs and maintenance (equipment) on shop equipment, education/training, and shop equipment purchase. Other expenses include new vehicle licensing/titling, accident repairs, services support for automated fuel system and fleet management system, and additional cost to comply with environmental protection agency on cost to upgrade fuel storage tanks, services for emergency fuel spill, and correction on building/safety deficiencies improvement on building safety.~~

Expenditures from this revolving account Proprietary Fund shall be made in accordance with established Navajo Nation budget policies and procedures and shall be budgeted each fiscal year through the Navajo Nation annual budget process.

#### D. PERIODIC REVIEW

The Office of the Controller shall periodically review the expenditures against the revenues received. During these periodic reviews by the Office of the Controller, in the event the program has a deficit in an account balance, Fleet Management Department must justify control over operating expenditure and review the revenue collection process.

Each fiscal year ending after financial adjustments funds remaining will carry over to the succeeding fiscal year. The fund balance will be for capital asset expense or unforeseen fuel price increase.

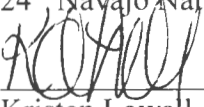

#### IV. AMENDMENTS

The Fleet Management Department Revolving Proprietary Fund Management Plan Section I through IV may be amended from time to time by the Budget and Finance Committee upon recommendation of the Government Services Committee of the Navajo Nation Council as deemed appropriate.
